INTRODUCTION

This is the sixth volume of the Smith Papers and Volume 30 of the *Collections* of The Connecticut Historical Society. Its publication is possible through the Public Act appropriating $1,000.00 annually to the Society for this purpose. Additional letters have been found which will require a supplementary volume, May 13, 1812 to May 6, 1817, to conclude this subject.

Previous volumes of the *Collections* may be purchased from The Connecticut Historical Society, 1 Elizabeth Street, Hartford 5, Connecticut, and a list of other available publications may be had upon application.

JOHN COTTON SMITH TO EBENEZER HUNTINGTON

[9:116]

SHARON 8. June 1816 —

Dr Sir —

Enclosed you have orders for the formation of companies &c in the *third* & *second* brigades — I propose to set out for Vermont next week to be absent a fortnight, and have therefore concluded to furnish you with as much work as you will probably be able to accomplish against the time of my return — It has not appeared to me necessary to repeat in totidem verbis the instructions of the 30th ultimo — They are therefore only referred to particularly, & I doubt not will be scrupulously observed — You had made a slight mistake in the sketch you delivered me of the 2nd brigade — Durham should be assigned to the *seventh* regiment — and the whole of Guilford to the 10th — — conformably to the report of the board of officers & I mention the circumstance that you may correct your own minutes accordingly — — There is an application, you will remember from Pettipauge for the transmutation of one of their companies into a rifle-company — I have written Gen1 Whittelsey upon the subject but have given him no orders to accept the association — If when you are in that brigade you find such a company can be prudently & conveniently raised in the place proposed you may accept their association & issue an order for the choice of officers Col. Jewett is of opinion one infantry company will be sufficient for that parish & is therefore in favour of this rifle company It is necessary also to clothe you with discretionary authority relative to the formation of two rifle companies in Chatham as urged by Col. White — His proposal, as you know, is to raise these companies from the two militia companies in the west parish provided they cannot be annexed to the Middletown regiment — The case must therefore be decided before you apportion companies to that regiment — It is attended with difficulty & embarrassment — If they will be contented with one or even no rifle company I should prefer it rather than to weaken that regiment — but if you

perceive that the peace of that town & of the regiment requires the two to be formed you may adopt that course — Possibly however the individuals composing those companies will not unite in the application, in which event we shall of course be extricated from the dilemma — As to the project of annexing that part of Chatham to the regiment on this side of the river, it can by no means be admitted however desirous I am to comply with the wishes of Col. White —

You will probably recur to this letter for the purpose of refreshing your memory when you enter these two brigades, otherwise amidst a multiplicity of objects these points may be overlooked —

I shall wait with anxiety the issue of your operations in the 5th brigade — May you be directed & assisted by a kind Providence —

I am Dr Sir sincerely
your obt Sert

P. S. Remember the case of the two Sergeants at Plainfield — I have written Col. Gordon that the Subject is refered to your inquiry & decision — —

HARTFORD, 10th June 1816

sir,

I trouble your Excellency at this time to request permission to recruit such of the companies in the first Regiment of Cavalry, as are contemplated to be retained on the new establishment, under such restrictions as your Excellency shall prescribe. It will readily occur to your Excellency that the new Law augments the numbers to compose companies — and as there has been few enlistments the last eighteen months, our companies will not average more than about half the men allowed.

The third company, late under the command of Captain, now

Major E. L. Phelps, is destitute of a captain, owing to his promotion. I think it desirable the vacancy should be filled, tho' a commission will not issue till fall. I wish therefore, your Excellency would give an order to a proper officer to lead the company to the choice of a captain, and to fill vacancies

I am, sir, very respectfully
Your Excellency's obt servt

JACOB LINSLEY TO JOHN COTTON SMITH

[9:118]

Hon. John C. Smith Esqr.

Dear Sir, Having been afflicted for more than three years with lameness, & seeing but little (if any) prospect of recovery, having attended to the means prescribed by several noted Surgeons with little or no success, & considering my standing in the Militia I thought proper to apply for a discharge. I accordingly applied to Capt. Joel Ives in April last. Having been acquainted with my situation he hesitated not to give me a recommend to the Surgeon of the Regt in the words following, to wit, — "To Dr. Anson Foot Surgeon of the 27th Regt. Con. Militia, Sir, whereas Jacob Linsley a Serjt in the Compy under my command has for nearly three Years been afflicted with lameness which has almost entirely kept him from labor, & seeing little or no prospect of his recovery, I have thought it my duty to request of You a certificat for him to the Brig. Gen. of the 2nd Brig. for a discharge from military duty.
Yours Respectfully,

Joel Ives Capt. 2d Comp. 27th Reg.

Branford 17th of April 1816." — — — — — — —

I then went to the Surgeon who gave me a recommend to

Brig. Gen. H. Howe in the following words, Viz. — — — — — "To Hezekiah Howe Brigadier Gen. of the 2d Brigade Con. Militia

Dear Sir, Jacob Linsley a Serjt in the 2d Comp. 27th Regt has been attended with a lameness of the hip joint" for nearly three years which has disenabled him from labor & Military duty, & is probably incurable; from this view of his case I am of opinion he ought to be excused from Military duty, and hesitate not to recommend him to You for a Discharge. I am Your's respectfully

Anson Foot Surgeon 27th Regiment

Guilford April 17th 1816." — — — — — — — — —

Dr. Anson Foot was one of the surgeons to whom I applied Under these circumstances as the power of discharge is by Law vested in the Capt. General I thought proper to address Your Excellency on the subject, hoping that You will consider my case & let me know Your decision.

I am, Sir, with respect Your Obedient Servt.

CHAUNCEY WHITTELSEY TO JOHN COTTON SMITH

[9:119]

Middletown June 17th 1816

Dear Sir

your Excellys letters of the 6th & 8th inst were reced by me on Saturday. I have not as yet had time to make the necessary enquiries respecting one or two subjects, to enable me to give an opinion at present. I can only say that the application of the Litchfield Company to change the uniform, cannot in my opinion be granted with out injury to the Corps, I will give my reasons hereafter.

Mr Selden Cook 1 L^{t} 6 C^{o} 7 Rg^{t} of Cavalry & Mr Nathl C Smith Cornet of the same Comp^{y} have called on me, requesting me to give my opinion as to the policy of retaining that Company. They state that they have on their roll forty men including non commission officers who are all permanent inhabitants of the district in which that Comp^{y} is raised, that they have applications enough to fill the Company. they will present your Excel^{y} with the Roll & Number of applicants. Your Excell^{y} already knows my opinion & the reasons on which that opinion is founded & I can only add the following facts to those which I have heretofore stated — ToWit That there is not any located Comp^{y} of Cavalry within a circuit of 18 Miles diameter, except the Company in this Town, which will undoubtedly be disbanded if the 6th is retained — that the Comp^{y} in this Town if disbanded will in all probability unite with the Horse Artillery — — Many of them were disposed to enlist into the H Artillery, but cannot — I am informed that Your Excell^{y} has received information that the C^{o} here will not join the H-Artillery if disbanded, — this information I am satisfied is wholly incorrect, I know that some of them are desirous of being disbanded, that they may join Capt Trowbridge's C^{o}, & believe that the two junior officers & more than half the privates, would at once join that Comp^{y} Mr Shumway the first Lieut of the Comp^{y} here, is desirous of being discharged, & I think his reasons are such that Your Excel^{y} will discharge him — & if he is discharged, the Company will probably dwindle away, as he has been its main support for several years.

I *am informed* that Genl Deming has begun to change his opinion on this subject & to take the same view of it, which I have done

I am sure than I can persuade him if he is not already persuaded, that it is better that he should have one good Company of Horse Artillery in this place, rather than that he should have one poor Comp^{y} & Genl [left blank] of the Cavalry have one poor one also

I pray yr Excel^{y} to excuse the hasty manner [in] which I have been obliged to wriet — &

believe me with great respect
Your Excellencys most obed^{t}

JOHN B. CHITTENDEN TO JOHN COTTON SMITH

[9:122]

GUILFORD June 17th 1816

Sir

We have been informd that considerable progress has been made in re organizing the militia of this state. That the companies in the towns of Guilford, Branford, Wallingford & Durham will constiute one Regiment. We would state that in the first society in Guilford there are more men that bear arms than in any other society within the proposd limits there being at present one company of Light Infantry two battalion Comp & a part of a Compy of State troops We are therefore of opinion that a flank company can be furnished more conveniently from this society than from any other within the limits of the Regiment & as the law contemplates flank companies in every Reg of Infantry we would request your Excellency to accept the Light Infantry Company in Guilford now attachd to the 27th Regt as a Lt Inftry Co. in the Regiment about to be organized And we be leave to observe that in this request we express the wishes of the Company as manifisted by their vote

Should your Excellency however be of opinion that it would better subserve the interests of the State to form a company of Light Artillery in the Town (of which we have had some intimations) we are willing to exert ourselves to raise a company of that discription. We are with esteem your Excellencies most

obedient Servants — — In behalf of the Officers of the Lt, Inft^{y} Company

CHAUNCEY WHITTELSEY TO JOHN COTTON SMITH

[9:123]

MIDDLETOWN June 20th 1816

Your Excellency's Letters of the 6 & 8th inst are before me. I have not yet obtained information upon which to make up an opinion as to the propriety of granting the Petition of the 10th C^{o} 2^{d} Reg^{t} I am opposed to the alteration of the Uniform as proposed by the Litchfield Comp^{y} — because alterations should be made only by the general consent of the Corps & because I think the alteration a bad one. The Hartford Comp^{y} are desirous of having a Green Uniform. Experience has shown that that Colour is unfit for actual service, that it looses all its Beauty in a short time there are the same objections against facings of that Colour.

If I can find time to attend to the business in the course of next Month, I propose calling the Captains of Companies together for the purpose of consulting on this & several other subjects, — but as our Sup^{r} Court is soon to sit I fear I shall not be able to attend to it till August.

I do not feel myself competent to give an an opinion respecting Rifles on which Yr Excellency can place much reliance. There is no subject connected with the Militia on which I have less information than with respect to Rifles & Riflemen & on referring to my Books, I find very little is to be acquired from them. My opinion must therefore be rather the result of abstract reasoning than experimental knowledge; & as experience is the only true guide on this subject, my opinion may be very incorrect.

The barrel of the Rifle should be in length at least ft 2— In 8

& not exceed 3 ft 4 I— Were I to direct, I should allow them from 2 ft 8 I to 3 ft — preferring 3 ft — —
Calibre — to carry an half ounce ball
Bayonet — length of Bayonets on United States muskets no of inches now out of my mind
Implements — Bulletmould — Wiper — Screw driver to each Rifle — Worm or Ballscew one to 10 men
Shot pouch, Powder horn or Flask

It is ascertained by Experiment that a Rifle 2 ft 8 In, long, will throw a ball as far & with as much accuracy, as a longer one — less length will not do — — — one of that length, is loaded easier, is lighter & more readily handled, than a longer one — the inference is that that is the proper length. The only objection that occurs to me is, that one so short might endanger the Troops using them. The Rifle is carried much at the Trail, & also leaning aslope on the arm — a careless man might let fall the muzzle so low as to endanger the next files, should the Rifle unexpectedly be discharged. This is however not often to be apprehended, & probably four inches added to the length would prevent the danger

The United States standard at present is — length 2 ft 9 I— — Caliber — half ounce, same with the new pistol Caliber, so that Cartridges for one fit the other — I see no objection to the Caliber — Bayonet— — It is a general opinion that a Rifle Bayonet should be long enough to make the Rifle & Bayonet equal to the Musket & Bayonet — I see no foundation for such an opinion. There is no use in having a musket barrel over 3 feet — — except as Infantry are called to charge or stand the Charge in Column or square. The present length is retained, I believe, only because it presents 3 Ranks of Bayonets to the Charge; for the purpose of charging in line a shorter musket is certainly preferable, as will easily by[sic] seen by a single experiment. I believe the French musket is not so long as the English by four Inches, but am not certain. Rifflemen are seldom called to make or stand a charge in Column or square — it appears to me therefore that if you give sufficient length to your rifle & Bayonet, so that a Rifle man on his knee can project his Bayonet far enough to

protect himself from a sabre cut of a Trooper, you have length enough — I should judge that a three feet barrel, with Bayonet of usual length would be sufficient for that purpose.

The Men may in my opinion use either a Powuder[sic] horn or flask, those terms all in practical use convertible

It will undoubtedly be necessary to give the Corps instructions as to exercise & evolutions. It will require much reflection & study to prepare those instructions in a concise & accurate manner. At present I feel myself quite incompetent even to advise on that subject. I hope some of the Field officers who shall be hereafter appointed will understand the subject better than I do — If however I should be disappointed in that respect, I will endeavour to make up a set of instructions to submit to Your Excellency.

I have ventured to indulge a hope that the state would purchase some Rifles & they might go into the hands of the Men, under proper bonds to be renewed annually —

I am induced to believe that an Arrangement may be made with the United States, to receive the proportion of Arms coming to this State under the Act of Congress in Rifles & that by adopting that Course we may obtain our proportion, as soon or sooner than any other State. I have consulted Mr Dana & he thinks an arrangement may be made without difficulty.

Artillery cannot be obtained in the same way, as it is not within the Act of Congress — — but I would suggest, whether it is not expedient to purchase of the United States, one or two pair of Iron Sixes — with Implements Harnesses, Caisson & Harnesses Complete for the Horse Artillery — selecting those that are new, have been well seasoned & made upon the most approved plan, as models for us hereafter — & that they should be charged in account to this State. If I had authority to make an attempt I should almost venture to promise success. The Mode proposed will be the Cheapest & best for obtaining Rifles & Guns, as the United States would supply the former under the Act of Congress & the latter at Contract prices —

June 21 Since I commenced my letter, I have seen Capt Wells of the Hartford Company & have conversed with several

of the Corps from other Companies — there is a strong disposition for a Grey Uniform & to adopt a light Jacht Hat for the Cap. The Uniform proposed would be preferable to the present, were it res nova — as it is I do not see how this disposition can be indulged, unless by having one Regiment of Greys & one of Blues.

I do not recollect what Uniform was prescribed for the Brigadier — I shall be much obliged to Your Excell^{y} for a Copy of the order directing the Uniform of the State Troops, if it can be made out without too much Trouble

Your Excellency has heretofore had the goodness to give me letters of introduction, which led me into Society, from which much gratification & instruction was derived. I propose to leave this for New York on Wednesday & shall be much obliged to Your Excellency for Letters to any of your accquaintance in New York, with whom you may think proper to make me accquainted.

Should Yr Excellency forward Letters, I wish them directed to me in New York to the Care of Messrs I & C. C. Griswold

I am with great respect
Yr Excellency's very obed^{t} Ser^{t}
& friend Ch^{Y} Whittelsey

Sharon 27. June 1816 —

Sir

In reply to your letter of the 17th instant (which arrived during my absence on a journey) I would observe that under the resolution of the legislature passed at the last Session I have instructed the Adjutant General to retain *all* the *enlisted* flank companies within the limits of a proposed regiment and to post them according to their seniority — You do not state

whether the Light Infantry company to which you refer was raised by *enlistment* or whether it is a *located* company formed into a flank company by order of the colonel — If the former it will of course remain & do duty as such. If it is not thus constituted I can perceive no objection to raising a flank company by enlistment in Guilford, unless there are already two enlisted flank companies within the proposed limits of the regiment — The towns composing the regiment, as reported by the board of officers, are Guilford Branford North Haven & Wallingford — — (Durham is not included as you seem to suppose—) — I am not informed as yet whether there are any enlisted flank companies within those towns — but the report of the Adjutant General which may be shortly expected will undoubtedly ascertain the fact — In the mean time any further communication you may address to me upon this subject shall be duly noticed —

I have adopted this course inasmuch as the adjutant General had orders under date of the 8th instant to form the companies & regiments in the 2nd Brigade & I am not yet informed what progress has been made under those orders — In any event it is essential to his arrangements that he be put in possession of your application —

I am just returned from my Northern tour and feel some disappointment at finding on my arrival no intelligence from you whatever — Orders for forming the companies in the 2nd & 3rd brigades were forwarded under date of the 8th instant — I hope they came safely to hand — You will easily imagine that my solicitude for you in your present undertaking is by no means inconsiderable — I am particularly desirous of ascertaining whether it will be practicable for you to complete all the arrangements in season for the Autumnal trainings — if not

you must have coadjutors — I however indulge the hope that you will be able to accomplish the business alone — a course which is to be altogther preferred — orders for the other brigades must of course be suspended until I hear from you —

The enclosed document from Haddam with the order thereon endorsed will sufficiently explain themselves — I trust no circumstances have happened to prevent the arrangement from taking effect — but I have thought it most prudent not to make the order unconditional —

PETITION FROM DURHAM

[9:132]

We the subscribers, inhabitants of the town of Durham, would respectfully represent to your Excellency, the following statement of facts relative to the situation of this town with respect to the performance of military duty under the new organization of the militia of Connecticut. It is proposed that the towns, Haddam, Saybrook, Killingworth and Durham, constitute one regiment. That Guilford, Branford, North-Haven and Wallingford compose another regiment. It is our request, and, considering the local situation of East Guilford a society

of Guilford and that of Durham, we think it would be reasonable and a mutual advantage to these places, that East Guilford be annexed to the first, and Durham to the last mentioned regiment. The distances from East Guilford to the different places of parade in the towns east of it are nearly as follows, to Saybrook, Old town 12 1/2, Westbrook 8, Pettepague 11 or 12 Chester 14. Hadam 15 or 16. Old Killingworth 4 1/2. North Killingworth 7. miles. The roads to the above mentioned places are generally good. As East Guilford is now located distance to the other socities of the town, Old town 5. North Guilford 11. North Bristol 6. Old Branford 13. North Branford 12 or 13. North Haven 20. Wallingford 22 miles. The distances from Durham to the towns with which it is to be connected are about 26 miles to Saybrook old town, 22 to Westbrook. 22 or 23. to Pettipague, 18 to Chester. 10 miles to Haddam, 17 or 18 to Old Killingworth, 12 to North Killingworth, The roads to some of these places are very bad. The distances to the several places, with which we desire Durham should be connected are nearly as follows, Old Guilford 15. North Guilford 9. North Bristol 8. North Haven 14. Wallingford 8 miles. Northford 8. North Branford 12. Old Branford 18 miles. The roads, usually, good. As it is to be presumed there will be no material alteration in the population of the several towns, which compose these two regiments, this new arrangement will be permanent. We consider it an unreasonable burthen that not only such as now belong to the militia; but also they, who may hereafter belong to them, should endure such an increased fatigue and expense. As East Guilford has ever been connected with the other societies of that large town, its inhabitants, notwithstanding the increased distances to the towns west of them, may be willing to remain as is proposed in the new arrangement. Col. Baldwin, also a respectible inhabitant of Guilford, may, rather, choose to retain the large company of E. Guilford in the regiment under his command, than exchange it for the very small company which at present exists in Durham. We, therefore, inhabitants of Durham, remonstrate against the proceedings of the Colonels of the several regiments and respectfully request your Excellency, whatever may be decided about

an exchange, that you would cause that Durham be assigned to the other regiment.

SHARON 6. July 1816

Dear Sir —

Your letter under date of the 29th ultimo enclosing your proceedings in the 5th brigade arrived yesterday evening, I am gratified that you have been able to accomplish so much in so short a period — From this sample of your diligence I take occasion to hope that you will nearly complete the circuit in all this month — I lose no time therefore in forwarding an order for the three remaining brigades, trusting it will reach you at farthest by the day you mention —

Would it not be advisable for you to take such a route as to end your labour at Hartford, where we may meet for the purpose of preparing & issuing the General order? — We shall require the whole of August I fear to give the order the necessary circulation previous to the September trainings — Should an earlier interview be necessary let me know it — If the whole cannot be perfected in season, would it not be well to issue provisional orders to such of the brigades as shall have been organized directing them to conform to the new arrangement? — I merely suggest this thought, hoping at the same time that the measure will be unnecessary —

I infer from your letter altho' not mentioned that my communication of the 8th ultº covering orders for 2nd & 3rd brigades came duly to hand — I trust also mine of the 29th of the same month has reached you —

The request of the Artillery company in Griswold shall be noticed —

EBENEZER HUNTINGTON TO JOHN COTTON SMITH

[9:135]

My dear sir Marlborough 6 July 1816

I have the pleasure to acknowledge your esteemed favour under date of the 29th of July which I suppose was intended for June — — — After receiving your excellency's favour of

the 8th of June covering orders for forming the second & third brigades, I immediately issued a circular & fixed on this & the next week to complete both brigades — — — — I attended at Stonington on Monday and returned on tuesday, at Norwich on wednesday and yesterday morning met here for this regiment — I shall be at Cheshire on Monday, at New Haven on tuesday, at Guilford on Wednesday, at Saybrook on thursday at N London on friday, which closes all the regiments in the 2d & 3d brigades — — — — I shall calculate to take the first fourth & sixth brigades in one circuit, taking the Sharon regt for the last, so as to have an interview with your excellency before my return home — —

I presume your excellency hath before this, received my communication of the 29th of June after my return from Windham & Tolland Counties, which I presume has been satisfactory, not only as it respects the formation of the 5th brigade, but also as affording to your excellency a knowledge of my having attended to the business with as much zeal as could have been reasonably expected — — — I find that I can arrange a regiment daily, but I must be industrious to do *four* a week & travel from place to place — — —

I believe that your excellency will be satisfied with my arrangement respecting Chatham when you see the report for the third brigade — — — Colo White is convinced much difficulty attends his proposition for a rifle company which was opposed by all the officers present here, & as he is retained, I suspect he will abandon his project — — — —

Colo Shepard made his election to retire, which as senior he claimed, thus Col White claimed & made his election to retire but I informed Colo White, that as Col Bulkley the junior Colo had resigned in May, & his resignation accepted by the lower house I must enter Colo White as Lt Colo Commdt of the new proposed regiment and state the facts to your excellency — — I believe retaining Colo White will give very general satisfaction to the officers & inhabitants both in Chatham *& Colchester* —

I should have written to your excellency acknowledging the receipt of orders for forming the second & third brigades, but

I wished to make an essay in forming the fifth brigade before I committed myself respecting the time necessary to accomplish this very unpleasant & hazardous undertaking — — I find much caution & prudence requisite, but from present experience, I flatter myself with succeeding without much excitement — — — Indeed scarcely any formation takes place, that does not appear *rather gratifying* to the officers than otherwise — — — — I shall calculate to send the result of my present circuit on my return & shall then be able to inform your excellency respecting the formation of a company in Haddam — — — — General Williams hath not yet completed the inlistment for forming a battalion of Horse Artillery, but the order is in execution — — — The two companies in Norwich &C have been together & a choice of officers returned to me, which I calculate to hand your excellency when I shall be at Sharon

I am very sincerely yours

To his Excellency
Sir

At the close of the late war the Company which I now have the honor of commanding was in numbers and ac-

quired Honors equal to any other of that Cota in the State but owing to the situation that left us in we have not been able to obtain an order from the Colonel for enlisting a single soldier since: and the company having been composed almost wholly of young sprightly ambitious single men and they many of them not settled in life have removed out of our limits untill we are reduced very low (about the number of 36*) And now if it please yo[ur] Excellency I should think it a great favo[ur] to have a permit from you to enlist the numbers of 18 or 20 to be taken not more than 4 from any one Com^{p} The Companies are now respectable and almost full as we have not enlisted any from them since some time previous to the close of the war There are 5 or 6 which were enlisted from the limits of 15th Reg^{t} and have continued to do duty with us by the permits of the legislature untill now and if the new arrangment would include and return them we should be much pleasd An accomodation with these requests would be greatfully acknowleged by your Excellencys obedient and humble Servant

His Excellency
John C. Smith Capt Genl,
sir,

I have held a Commission in the 8th Company 2^{d} Reg^{t} upwards of five years. I have had the command of that Company above three years. In the course of the last summer, I had the misfortune to have my knee fractured. This circumstance has rendered me incapable of [do]ing military duty & there is no probability that the fractured limb will ever be so far restored to soundness as to enable me again to attend to the duties of the office. I am

in the 46th year of my age — I must therefore request Your Excellency to discharge me from further military duty. I am, with great respect,

This Certifies that the within named Jacob Whiting applied to me about the 1st of June 1815, for advice concerning an injury which he had received in his knee. He was unable to walk without assistance; and his knee, to my knowledge, remained quite lame f[or] many weeks. The injury which he received was, as I supposed, a fracture of a bone near the knee joint.

JONATHAN KNIGHT.

NEW HAVEN 9th July 1816 —
Sir,
I am Requested by Capt Jacob Whiting who is, & has been for seven years past one of the principal workmen in my manufactory, to State to Your Excellency what I know relative to his disability, refered to in the above certificate of Doct. Knight. His knee was injured in an altogether incidental & most extraordinary manner, in cross a fence — — It rendered him wholly incapable of doing any kind of business for three or four Months; & he was constantly lame for a Much longer period — — — He is now lame and complains of pains in the joint only at times; I think, however, it is very doubtfull whether his limb will ever be restored to perfect soundness.

Some days since I lodged a complaint with Genl How against Capt Billious Cook & Lieut Russell Hall officers of the 3d Comy 2d Regt Cavallry for non performance of duty on the first Monday of May last past & other unofficer like conduct the circumstances of which you was made acquainted with though not I presume with the particulars having not opportunity of seeing Genl How since untill with in a few days he informed me that as part of sd Company had Volunteered for Horse artillery that he had no authority to call them to account for their misconduct but informed me that it was his opinion that the Capt General was the proper person to whom the complaint ought to be made, — — — if Genl How is correct in his opinion — I wish to be informed if not correct who the proper person is to whom the complaints should be made.

I have supposed untill last evening (from information from the Representative of this Town) that Capt Cook was discharg & that the afsd Lieut Hall was commissioned as Capt of sd Company — — — but the Adjutant General told me last evening he thought that the sd Cook was not discharged as yet. I should like to be informed the situation of the afsd officers — your answer to the foregoing request will oblige your humble Servant

The Secretary's office is the place from which information of this kind is to be derived — A Communication was made to me upon the subject near the close of the last session of the Legislature, and it was referred to the committee appointed to receive military returns; but the result, if it ever came to my knowledge, is not within my recollection —

To His Excellency John Cotton Smith Esq.

Sir,

The numbers of the 2d Company 2d Regt military Corps, being desirous of associating themselves and of being formed into Riflemen, have requested me, late Captain of that Company, to address you on that subject, and to desire some information, and direction, respecting the measures requisite to be by them taken, to effect the purpose aforesaid — We have been directed by the Adjutant General to make this application — The Company does not volunteer entire, but the number of those who formerly belonged to the company, and who decline associating associating for the formation of a Rifle Company, is very limited —

If no further measures be necessary to be taken by us, it is desired that some person may be appointed, for leading the associated men to a choice of their Officers — — It is desired, if it be allowable, that the time when this choice shall be made, should be left to the discretion of the person who may be designated to lead the men to a choice — —

It may be proper to remark, that the Adjutant General in the

late re-organization of the Militia Regiments, reduced the 2 Militia Companies of this Town to one, with a view to the formation of a Rifle Company here, and that to the number already associated, additions are daily made — — — — — —

I learn with much satisfaction by your letter of the 9th instant that a company of Riflemen is about to be raised in Pomfret — As the members of the late 2nd comp. 2nd regt of state troops do not propose to offer their services *as a company,* but as individuals it will be requisite for them (together with such others as may associate with them for the purpose) to Subscribe an Application addressed to the Commander in chief requesting to be formed into a company of riflement pursuant to the Act — On receiving which, such orders will be immediately issued as shall be adapted to the case — The application may be forwarded by mail — In forming the association care must be taken not to include any men already enlisted into other select corps — & also not to reduce the infantry company below its

legal complement — I shall not insist upon the precise number of applicants necessary to form a company in the first instance — provided there is a rational prospect of filling it up in future without materially affecting the Infantry — It would however be desirable to present a full list if practicable — — With my particular thanks for your attention to this interesting subject,

My dear sir

On the 13th I returned from arranging the companies in the second brigade, & this day have been employed in issuing circulars to the 1st 4th & 6th brigades which were recd during my absence — — — Not having flattered myself with the idea of meeting your Excellency at any point this side of Sharon, I had calculated & made arrangements to be at Sharon the 9th of August to form that regiment which will close the twenty four regiments of Infantry —

When I arrive at Sharon I shall *endeavour* to have a report of the formations ready to lay before your excellency & I presume your Excellency will deem it expedient to vary the formation in some instances —

I think Woodbridge ought to be set to the second regiment — — Durham to the 10th & East Guilford to the 7th but as the remarks I wish to make would exceed the limits of a letter — permit me to say that the form of the General Order to be

issued may be drawn, having a place for inserting the formation of the Infantry — —

I hope your excellency will direct the autumnal inspections to be by battalion; & all in formation of new flank companies to be directed in their uniform

I will endeavour if possible to have the formations in the 2d & 3d brigades precede my arrival — — I am anxious to close this very unpleasant but necessary business as soon as possible, but I find the utmost prudence patience & caution necessary to avoid excitement — — —

I flatter myself with accomplishing the object without stirring many angry passions — — I believe when I see you & explain the business, your excellency will be satisfied that every thing has been done by me which could have been done, & with as much promptitude as the business would permit — —

Next Monday I leave this place for Hartford, take a regt at Hartford on tuesday, one at Wethersfield Rocky Hill on Wednesday, one at Farmington on Thursday, one at Canton on Friday, one at Winstead on Monday following, one at Litchfield on tuesday, one at Woodbury on Wednesday the 31t — — one at Bridgeport on friday the 2d of August, one at Stamford on the monday following one at Wilson on tuesday, one at Newtown on Wednesday, & the one at Sharon on friday the ninth —

I presume your excellency has before this recd my letter from Marlborough —

I am dear sir with much respect

Dear Sir,

On my arrival at Saybrook I found the 10th Co. had in-

Gen. agreed to wait till the fate of said application was known and if denied to grant their request — — From the information which I have obtained I think the Adjt. Gen. had not received your Excellencies Order when at Saybrook. There is now an attempt in Pettipague to raise a Rifle Co. in the Eastern part thereof in opposition to the application of the 10th Co. — — What we request is that before your Excellency denies us he would gives us an opportunity to be heard and to produce our Evidence if he thinks any more necessary on our part as we are confident that we are entitled to what we ask for — — — — —
We hope and trust that your Excellency will be particular to pay attention to one thing relative to the new application whenever it is presented and that is the welfare of the 8th Co. for if this new application is granted that Co. might as well be disbanded this I think we can satisfactorily show if we have opportunity

Sir

A number of person, Sixty in the whole, have associated for the purpose of forming a Rifle Company in the first parish in Chatham, & they wish me to forward the subscription papers to you. As the papers are much worn & some what larger than can be conveniently enclosed in a Letter, I have retained them. Colo White informs me that he has given yr ExcellY information respecting the situation of that Parish. & that the Adjutant General is auquanted[sic] with any fact relating to the militia there — From what information I possess, I presume a very respectable Company may be formed from the Persons who have signed the subscription

CANTERBURY July 17. 1816.

His Excely Govr Smith Capt Genl

Sir, When the Adgt Genl came within the 5th Regt as located under the reorganisation of the militia, for the purpose of giving bounds to the respective Companies, constituting the same, he found the officers assembled to give such information as was required. An unusual share of unanimity prevailed among them and they were highly gratified with the prompt, able, and judicious manner in which he gave to the respective Companies their equal *rights.* The situation of the militia in this town, and the request of the officers, are the cause of my presenting this communication. Under the old establishment there were in Canterbury two Militia Companies (one in each society) and a Light Infantry Co raised by enlistment. Four years since the militia Co in the 1t Society & the Light Infy had become so much reduced in numbers that the members of both were indued to apply to the Genl Assembly for relief — In that application the old Light Infy resighned their charter and by a resolve, *that* and the militia Co. in the first society were abolished

and the persons subject, living within said 1t society were constituted a Light Infy Co, located with the lines of the Society embracing *All* within its limits without the power of enlistment. It is now thought best by the Adgt Gl and all concerned that *One* Militia Co should spread over *both* Societies in Canterbury and that a new Lightt Infy Co should be raised by enlistment agreeably to the provisions of the late law of reorganisation, the enlistments to be confined to the towns of Canterbury, Plainfield Sterling and South Society of Killingly which are to constitute one Battallion. And that the present Officers of the Light Infantry Co should be established as the Officers of the Company to be thus raised, and have orders for their enlistment as soon as convenient for Your Excellency.

The Adjt Genl will agree with me that the present Commander of the Light Infy is an experienced Officer and would shortly raise by enlistment a respectable Company.

If the state of the reorganisation would permit the officers would feel themselves under the greatest obligations if Your Excellency would condescend to adopt this course and forward their order for the enlistment by the 1st of August so that their Company may be raised by the fall Review.

I have the honor to
His Excellency's
most obedient sert

Capt. Jacob Whiting of the 2nd regiment of Infantry

has applied to me for a discharge from his office and on grounds which appear to be satisfactory — but his application is not accompanied by the recommendation of the Commandant of the regiment, a requisite which ought not to be dispensed with in ordinary cases — You are hereby authorized to receive his application supported by the proper vouchers & decide upon it accordingly — Should Capt. Whiting have been assigned to the command of a company under the new arrangement you will, in the event of discharging him, issue an order to fill the vacancy as soon as the number of the company shall be announced in general orders and you will do the like in the cases which have been already referred to your division —

Dr Sir

In reply to your letter enclosing Capt. Filley's papers, I would observe that the Adjutant Genl will enter upon the formation of companies in the first brigade the present week — It is very possible the Captain may not be assigned to a command under the new arrangement — in which event his object will be answered — It will be attended with embarrassment to issue the order he requests at the present moment as it is uncertain on whom the command of the brigade will devolve there being two Brigadiers within its proposed limits — A General order will be issued relative to dismission as soon as the organization is completed —

Dr Sir —

The uniform prescribed at first for the Brigd Genl of the state troops was that of Brigadiers of the militia — By a subsequent order made at the request of Genl Terry, the following alterations were adopted — towit —

The Brigd Genl will wear no feather &c — —

(reciting the order of 4. June 1814 —)

You will suggest any modifications that occur to you as proper for the Brigadier of the Riflemen & his staff — If you have found a more decided opinion than heretofore expressed as to the dimensions of the Rifle be pleased to communicate it as well as any other matters regarding the interests of the corps — Two additional companies are in the act of forming one at Pomfret & one at Pettipauge which will make the whole number *fourteen* — I regret that the inchoate state of the Brigade will not allow me to include their organization in the Genl order which will be issued in a very few days embracing the new arrangement of Infantry, Artillery & cavalry —

Under these circumstances I think there must be an order directing the Riflemen to meet for exercise &c. by companies the number of days required by law in the month of September next & to use their guns instead of rifles & such uniform as they now have until further orders — clothing the officers chosen or which may be chosen but not commissioned, with authority to act until the rising of the next Genl Assembly & authorizing for the present recruits from any located company of infantry in the vicinity *whose number exceeds the legal complement* still however preserving that complement Also intimating that more definitive orders will be issued at no distant day relative to implements & uniform, the recruiting service and the rules of discipline — As these objects are merely provisional they may be made the subject of a *Brigade order,* which I wish you ac-

cordingly to issue predicating it particularly upon instructions received from me — & furnishting the commanding officer of each company with a copy You may add if you please *"A word of exhortation"*. Should there be any other items which appear to you necessary to be inserted, you probably have time to suggest them to me & take further instructions —

I have called upon the Brig^{d} Genl of Cavalry for a report respecting the necessary reductions in that corps — He reports to me the very decided opinion of Genl Deming that the Chatham troop ought to be reduced and the one at Middletown retained — The combined opinion of the commanding officers of *both* corps on this point must necessarily possess very great weight— It remains I imagine that we amalgamate if practicable the Chatham troop with the Horse Artillery at Middletown

Let me have the pleasure of hearing from you soon — & be assured that I am very sincerely Dr Sir your friend —

Blue & buff will most probably be deemed the appropriate colours of the dress — But you will please to communicate your opinion as to the form & fashion of the apparel — also of the helmet & boots — — The more particular you are in your descriptions the better — I will only remark at present that the Brigadier will expect to be distinguished from his staff more by his badges than his dress —

Will you have the goodness (after sounding the feelings of y^{r} colonels) to favour me with your opinion upon this subject in detail

I have as yet received no report from the late Colonel now Genl Williams relative to the organization of the companies of Horse Artillery from the [l]ate 3rd reg^{t} of cavalry under the instructions given him in may last — and shall consequently in the gen^{l} order I am soon to issue feel some embarrassment in fixing the rank of companies in the Second regiment of Horse Artillery — That regiment you are sensible will consist of the companies just mentioned, the Second comp^{y} in the late 2nd reg^{t} of cavalry & the company in your vicinity — I will thank you to assist me with any information you possess in assigning the relative rank of these several companies— In the first regiment there will be no difficulty upon this point —

The Adjutant Genl will be here on the 9th of next month to make his final report — and it is hoped the Genl order embracing the organization of the Infantry, Artillery & Cavelry[sic] may be prepared by the 12th of the same month — I should be happy to hear from you respecting the rank of the companies by that time—

CHAS HOSMER, Adjt. 1st Regt.

HARTFORD, July 29, 1816.

From the above it will appear, that at the Regimental Review in Sept. last, the three companies in Hartford mustered but 178 men, and that this is the greatest number they have ever mustered. If these companies should be located into one, as is proposed, and the flank company enlisted from it, there will remain but 114 men who actually do duty, from which take 32 men, the number necessary to fill the Rifle Company, (which can be filled from no other, except that in Wintonbury) it will leave but 82 men, without allowing for those who may enlist into the two companies of Guards or the Artillery.

The two companies in Windsor, the 2d and 4th when united will have but 64 men, the number required by law.

The two companies in Wintonbury when united will have 73 men.

The company in Poquonock will have 41 men.

The flank company in Southington claims the precedence — That claim is not to be prejudiced by the present arrangement provided the proper evidence shall be hereafter exhibited of their prior origin as an enlisted company —

Also a Captain is assigned to command us who, although for a short time has resided within our limits, belongs to another (small) company, and who neither ever recieved any of our votes, or ever commanded any of us

We therefore earnestly pray your Excellency to grant us relief in both cases, as we think there ought to be at least four companies in the Town of Middletown, but if the number must be reduced to three, we earnestly pray your Excellency to grant us the right of, at least nomiting our own Officers — — In behalf of the above mentioned companies, we subscribe ourselves your Excellency's most obedient and humble servants — —

Woodbridge Augt 1st 1816

Your Excellency

Sir — — I take the liberty of thus addressing you in behalf of Merrit Dorman having been 4 years an Enlisted & serviceable soldier in the 1st Com^{y} of State Troops lately under my command,

The situation is this, Dorman lives in Hamden in the limits of the Militia Com^{y} under command of Capt Jacob Whiting, he was returned by him a delinquent to the Board of Officers. Col^{o} Elisha Hull *President* he was fined & a warrant lies against him — as by Law there is no appeal in this case, he would supplicate on the ground that he considered himself holden under me as the Com^{y} had not at that time determined about forming themselves into an independent Company further the General Officers gave their opinion to the several Captains that it was

not expedient to call on the State Troops, till they were disposed of in the Reorganization — Capt Whiting held his certificate of Enlistment & Dorman supposing himself not their subject made no excuse to the Board, If your Excellency would condescend to notice this it would be very gratifying to me & many others who feel a little interest in the case, this being the only fine to my knowledge laid upon the state Troops —

humble Servant

BRIDGEPORT 2d August 1816

My dear sir

Previous to leaving Norwich last week on monday I wrote your excellency acknowledging your esteemed favour of the 13th July, since which I received at Hartford a duplicate of the same, & this day a triplicate —

On my way from Woodbury to this place I had a direct conveyance to Colonel Hall which I improved, & wrote to him that I wished him to meet me here, (that I might obtain the desired information respecting his regiment.) — I expect he will be here this day — — — If the satisfaction manifested by the officers generally, is a sure criterion by which a judgement may be formed, I shall not expect much excitement by the organization of the militia — — but had I known the extent of the trouble & fatigue attending it, I strongly doubt my willingness to have encountered it — — —

I shall avail myself (when at Sharon next week) of the opportunity of making some remarks on the *late formations*

I am with esteem & respect
Sincerely yours

JOHN COTTON SMITH TO OLIVER HITCHCOCK

[10:19]

SHARON 3. Aug. 1816

Sir — I have just received your letter of the 27th ulto — And in reply I would observe that having lately examined particularly into the value of the Dyer farm in Vermont and the lot of fifty acres lying west of it I should be unwilling to take less than two thousand four hundred dollars for them — I am sensible this is a larger price than you seemed to affix when I had the pleasure to see you at my house — but many circumstances which I have not time now to detail concern in impressing me with a belief that it would be as well for me to keep these lands as to part with them for that sum even if the money were to be paid in hand —

I shall make no objection to the length of credit requested provided sufficient security be given for the ultimate discharge of the principal & the annual payment of the interest —

I am Sir respectfully your obt sert

JOHN COTTON SMITH TO CHAUNCEY WHITTELSEY

[10:21]

SHARON 3. Aug. 1816 —

Dr Sir

Your letter of the 25th ult. is received — Mine of the 27th will in some measure have anticipated your inquiries — In that, I mentioned the expediency of issuing a provisional order for the regulation of the Rifle corps — until a more definitive system can be adopted. and until an augmentation & a regimental disposition of the corps shall render such a system more immediately necessary* — — As you propose a meeting of your captains you will have an opportunity of ascertaining their feelings & of maturing your own opinion upon the points you suggest — towit — The dimensions of the rifle — the rules of exercise — and the Uniform — and I do think we had best postpone any service directions respecting these particulars until after that meeting — For as to the rifle if we were now decided as to its quality we should hardly require the men to procure it by the september training — And the same may be said of a new uniform if we were now to propose one — It seems especially necessary to sound the dispositions of both officers & men relative to this point inasmuch as I have assured the companies formed from the state troops, & they comprize nearly the whole, that they should be allowed their customary uniform — I could not think therefore of changing it at present without their entire consent — — There appear to be two objections to a distinction of apparel in the two regiments — 1. We know not how the regiments will be divided nor can we until either the corps is full — or it is concluded to rest satisfied with the present number of companies — 2. When detachments shall be made from the brigade for actual service (and in time of war resort will probably be had to detachments when a less number than the whole is called out) the men of different regiments thus brought together will be rather too variegated in their appearance for *members of the same corps* — Perhaps these difficulties may be obviated — in which case I shall be

very happy to accede to the proposition, if it is the desire of the officers generally on the whole thought to be acceptable by the brigade

No Colonels having been appointed Your "certificates to such captains & subalterns as are in uniform & have done duty" I think will come fairly within the spirit of the law — I advise you in those cases to grant them in full confidence that the legislature will sanction the procedure should it be called in question by the municipal authorities — It is also my impression that the non-commissioned officers & privates who shall have faithfully complied with the brigade order which in my last I authorized you to issue will be likewise entitled to certificates from their captains —

I should be much gratified to see the rifle you mention —

With sincere regard I am Dr Sir
your friend & ob^t^ ser^t^—

* Having the prosperity & respectability of this part of our military force much at heart I feel the importance of exploring cautiously every inch of our ground, new as it is to us all, rather than to be obliged in a single instance to retrace our steps —

JOHN COTTON SMITH TO CHARLES HOSMER

[10:22]

SHARON 3. Aug. 1816

Sir

Your letter of the 31. ult. is received with the communications accompanying it —

If there are two adjutants within the limits of the proposed first regiment, the selection of one of them by the Colonel will give the other a fair claim to an entire exemption from military duty —

It does not appear from your representation that you are a supernumerary — and unless such is the fact as you have not served the period required by law, a discharge from your present office will not liberate you from future service — Still sir if you desire it on the ground of ill health I will cheerfully dismiss you *from the office of Adjutant* on your procuring the recom-

mendation of the Colonel which is always requisite in such cases —

In the communication accompanying your letter reference is had to an application signed by Col. Caldwell & others — None such has come to hand — It may have been enclosed to the Adjutant Genl I understand there are packets in the Post office in this place addressed to him — He will be here in the course of next week to make his final report — The subject will then be taken into consideration —

Sir in my returns of the Staff officers of the proposed 19th Reg^{t} I returned Theodore Pease as Adjutant of the same he being formally Adjutant of the 31st Reg^{t} and now holds an Ensigns Commission in the 3^{d} Co,, in s^{d} 19th Reg^{t} and will be willing to do duty as Ensign if he should still be continued Adjutant in s^{d} Reg^{t},

I understand that Col. Now if S^{d} Pease is considered as Adjutant of the 1st Reg^{t} where there are now two Adjutants I shall have to appoint one anew in the 19th Reg^{t} above alluded to, and likewise the 3^{d} C^{o} in s^{d} Reg^{t} will be destitute of an Ensign I therefore Request your Excellency to retain S^{d} Pease as Adjutant in s^{d} 19th Reg^{t} if you should think proper

His Excellency John C Smith — Capt.
General of the State of Connecticut.

Sir —

Having for more than 15 years past cheerfully borne the burthen — fatigue — & expense of Military Duty — without any omition — in the militia till 1812 — from that time till the close of the war — a non commissiond officer in the 2d comp. of St. Art. under the command of Capt. Bray (& most of the time During that period in *real service,*) — and now a Sergeant in the Artillery company under the command of Capt. Bray — a progressive Debility — and increasing Ill health has for some time past rendered me incapable of attending to the business by which my family are supported as formerly — Indeed for some years I could hardily have been considered a subject of military Duty — though I have done it when I could not attend to my own business — as I ought — — — — I therefore pray your Excellency to accept of what services I have rendered — & at the same time Discharge me from Liability to Military Duty in futer[sic] — — —

I have recently applyd to Gen. Demming — who informd me that he should cheerfully comply with my request were he authorised to Do — — —

Yours of the 27th of June was receivd in time the contents of which were duely noticd

As the Light Infantry company in this Town was raisd by enlistment I suppose that agreeably to the instructions given to the Adjutant General it will remain a Lt Inft Company in the Regiment about to be organizd in this vicinity — — On examining the military laws I find that no Officer has authority to give orders for the filling up of enlisted companies but the Capt. General The Light Infantry company in Guilford is at present small containing only about 30 privates There are two battalion companies in this society each of which is much larger than the Light company as may be seen by the last returns These two

companies I understand are to be united in one which will of course be quite large — — — —
My request therefore is that y^{r} Excellency would give orders for the enlargement of the Light Infantry Comp from the companies before mention^{d} — — — —
I would also request that an order may be given as soon as convenient that I may have an opportunity of filling up the company previous to our approaching training in September

EAST-GUILFORD August 6th 1816

Col^{o} Baldwin Sir

We the subscribers officers & Soldiers in the 4th Company in the 27th Regiment of the Militia in this State and sundry of the Inhabitants of the Society of East-Guilford in the Town of Guilford beg leave to represent that the Militia Company in this Society hath for nearly a Century been a peaceable and harmonious Company, that but few breaches have ever been made in it by inlistments from it into other Military corps, that at the present time it is more respectable as to numbers and we believe as much so in discipline as most Companies in the vicinity, that this Company is connected with a considerable number of the Companies in the Regiment by Town Limits and the whole by County lines, and that upon those accounts more harmony & friendship hath been kept up between the Militia of the Regiment; that the proposed alteration in the Regiment by the addition of Wallingford & North Haven will make but little difference, as the Majority of the Regiment will be the same as before — — although the Travel to the extreme parts of the Regiment will be something further than to the extreme parts of the 7th Reg^{t} yet the Travel to the *center* will be about the same to each; that the Habits & Customs of the company in this place are more conformable to those of the 27th Reg^{t} than to those of any other; that this Company hath for many years been ambitious to hold a conspicuous place in the Reg^{t} where they have been trained from the earliest period of their Military Service — — That provided the Company is anexed to the 7th Reg^{t} and incorporated with Companies with whom the members are entirely unacquainted as to any military connection, — is there not danger that the military ambition of the Company

may be much injured; — — that the Company may be continued with the Regim^{t} with which it has been so long Connected is the wish of the officers, Soldiers & Inhabitants who have hereunto subscribed their names — —

ARNOLD P. HUMPHREYS TO JOHN COTTON SMITH

[10:28]

Canton August 6th 1816 — — — —

Dear Sir — —

In the late location of companies in the proposed 17th Regt (Formerly the 18th) there ware three companies in the town of Simsbury which ware reduced to two — — — — — — which added to the south company in Simsbury about Fifteen men (those men live in the town of Simsbury & in the parish of Wintonbury) — — — —

I am informed that being displeased on account of being disbanded as a company & flattered by the officers in the first Regt. they have it in contemplation to petition your Excellency to be annexed to the first Regt. — —should they make an application of this kind I am of opinion it ought not to be granted — — — as I think it would be done injustice to take from a small Regt. & add to one that is much larger as you will see by the documents laid before your Excellency by the Augt. Genl. that the first Regt. is much larger than the proposed 17th Regt. — — — —

& in the second place if those men are taken from the south company in Simsbury the company will remain small & can get no additions to it from any other quarter — — — —

In the observations which have been made I would not attempt to dictate or point out to your Excellency the line of conduct you ought to pursue & if on due examination your opinion should differ from mine be assured Sir I shall support any measures you shall adopt And when my efforts cease to promote the good of the Militia may I cease to be an officer — — —

His Excellency John C. Smith,

May it please your Excellency

It was my intention to have stated in my letter of the 31st ult. that there are two Adjutants within the limits of the newly located regiment, viz. Mr. Theodore Pease, who has lately removed into this City from Enfield, and myself, and that I am the senior. The haste in which that letter was written, is the reason of the omission. Having served pretty zealously in the militia for thirteen years, with the neglect of but one day, with my feeble state of health, I feel desirous of being exempted from future service.

To His excellency Governour Smith Capt.
General of Connecticut militia —

Sir,

Your Excellency's letter of 25th ultimo including a remonstrance from the people in Durham has been received. On perceiving the situation in which the militia Company in East Guilford was placed I lost no time in transmitting the whole communition to Capt. Wilcox the officer now in command at that place. I find by his statement to me that the feelings of the Officers soldiers & principal inhabitants there are entirely opposed to the petition made to your Excellency from Durham — They are willing to admit that the distance into the eastern Regiment may a little less than it is at present still they urge that this small advantage would would not compensate for the greater inconveniences which would result by the propos'd exchange —

In fact sir they are so totally opposed to a separation from their own town that they have deputed Mr Todd Esqr the Bearer (a Gentleman on whom your Excellency may place the utmost reliance) as a special messenger to make a representation to your Excellency of their feelings

After referring your excellency to Mr Todd for particulars I shall close this by saying that after taking a candid review of the whole I cannot conceive that the militia on the whole would be benefitted by the proposed exchane

Your letter is received — It is represented to me that Mr Theodore Pease has removed to Hartford with the intention of residing in that city within the limits of the first regiment —

It also appears he is returned as Adjutant of that regiment — Being thus at a distance from the regiment under your command it must be alike inconvenient for him & for yourself and might be prejudicial to the public intent that he should be retained as your adjutant — — I consider it therefore most proper that he be permitted to serve as Adjutant of the first regiment & that you should make another selection — This arrangement will not affect the standing of Mr Pease as ensign of the third company in your regiment — It may indeed furnish him with a good excuse for retiring from that office, but until he makes an application for the purpose he will be held liable to perform its duties excepting on regimental or battalion occasions in the 1st regt — I am Sir your obt Set

It will give me pleasure to organize a company of Riflemen in Newtown and its vicinity. The individuals you mention as having already volunteered from the company of state troops lately under your command, and such as may conveniently associate with them, amounting in the whole to forty five (or even forty) will answer very well for a beginning — — there being little or no doubt that the ranks may be readily filled in Newtown without reducing the infantry company below its legal complement — — — — You can send me the association (or a copy of it) by mail;

and I will immediately furnish you (or any other military character you may designate) with instructions to lead the associates to a choice of officers. They will be permitted to wear the uniform of the late state troops; and the officers chosen will be allowed (under the late resolve of Assembly) to take the command of the company, without waiting for commissions to be formally issued in the first instance —

The corps will probably be filled in a short time, and as applications are now frequent, it is desirable that I should receive an early reply to the present communication —

Sharon 15. Aug. 1816

Dear Sir —

In reply to your favour of the 9th instant I would observe that the Artillery in my opinion ought not to be called out this fall in large masses than by battalion — I am even strongly inclined to believe that the recruiting service & the interests of that corps generally would be greatly promoted by permitting the companies *to be inspected on their own parade* — The duty of visiting the companies when divided amongst all field officers will not be very severe — A different course can be taken where a battalion is tolerably compact & feel a desire to meet — but I shall be perfectly satisfied to dispense with any regimental or battalion inspection for this one Season —

I am Dr Sir in haste

SHARON 17. Aug. 1816 —

Sir

Your favour of the 6th instant did not arrive until after the General order relative to the organization of the militia was prepared —

The Adjt Genl had made a special report respecting that part of Simsbury which is included within the parish of Wintonbury — From a view of all the circumstances it appeared to me most proper to adhere in this instance to the rule of keeping the militia of each located Society together as far as might be practicable — We have endeavoured not to depart from this rule unless in a few strong cases & then chiefly at the request of the individuals concerned — I am sensible there is a considerable *apparent* difference in the numbers of the first & seventeenth regiments — but after the several select companies already formed & now forming within the bounds of the former shall be filled up I apprehend the *real* strength of the two regiments will be found very nearly equal —

Accept my thanks sir for the laudable solicitude you have manifested on this occasion — & particularly for the just & patriotic sentiments expressed at the close of your letter — —

Sir —

I have received your letter of the 5th instant — Not having noticed "the form & fashion" of the coat worn by the U. States officers — it is not in my power should I adopt it to describe it with that particularity which is necessary in a general order — — I regret therefore that you have not given me a full description of it —especially as I am entirely disposed to gratify your wishes as far as may be consistent without departing too much from the uniform worn by other Brigadiers of the militia Ought there not to be a distinction in dress between the regular army & the militia? It is my present impression that you ought with your blue coat to wear at least cuffs & collar of buff — I presume also you will consider that as you wear a helmet a short coat is more suitable than a long one — The buff under dress you propose & the helmet & boots I think very proper — Your badges (that is to say your epaulettes & plume & those of your staff will be the same with those of officers of the like grades in the Infantry — — As the time is short before you may wish to appear in the field, you can frame your dress upon the foregoing ideas if you prefer to do so without waiting for a general order which may issue afterwards or you may communicate with me further upon the subject if you desire it — The Commander in chief is not authorized by any existing law to *change* uniforms where they are already established — Consequently I had not contemplated making any alterations in the dress of the other officers or the privates of the cavalry —

My dear sir

I have the pleasure of dating this communication from home, which I reached yesterday morning 7 °Clock by availing myself

of that time usually devoted to rest — — — Finding the heat and dust very oppressive by day, I was obliged to travel very slow — — and feeling the necessity of an early promulgation of the order, & an anxious desire to return home it prompted to every exertion that my horse would reasonably sustain — — — — — On my reaching Hartford, I found that my note to the Mirrour office had not been rec^{d} — — — but I was in abundant season to have a note inserted in the Courant of this day — — — I have employed McGoodwin to print the Genl Order which I shall expect on friday at which time I shall have prepared the schedule of officers & shall distribute them the beginning of next week — — —

I saw Genl Williams this day who informs me that the corps of Horse Artillery is completed, & that on application by the Capatin, General Deming has issued orders for the associates to be led to a choice of officers — — a return thereof will probably be made this week — — — I have not rec^{d} any return of officers names, in consequence of my letters from Sharon but presume to morrows mail may possibly furnish me with some — I think Col^{o} Abernethys may reach me on Wednesday — — — — I shall be able next week to forward the laws as directed by the act of the Legislature, as by the middle of the week I shall probably have them printed — — — — Mrs Huntington joins me in Respects to yours & your sons families

SHARON 19. August 1816

Dear Sir —

The communication from the town of Durham, to which your

venerable name (with other reputable signatures) is affixed, requesting that a formation of the 7th regiment may be adopted different from the one reported by the General and Field officers of the Second brigade, was duly received and has been attentively considered — —

In making the arrangements required by the act, it was found expedient to pay a special regard to the local attachments of our fellow citizens. Accordingly it was early established as a rule, not to seperate a society from its parent town and throw it into a different regiment, unless the strength of the regiments would otherwise be so unequal as to render such a measure indispensable. — I have endeavoured not to depart from this rule, excepting where exchanges have been made by the consent and for the particular accommodation of the parties concerned. — — In the present case it appears the strength of the regiment will not be disproportionate and it also appears by a remonstrance from the militia and principal inhabitants of East Guilford that they are utterly opposed to a seperation from their own town. — — — — Under these circumstances Sir you will readily perceive it was impossible, consistantly with the principles at first assumed to vary the formation of the 7th regiment from the report made by the board of officers; and without such an alteration, or without an entire change of the system, I could not with propriety annex the town of Durham to any other regiment —

In consolidating thirty five regiments into twenty four, it could not but happen that the territory covered by each would be enlarged, and consequently that the travel to attend regimental meetings would in several towns be somewhat increased. This was unavoidable — — Wherever such cases occur we can only rely on the known patriotism of our fellow-citizens in making partial sacrifices with cheerfulness for the attainment of great public objects — —

With the greatest respect & esteem I am
Dr Sir your obedient & humble
Servant—

Dr Sir —

The annexation of the North east corner of Colebrook (or that part lying east of Farmington river) to the West Society of Hartland has become a subject of serious complaint to the inhabitants — It was represented to you (according to your report to me) that this arrangement was made by their desire & for their particular accommodation — Such however appears not to be the fact — As we have made it a rule not to cut off fragments from towns & societies in this manner without their consent — it is my desire if the order is not already in print that the thing may be set right — no alteration need be made in the command of the companies, nor will the aggregate force of the regiment be at all affected — The amendment will be merely to strike out of the description of the 6th company in 21. reg^{t} these words — *and that part of Colebrook which lies East of Farmington river* — and from the 7th company these words (*excepting that part lying east of Farmington river*) —

I enclose the petition — from which you will perceive that

a misrepresentation of the feelings of these people must have been made to you by some of the officers of that regiment — The petitioners send an express with this letter —

POMFRET 22d August 1816

Sir,

In conformity to the directions contained in the Letter of your Excellency of date 13th July, I notified the members of the late 2d Compy 2d Regiment, Mily. Corps that an opportunity was offered them of becoming a new company under officers of their choice and with the same privileges and immunities as

were enjoyed by them while members of the Military Corps — — The very diffuse location of the members of the late company has rendered it difficult to see them *all* personally on this subject nor have I even at this time done it — I have at this time between thirty & forty privates enlisted, and I have every reason to suppose that I shall make out a respectable company considered in point of numbers; and more particularly so in point of military character — — I have sought particularly such men as were actually acquainted with the *practical* use of fire arms; deeming such more especially desirable in a Rifle Corps. — — I have entered upon negotiations with manufacturers of Rifles at Lancaster Penn[a] and at Sutton & Shreusbury, Massachusetts — for the purpose of obtaining the most advantageous terms for the men — — and for procuring the guns of exact uniformity in their most minute parts: so that the smallest parts of any one piece, should occasion require, may be interchangably used in any other piece — — — The uniform of the men when of the Military Corps and under my command was perfect — — They have had the advantage of a tour of 2 months in actual service — they are attached to each other & will probably choose officers whom they will serve with cheerfulness — — I have been this particular in statement to Your Excellency because I consider myself as having done all which I could do toward the accomplishment of an object which I had been led to believe was regarded by my superior officers as desirable — — — yet since that object has not been carried into complete execution I find I am about to be arrested in the performance of it by Militia officers who claim the right of imposing fines on my men until such time as they shall have discharged military Duty in their new capacity — — This, for the reasons which I have been stating to your Excellency we have not yet been able to do — nor shall we be able to do it till late in the season — & before that time, if the matter is to take the course which the Militia officers claim, fines will have been accumulated against each of my men to an amount, not trifling in times like the present — — — — I know not whither there be any thing in our case of which your Excellency can legally take cognizance but

I am very well assured that we have an equitable claim to some relief — we do not wish to evade duty — we wish that each individual, from the time of his enlistment may regard himself as a Rifleman and be preparing himself for the proper discharge of his duty as such — we wish to be exempted from doing duty till we can procure our arms — and prepare ourselves completely — we shall do our quota of duty within the year — tho it may not be in the pleasant month of September — — and, once organized, we certainly shall not shrink from any rigor of discipline to which our brethren of the militia may be subjected If these requests are reasonable — if they are in the power of your Excellency to grant — & if they are granted, we shall be much gratified — whether they are, or not, I shall rest satisfied that the general good is aim'd at, yet I shall feel that the promotion of it will sit rather heavily on us if the facts which I have been thus stating to Your Excellency should be deemed of no avail in our behalf — & shall relinquish the design of forming a Rifle Company in this town with real regret; but without the expectation of seeing any one more willing to enter upon, or more successful in prosecuting the design than I shall have been — I enclose to Your Excellency a copy of the articles under which we have associated — with a list of those who have associated as Privates Since the date of this association we have considered ourselves as Riflemen and have devoted ourselves to preparation for the discharge of our duty as such. — I can forward the original papers should it be required —

I am sorry that I have been led to trouble Your Excellency so much with a subject of this little importance — We should be gratified with an answer from Your Excellency by which to regulate ourselves — — My men will be warned to meet for military duty on the first Monday in September under the Militia officers — —Confiding entirely in the disposition of your Excellency to shew us any accommodation not incompatible with the rights of others, I am, in behalf of the company

SHARON 22. Aug. 1816

Dr Sir —

In the General order recently issued for the reorganizing of the militia and assigning to the different officers of infantry their respective commands you will perceive your name is omitted —

The high estimation in which I hold your talents & services render it proper that I should briefly state to you the motives for this arrangement —

The law has given to Major Generals alone the power of deciding on appeals from such boards of officers as are authorized

to impose fines for neglect of duty — Hence a due regard to the convenience of our fellow citizens seemed to require that each Major General should reside within the limits of his division — That such was the intent of the law I also infer from the conduct of the General Assembly at the last session — On the resignation of Major Gen[l] Williams that body proceeded to fill the vacancy, altho' there were already three officers of that grade then in service — They could not have adopted this course but upon the idea that actual residence was in their view indispensable — As Major General Cowles is the senior officer of the division wherein you reside, the command of that division necessarily & of right devolved upon him —

I have only to express my regret that the state is thus for the present deprived of your skill & experience as a military officer & to assure you that I am

GENERAL ORDERS

[10:57]

State of Connecticut —

— General Orders —

24. August 1816

The Major Generals and Brigadier Generals of Infantry and the Brigadier Generals of Cavalry, Artillery and Riflemen are hereby Authorized to issue the necessary orders for the choice of commission officers whenever vacancies now exist and they shall occur in their several corps & within the limits of respective commands — The same General officers are also hereby impowered to discharge commissioned & staff officers attached to their respective commands; confining themselves as far as may be practicable to the following cases — towit —

1. Where the officer has become permanently unable to execute his duty from bodily infirmity —
2. Where the officer has removed out of the state or to so great a distance from the scene of his duty as to render it

extremely difficult for him to perform it — 3. Where a commissioned officer has been superceded —

It is however to be particularly observed that by the existing law of the state unless the officer applying for a discharge has held his present office five years or has held commissions or warrants as a staff officer ten years, he *cannot* be discharged from the militia — but from office only. Discharges therefore which are to operate as an entire exemption from military duty must specify that one or the other of the above kinds of service has been performed —

By order of the Com. in chief —

[on back of leaf]

SHARON 24. Aug. 1816 —

Dr Sir —

I have only time to forward the foregoing order — which you will please transmit to those Genl officers who are in actual command — I did think with you it would be advisable to confine the power of discharging infantry officers, to Major Generals only — but considering that the Brigadiers of the select corps ought to possess this authority it would have formed an invidious distinction to pass by the Brigadiers of infantry — I believe therefore we must for the present include them in the order —

This moment your favour of the 19th inst. is received — Mrs S. joins me in heartily reciprocating &c —

Sincerely &c —

CERTIFICATION OF WILLIAM S. PIERSON

[10:58]

I do hereby certify that Mr Chaincey Steevens of Durham for more than two years has been in an ill state of health, frequently troubled with a pain in his breast and with a diseased stomach and bowels, which have not only for said term rendered him unfit for the performance of military duty; but have also compelled him to forsake shoe-making his contemplated means

of gaining subsistence. Since this period he has never been able to endure the fatigue of any laborious employment, 'tho' he has made faithful experiments to resume his former business, and to commence other avocations which require bodily strength, but with no success. Of late he has turned his attention to study, and intends to obtain a liberal education if his health and pecuniary circumstances permit. As his health is yet unsuitable for military duty, and his calculations such as will before long free him from that duty, even if his health should be restored, it is my opinion that either a discharge for a number of years from the present time, or a final discharge from any farther trouble or vexation as it respects military affairs, would be reasonable.

NORWICH 26th August 1816

My dear sir

By last weeks mail for Litchfield I wrote your excellency and apprized you of my prospects in issuing the Genl of the 15th of this month The great attention paid by Messr Goodwin & Sons (in doing the work left at Hartford & forwarding the same) enabled me to put all the orders into the mail on saturday night — — — — On friday your excellencys favour of the 20th wishing an alteration in the sixth & seventh companies of the 21 regt was handed me by a Colebrook man, living in that part which had been put to do duty with the Hartland Company — — — — The memorial from Colebrook accompanying your letter, conveys different ideas from those communicated to me when at Winsted: I apprehend that the uneasiness did *not* exist in the first instance, as I find by the Messenger, that some of the men in that part of Colebrook put with Hartland have from choice (& by curtesy of their Captain) been permitted to do duty with that part of Hartland to which they were by me

assigned in first formation — — The Field Officers expressed their opinion that it would be Agreeable to the men to be put to the Hartland Company — — — Your Excellency will I presume recollect that Colebrook rec^{d} from Norfolk about the same number which Hartland rec^{d} from Colebrook — — I find by minutes which I read to your excellency, that a difference of opinion between Col^{o} Hayden & two of the soldiers existed respecting the wishes of the men to be put to Hartland — —

The order for the formation had been printed but not distributed, and altho your excellency wished it corrected *if not printed,* I altered the order in the whole number of the printed copies, presuming from your letter, the alteration was desired — — —

It was attended with less trouble than could have been expected in altering the limits of two companies — — by erasing from the 6th and 7th companies the words which *removed them* from Norforlk & *annexed* them to Hartland — — — I have endeavored to cause publicity to be given to the fact that the companies were not by law obliged to train or muster on the first Monday in September — — — I have put into the bundle under cover to General Bird, six copies of the order for your excellency — — — The law for forming and conducting the military force of this state is printing and I expect to forward it to the Brigadiers next week — — — — Did you not forget to authorise Major Generals to grant discharges — —if so & you should issue another order, will it not be expedient to notice the appointment of aides by the Lieu^{t} Governour?

No returns from the Commd^{t} of regiments were rec^{d} in season to fill the companies with names of Officers to take command, where the formation had been varied when at Sharon — — — of course a note at the bottom became necessary — — —

Inclosed is a petition from some persons in Griswold which I forward at the request of the petitioners —

I am very sincerely yours

Sir,

Mr Clark has made frequent application to me for two or three years past, for advice respecting the difficulties with which he has been troubled more or less during this long period, The difficulty seems to have been the result of over lifting, and In all probability there is now a derangement in the part affected which will always remain As he is now evidently unable to perform military duty, and has at intervals, been unable to perform manual labor, I would recommend him to your notice, as a subject inadequate to discharge the duty of an officer with that promptitude, which on every other respect he would feel proud to perform

MIDDLETOWN Augt 26 — 1816

Sir

Mr Richard Rand was a Member of one of the fire Companies in this town when the law was passed, declaring that persons under the Age of thirty years should be liable to military duty & on the passing of that Law Mr Rand enlisted into the Rifle Company — That Law was soon after repealed as it respected those persons under thirty years of age, who were at the time of passing the first Law members of a fire Company, excepting such as should have *enlisted* into independent Companies. Mr Rand wishes now to return into the fire Company & thinks that as he inlisted under the expectation that he should be compelled to do military duty in some company & as that law was soon

after altered, that the reason of it extends to him & that he ought to be discharged. At his request I have made the foregoing statement — — —

I am Sir with respect

MIDDLETOWN August 26th 1816 — —

May It please your Excellency

As General Whittelsey has done me the favour of making to your Excellency the above statement I beg leave further to remark that since I have been a subject of Military duty (about 6 years) I have been a member of an Engine C° & should never have thought of leaving it had I not supposed myself compeled to do by the passage of the Law refered to above a part of which has since been repealed so that those persons who belonged to an Engine Company at the passage of the Law may now return to It alth° under 30 Years — provided they have not entered an Enlisted Militia C° — Now I am a member of an Enlisted Company but I am not equiped as such and am from fealings & habit opposed to the services which it envolves and under all the circumstances I pray you Excellency to grant me a discharge: in which case If I understand the Law a right I am at Liberty to return to my former station in the Engine Company. will your Excellency have the goodness to attend to my request & inform me your determination as soon as may be convenient — — —

WESTON 26th of August 1816 — —

To His Excellency John Cotton Smith
Captain General of the Militia of the State of Connecticut

Dear Sir, In the reorganization of the Militia of this State it appears that it has become necessary to disband some companies for the enlargement of others. And by a late Law of the State the Commission'd Officers of such Companies as are dissolv'd, are to stand as supernumeraries or shall be entitled to a discharge on Application. And having understood that orders have been issued that all those who wish'd for discharges should make application to the Adjutant General by the 12th of Ins^t August, but I had no notification of it till too late — I therefore have thought proper to Address Your Excellency and inform you that I am a Lieut. of the 7th Company 28th Reg^t 4th Brigade which Co. is dissolv'd and a Rifle Co. form'd on the same parade. The Rifle Co. is the one which Col. Abel Hale has assisted and lead to the Choice of Officers which is well known to Your Excellency. I therefore pray Your Excellency to accept this my Application for a discharge from military duty as I have had no notice to make it to the Adjutant General owing to the neglect of my Superiors, if orders have been issued to that effect, in not Notifying me — — — I humbly Solicit Your Excellency to inform me by the returning mail if convenient of the success of my humble petition —

I am with great Esteem

[10:63]

SHARON 26. August 1816 —

Sir —

The General order for the formation of the militia was issued on the 15th instant and the Adjutant General is now engaged in distributing it — I have since received an application dated the 26th instant signed by Chauncey Ives Reuben Preston, Erastus Gilbert and Asa Gilbert Junr inhabitants of the society of Winsted requesting that they & the families living on what is called *Matt Swamp tier of lots* may be annexed for military purposes to the first society in Barkhamsted, & requesting also that my answer may be communicated to you — — It is thought advisable as a general rule to keep the militia of each society together; but there may be cases in which it would be equally beneficial to the public and more convenient for individuals to do military duty in an adjoining society, and as far as such cases were fully disclosed to me during the late organization they were provided for — I think it highly probable the present case may be of that description, and it is also probable when the system goes into operation other cases of the same kind will occur — After the fall trainings are over we shall be able to ascertain their number; and they can be all included in one General order — To multiply general orders upon this subject you are sensible would beget confusion & uncertainty — I shall direct an inquiry into the particular situation of the present applicants and into the state of the companies in the two societies, and with great cheerfulness I will endeavour to afford the desired relief hoping it may be consistent with the general good — Until this can be accomplished I doubt not the present applicants will

cheerfully & faithfully perform their duty in the society to which they belong — I am sir respectfully

CANTON August 27th 1816

To his Excellency

Dear Sir

The new arrangement of the Militia having taken place in such manner as to comport with (as I believe) the general good of this part of the community. Our Town is small and is not sufficient for more than one good Infantry Company & half of the Artillery Company which is expected to be raised from its limits. The former location was two Companies yet they were very small when we had any liberty to recruit from them There is a petition in agitation to present to your Excellency to disarrange the present establishment which if done will greatly impede the fondly anticipated support we expected from the new arrangement It is stated in the petition that much the largest proportion of the men belong at the two ends of the Town which is in some measure the case yet as uniform a population as is usual in other towns so in this with regard to meeting at the center of the Town it would not be burdensome as none would have to travel more than 4 miles and a good road It is not from this course that the petition originated nor from the general good of the Militia but the interest of the leading Men at the two ends of the Town which has existed some considerable anxiety I have made enquirey in the other parts of the Reg[t] & find no uneasiness except in the 1st Com[p] from which that part of wintonbury east of the Mountain was set to the 1 Reg[t] & that not strenuous Should your Excellency think proper to seperate the present Company here I am persuaded that it would be attended with uneasiness & would not answer their expectations as the Companies were very small when we had the liberty to reduce them it was done to thirty six in number should the Company continue it is very probable

they would meet alternately towards the two extremes of the Town Your Excellency will pardon me for intruding upon your patience and accept the greatful acknowledgements of Your friend

DURHAM August 28. 1816.

These certify that Chauncey Stevens has lived with me the summer past for the purpose of studying the Latin & Greek languages, his health being such as to prevent his laboring but very little, either at his trade or in the field. He is a professor of religion. & wishes to obtain a collegiate education that he may become a preacher of the gospel. He is destitue of property, & has no one to assist him. He expects to keep school, part of the time, & get along as Providence may direct. It has been the case for several years, that, when obliged to attend military duty, one day's exercise has confined him for several days. But being a federalist & a professor of religion, the Captain is not disposed to show him the least favor. It is therefore hoped that his Excellency the Governer, will consider his case, & free him [from] military duty. — — —

NORWICH 28th Augt 1816

My dear sir

By the mail which arrived here the day before yesterday (the 26) I recd your General Order of the 24th which I have transcribed & forwarded by mail or in other terms put them into the office this day —

What is to be done with those officers who were either not notified, or who omitted to make their election at the formation of companies in my circuit, and are not retained in command & now apply to be discharged — — What is to be done with the supernumerary Cavalry Officers? — — They are not included in the letter of the General Order, to whom I am to give discharges — — — Does your excellency consider me intitled to give discharges from the General Order of the 24th? — — What is the uniform established for flank companies — —I ask this question having my doubts whether the uniform established by Govr Griswold in 1812, & partially modified by your excellency in the same year respecting the head covering of the Infantry enjoins the hat with one side turned up for flank companies or whether they are to wear the round hat with a frontispiece as battalion companies — — — — —

The foregoing questions are put in consequence of different opinions respecting the hat, & the application of Officers for discharges, some of whom belong to the Cavalry & did not volunteer as horse artillery, and others who did & were not rechosen — — —

I am yours very sincerely

REMONSTRANCE FROM SIMSBURY

[10:70]

To his Excellency John Cotton Smith Esquire
Captain General & Commander in chief over the
Militia of Connecticut

The Subscribers Inhabitants residing within the limits of the 17th Regt of Militia in said State would represent to your Excellency that in the opinion of these subscribers the late alteration made by your Excellency respecting the local limits of the first Company in said Regt by taking from said Company that portion of said Company lying East of the Mountain in Simsbury & in the parish of Wintonbury, and annexing the same to the first or Hartford Regt will prove detrimental to the Company and Regt. from which they are taken and will be contrary to the feelings and wishes of a considerable proportion of that section of inhabitants thus set off —And as

reasons for their opinion aforesaid they would assign the following (viz)

1st That it will be seen by the late military returns that the 1st Regt in point of numbers is much greater than the 17th — — —

2nd That the Company to which they are annexed previous to said alteration consisted of between 80 & 90 men — — —

3rd That the said first company with the troops so set off annexed to it was one of the smallest companies in said Regt and could not muster its legal compliment of men previous to said alteration

4th That the troops so set off have always heretofore been considered part of the 18th Regt which now is the principal part of the 17th and have uniformly done duty accordingly in said Regt and for very many years were members of said 1st Company — — —

And for the aforesaid reasons we are fully of opinion that said alteration is injurious to said company and Regt and would request your Excellency to reannex said section of inhabitants to said 1st Company & said 17th Regt according to the location of Militia for Connecticut proposed by the Adjutant General —

CHAUNCEY WHITTELSEY TO JOHN COTTON SMITH

[10:73]

MIDDLETOWN August 30 — 1816

Sir

Yrs of the 27th Ult & 3^{d} inst are before me — I have issued Brigade orders I believe conformably to your orders to me, & a copy of my order is forwarded p^{r} mail. I have received no further information with respect to Rifles — am of opinion that the dimensions formerly given, are as good as any other, perhaps better — I sent a number of question respecting Rifles & Rifle men to the war department Mr Dana who enclosed them for me, had a Letter saying that the head of the ordnance Dep^{t} was absent but that as soon as he returned they should be answered, whether I shall get an anwer untill M^{r} D— — goes to Washington is uncertain. Whenever an Order shall be issued, respecting rifles & accoutrements, it appears to be proper to have directions given respecting the shape & size of Swords — I presume the Cut & thrust or what is called the English pattern sword will be used — for myself I prefer a short but *broad* Cut & thrust & perhaps it would be well to authorize the officers to use shorter Swords, that they have heretofore used.

At the Meeting of the Officers on the 20th I consulted them respecting the Uniform All the Companies composed in whole or in part of the late State Corps were opposed to any alteration in the Uniform, except some few who were willing to lay aside the Cap & take the Hussar jacks Hat such as is worn by the United States Troops. I am fully of the opinion that no alteration ought to be made unless in the Head dress — but am inclined to think it expedient to authorize the new Companies to take the Hat, instead of the Cap. The Cap is fit only for heavy infantry, is heavy & expensive — the Hat is proper for Riflemen — light & costs only about half as much as the Cap. I am persuaded that the Cap must at some future period be laid aside, — by authorizing the new Companies to take the Hat, I think the old ones will in the course of a few years also assume it If it can be done I shall be glad to have Two or four Companies of Grays, there are one or two Companies, which can be immediately filled up, provided they can have a new Uniform, unless they can be allowed an Uniform different from the old state Troops, the Companies cannot be filled up & may as well be abolished — such is the situation of the Company at Hartford — I believe the Regiments may be so arranged that Two or four Comps of Greys may be allowed without detriment perhaps with advantage.

I have led the persons associated in Chatham to a Choice & made return to the Adjt Genl accordg to yr Excys order of the 19th inst — — — I wrote to the Captain of the Saybrook Company but have no answer from him — as soon as he gives notice to the Men shall lead them to a choice. By Your Excellency's late order, dividing, arranging, and forming the Militia, agreeable to the Act of the General Assembly of Oct. last; I am assigned to enlist and command a flank Company in the sixth Reg^{t} of infantry; that I may act understandingly, I wish Your Excellency to answer me the following questions, upon which, I find, there is a diversity of opinion. — —

1st Whether I am to enlist non-commissioned Officers as such, or am to enlist all as privates? — — — — — —

2nd If I am to enlist them as such, whether or not I am to enlist more than the law requires to a Co., in case they should offer, as they probably will, there being twelve of each, that is, twelve Serjt^{s} and twelve Corporals in the Co. from which I probably shall obtain the most to enlist. — —

3rd If I am to enlist them as such, and can enlist more than the law requires to a Co. how am I dispose of them?

If the company can be allowed any indulgence in the choice of a uniform, wish Your Excellency to inform me to what extent they may be gratified.

If the place or places of parade for s^{d} Co. are not already established, I think that much good may result from Your Excellency's establishing the first and second Societies in Wethersfield alternately, as the places for s^{d} Co. to meet to do ordinary Company duty; as the Co. will be filled principally, if not entirely from those two Societies, and probably about an equal number from each. — — — —

You sir will permit us to state that the C^{o} to which we belong has its local limits in the west part of the Town of Oxford in the Parish of Quakers Farm, This C^{o} had its origin in a feud or

broil that existed between the members of it & the C° to which they then were and are now as they understand to be annexed to wit the 6th C° 2d Regt the limits of which is in the east part of Oxford — The same local causes do now & proberbly allways will exist that produced the original seperation — No harmony or peace will proberly ever exist between them if they be again united — We are authorised to state to your Excellency that there are now a sufficient number of subjects of military duty within the present limits of the two Cos in the Town of Oxford to form two full Cos under the present establishment The Quaker Farm C° is respectable in point of numbers though not as large as the other

We venture to say however that all those who compose the Quakers Farm C° and all within its limits would with alacraty form themselves into a Rifle C° rather than be compelled to join those with whom they have here to fore been unable to live in peace —

The C° to which the Quaker Farm C° is to be annexed (if they are not formed into a Rifle C°) have now exclusive of the Farm C° 120-Members manny more might it is believed be called in — — If a Rifle C° as wished should be established with the power of enlisting within the Town of Oxford or the limits of the present two Cos it is believed that two full Cos would be formed under the present system — — The Quaker Farm C° will therefore in persuance of the office of the Adj Genl proceed to assosiate as therein directed, and forward the same by the next,s week mail — — — —

Your Excellency will be pleased to accept as an apology for this letter the anxiety that the Quakers Farm C° feel on this subject and a fear that by delaying untill the articles of Assosiation might be signed the promised advantage might be lost

Sir

Perhaps an apology ought to be made by us for so frequently Petitioning your Excellency respecting the Militia Compy of the town of Oxford But the good of the Militia which we trust your Excellency has at heart we believe will be a sufficient one An order from the adjutant Gen arrivd here last week by which the Company in the west Part of this Place was Disbanded with a permission to form themselves into a volunteer Rifle Company (Said Company have now on their roll about 80 privates —) with Power to recruit in any Part of the location of this Company we would inform your Excellency that at their meeting to day they almost unanimously voted to accept the Proposal of the Adj^{t} General
we would further inform your Excellency that the Company in the East Part of the town of Oxford which is the 6th in the 2^{d} Reg^{t} by the new arrangement Consists of about 60 or 70 Men & that they are Principally young men and in uniform almost with out exception and are remarkably united as a company have no difficulty in the Choice of officers nor in the Place of Parade — Further we would state that the Company on the west side of the Place was once a part of this Company & that there was always a contention with them and this Part of the Place as well Civil as Military We would state to your Excellency that we have no objection to the Conntution[sic] of a Rifle Company in that Part of the Place but we wish they be forbidden to come within the limit of our beat for their recruits as

we think (& do not stand alone in the belief) that any division of this Company or Connection with that would be a great injury to both

Sir

The 12th Company 1st Reg^{t} Light Artillery at present under my command wants Eighteen privates to complete the number authorized by Law. I beg permission from your Excellency to enlist them from the 2nd 4th & 7th Companies of the 2nd Reg^{t} and the 7th & 8th Companies of the 4th Reg^{t} Infantry. The Population liable to duty in this town is divided between the 4th & 7th Companies above mentioned which are probably full, perhaps have more than 64 Privates each. By the new organization a Company of Infantry & Capt. Humphrey's Company of Cavalry are discontinued at Humphreysville. I trust at any rate it will be deemed equitable, if all cannot be full, that

the Artillery may recruit so far as that its number shall bear the same ratio to 44 as the companies of Infantry do to sixty four. I beg leave to solicit your Excellency^{s} early attention to this subject, that the advantage of recruiting this season may not be lost. I have been unable to ascertain the precise numbers on the Rolls of the Companies of Infantry from which I ask leave to enlist, as they have not yet been mustered under the new organization.

PETITION FROM ROXBURY

[10:95]

To his Excellency John C Smith Esqr commander in chief in and over the State of Connect^t of the Military force — The Petition of the subscribers Inhabitants of the Town of Roxbury humbly sheweth that the Light Infantry company in s^d Roxbury was established more than 20 years since, and at the Same session of the Legislature the other Light Infantry company at Woodbury was formed and the grant made so that in point of rank the two companies were equal, which unfortunately occasioned a wrangle between the two companies, and at the time the law was enacted new organizing the militia of this state, the company at s^d Woodbury anxious to have their company stand, improperly procured individuals to represent by subscription to your Excellency or the Adjutant Genl that our Company should be disbanded and this unknown to any of the Company except our Captain who was willing & anxious to procure a discharge even at the expence and mortification of your petitioners as well as the Inhabitants of the Town generally, and at the time the adjutant Genl was in Woodbury for the purpose of forming the several Regt^s & Companies he informed s^d company that they could enlist into the Company at s^d Woodbury or Southbury, which offer your petitioners considered, unreasonable and arbitrary in the Adjutant Genl and which your petitioners could not feel satisfied to accept, for this company has ever been thought to be better equipp^d in every point of view than the company at Woodbury to which we were offered to be joined, and which causes so much dissatisfaction in the company, and your petitioners are individually unwilling to do duty in any other way or manner than in their company, unless the whole company is discharged by such board as s^d company was organized, or your Excellency shall direct, and order previous to all the afores^d the Captain of our Company put the vote, whether they were willing to be disbanded & without an exception the company voted not to be disband, & that they were attached to their officers, well equipped & many of them newly dressed in the

best uniform, and feel unable to be at the expence of enlisting into any other Company and procuring a new uniform as would be necessary, Now your petitioners would pray your Excellency to reinstate s^d^ Company or in some other proper way grant your petitioners relief as in duty bound will ever pray

Petition of the 1st Company of Light Infant 13th Regt 8th Brigade — —

JOHN COTTON SMITH TO GILBERT TWICHELL AND OTHERS

[10:96]

SHARON 7. Sept. 1816

Gentlemen

Your communication under date of the 2nd instant is received —

The new arrangement would admit of but one located company in Oxford and its limits must of course be spread over the town — At the same time as there appeared to be a surplus number of men I thought it advisable to authorize a company of riflemen to be raised in the hope that a parade would then be preserved in each of the two sections of the town and a relation is still maintained between those who have been accustomed to do their military duty together — In forming your association for a company of riflemen it is highly important to keep these ends in view and I am happy to perceive that you entertain the same impressions — It is desirable that those who have heretofore belonged to your company should join the association as riflemen — those who decline must of necessity fall within the beat of the located company —

The General order points out the mode of recruiting all enlisted companies — Should further regulations be necessary they will be prescribed so as to reach the exigency of any particular case —

I shall receive your association with pleasure & will lose no time in issuing the proper order for carrying it into effect —

I am Gentlemen respectfully

SHARON 6. Sept. 1816

Dr Sir

Your favours of the 26th & 28th ulto — did not reach me until this day — The 6 copies of General Orders arrived on the 2nd instant — They are well printed — and assuredly nothing could exceed the dispatch with which they have been prepared and distributed — I anxiously hope the labour will not be in vain —

I wrote you on the 30th august relative to the discharge of Supernumerary officers — The letter I trust will form a satisfactory reply to your query upon that point — Cavalry officers are undoubtedly included —

As to the uniform of the newly formed flank companies I believe that Govr Griswold's order which made no discrimination between battalion & flank companies with my amendment must be considered as settling it — Those flank companies you will remember which had already been furnished with uniforms however diversified, were allowed to retain them — Such is the impression But I really have not time at the present moment to satisfy myself wholly upon this subject —

The Genl order of the 24th Aug. limited the right of discharging to the General Officers in *Active command.* This seemed to be necessary otherwise the Supernumerary officers of those grades might have exercised the power — a course which could hardly be justified — Aiming at this object, it is probable the terms of the restriction may be so broad as to extend to yourself also — Let me know therefore whether you feel desirous of taking that trouble — if so I can truly say there is no officer in the state to whom I think the authority can be more safely confided —

You will be pleased to announce in usual form the appointment of the Lieut. Governour's Aids — You have his Honour's letter containing their names —

The petition from certain individuals in Griswold with two

or three others of a similar nature will be taken with me to N. Haven when the legislature meet — — The facts can be better ascertained then — I think it probable we shall find it reasonable & proper in some cases to relieve applicants of this description — It will be best however to wait 'till they are all presented — so that one order may embrace them or such of them at least as merit relief —

I enclose the request of one styling himself a supernumerary officer for a discharge — What office he holds does not appear —

Present our sincere regards to Mrs H. & family

& believe me Dr Sir your obt & hm. Srt

Major Gen1 HUNTINGTON

Ad. Gen1 —

N. B. Should there be any considerable doubt respecting the uniform of the flank companies perhaps we had best post pone the subject for further reflection — Any definitive order respecting it would hardly be carried in to effect the present Season — — —

When the order for the choice of officers in the Rifle company at Groton shall be returned to you, be pleased to send the names of the officers chosen to Gen1 Whittelsey — I hear nothing further of a rifle company in Pomfret —

JOHN COTTON SMITH TO CHAUNCEY WHITTELSEY

SHARON 7 Sept. 1816

Dr Sir

Your letter of the 30th ultº accompanied by a copy of your brigade order arrived yesterday evening —

The order is very much as it should be —

I propose to issue no particular instructions respecting rifles until the next session of the legislature — or at least until I shall have the pleasure of an interview with you —

Your wishes & those of your officers relative to the fashion of your swords will be readily complied with —

If a number of companies sufficient to form a regiment or even a battalion & favourably situated for that purpose are desirous of a gray uniform with the Hussar hat you mention I shall be disposed to gratify them — You are already apprized of my promise to the companies formed from the late state troops — Good faith requires a strict fulfilment of it — Without that encouragement there woud not at this time have been more than five companies in the corps —

The *Sixteenth* company is now forming in Oxford — We may possibly stop at that number which on the whole will do very well — In that case four companies will suffice for a battalion — See therefore whether you can get *four* contiguous companies willing to be clad in grey and if so send me a particular description of the proposed dress —

Be pleased to present my best regards to Mr Dana who I know feels a deep interest in the success of our military arrangements —

& believe me Dr Sir your friend & ser^t^

[10:99]

SHARON 7. Sept. 1816

Sir,

I have received the communication signed by yourself & the other commissioned officers of the 6th comp. 2 Regt. — dated the 2nd instant —

The 6th company, as you will see by the late General Order, includes the whole town of Oxford within its beat — the new arrangement rendering it impracticable to allow more than one located company to that town — But as there appeared to be a surplus number of men it was thought best to authorize a company of riflemen to be raised by enlistment — and I am happy to perceive that the proposition is accepted — The Association for a rifle company it seems by your letter is formed in that part of the town which best accommodates the views of

all parties — and it is probable there will always be a supply of recruits in the same quarter — At any rate your company, by the Gen[l] order, cannot be reduced in consequence of enlistments into other corps, below its full complement of men — so that you will be safe I trust from encroachment — Should difficulties hereafter arise other regulations may be adopted — To preserve the peace of the town & at the same time to promote a laudable spirit of ambition in its militia are objects of the first importance & I doubt not will in the end be fully accomplished —

With my best wishes for the prosperity of the
company under your command I am Sir

Sir

In answer to your letter of the 2nd instant which is just received I would observe —

1. It will be prudent in my opinion to allow your men to choose their noncommissioned officers —
2. The usual complement only of noncommissioned officers can be allowed to an enlisted company — A greater number is permitted when there is a consolidation of battalion companies but not otherwise —
3. I find considerable doubts are entertained whether the uniform of the newly-raised flank companies is provided for by the General Orders heretofore issued — An explanatory order will therefore be made in relation to this object — but probably not in season for the trainings this autumn — I will receive with pleasure any suggestions you may wish to make on the subject —
4. Your proposition respecting the alternate parade of your company in the two societies appears to me under present

circumstances to be reasonable & proper — You may therefore pursue that course until further orders — —

SHARON 14. Sept. 1816 —

Sir

I have this moment returned from New Haven and find on my arrival your letter of the 22nd *August last* which it appears did not reach this place until yesterday — The cause of such an unexampled delay in the mail is wholly beyond my comprehension — I regret it the more as I fear the difficulties you apprehend may possibly arise — The proper mode of obviating those difficulties would have been for the officers to have volunteered with the men — in which event they would have been accepted in their organized state.

Indeed I infer from your letter that you consider yourself their commandant: But as you have not placed your name as such upon the Association I know no other course than to forward enclose an order for the choice of officers —

In my opinion the Associates under the peculiar circumstances of the case ought not to be called upon by the officers of the Infantry to perform military duty in a located company — Had the mail been faithful to its trust they would have been organized at a much earlier day — —

Your letter of the 9th instant arrived here during my absence at New Haven — I avail myself of the earliest mail since my return to forward the foregoing order —

There came enclosed in your letter an application which you do not explain and which I find it somewhat difficult to understand — It is signed by eleven individuals styling themselves members of the late military corps & requesting to be accepted & incorporated into Riflemen — As they cannot expect to be formed into a seperate company, I presume it is their wish to be connected with your company which is not yet full — If this is their desire I readily assent to it — The law has expressly provided that *any part* of the late State troops may be received into either of the select corps — And accordingly I have hitherto permitted it to be done whenever requested —

Rev^{d} & dear Sir

I did not receive your letter until the eve of my departure for N. Haven to attend the commencement at Yale College, — where I hoped for the pleasure of seeing you. Being disappointed in that expectation I avail myself of the first mail since my return to forward a reply —

The power of imposing fines for neglect of military duty is vested by the present law not in the captain of the company, but in a board consisting of the field officers of the regiment — If Mr Stevens labours under infirmities certified by the physician it is presumed no board will be so unreasonable as to fine him for omitting to perform military service —

The interference of the executive on such occasions is attended with inconveniences which should be encountered only in extreme cases — Should Mr Stevens be hereafter unreasonably harrassed let him send me the proper evidence, to wit a

certificate of his disability *from the Surgeon of the regiment* and I will endeavour to afford him relief —

With very great respect I am Rev^{d} & Dr Sir
your obedient & hum^{l} Ser^{t}

SHARON 17. Sept. 1816 —

Gentlemen

I have received your letter accompanied by the representation of the light Infantry in Roxbury —

From the report made to me by the Adjutant General I had supposed, and no doubt that officer entertained the same impression, that the union of the two flank companies in Woodbury & Roxbury was an arrangement agreeable to all parties — I very much regret to perceive by your communication that it is otherwise —

It was expected that the new company would parade for ordinary exercise at Woodbury & Roxbury alternating — and if necessary an explicit order will be made to that effect — — This would obviate in a great degree one of the difficulties mentioned in the petition. It would afford me suitable pleasure to remove every other objection. I am not authorized to form the petitioners into a seperate flank company — but I might possibly accept them as *Riflemen* — Two or three companies are still wanting to complete that corps — I should like therefore to be informed whether the members of the Light Infantry in Roxbury are desirous that such a measure should be adopted and if so whether it is probable that a respectable Rifle company could be raised in that vicinity without material injury to the located companies — ? —

I am gentlemen respect —
fully your obedient servant —

To his Excellency John Cotton Smith
Govenor and Capt General in and over the
State of Connecticut

We the undersigned having come to the honor of holding Commissions under the Authority of this State in the 24th Reg^{t} of Connecticut Militia under the new organization law of Oc^{t} 1815 humbly beg leave to represent unto your Excellency that s^{d} 24th Reg^{t} now is below an average Reg^{t} in this State in point of numbers; and that there now are orders of enlistment in the hands of three Cap^{ts} of Horse Artillery to enlist from the s^{d} 24th Reg^{t} whose Companies now fall far short of their compliment of men; there is also one Rifle Company already organized which has taken about twenty-five men from s^{d} Reg^{t} in the Town of Weston (Northfairfield Parish) with orders to make still further enlistments therefrom. And that under this state of facts a disaffected few within the limits of s^{d} Reg^{t} under the new organization law have conceived the idea of forming a new Rifle Company within the limits of s^{d} Reg^{t} in the Town and Parish above named all of which are in the same neighbourhood as it were and for that purpose a number of s^{d} disaffected have associated themselves together and are receiving constant accessions for the purpose aforesaid who now are on the eve of petitioning your Excellency to make them a grant of organization, Which proceedings are viewed by the undersigned with deep regret, And should your Excellency deem it expedient to give a favourable answer to the prayer of s^{d} petitioners the undersigned humbly conceive that in stead of increasing the physical power of the Militia of this State it will in a degree weaken it and that the filling up of s^{d} Company in conjunction with the beforenamed enlisted Companies will render the s^{d} 24th Reg^{t} to a mere skelaton of a Reg^{t}

All which representations the undesigned with due defference and respect submit to your Excellencies consideration with an entire belief that your Excellency will give the prayer of s^{d} petitioners an unequivocal rejection provided your Excellency shall so deem it expedient and for the best good of the Military interest of this State

Capt. Giles Ellsworth

Sir —

It is made evident to me that the office of Captain in the Second company first regiment of Infantry has been returned *vacant* by mere mistake — You undoubtedly held the legal command of a company at the time the new organization took place

— and as upon the consolidation of your company with the other in the first society of Windsor the latter was destitute of a captain, the command of the newly formed company necessarily devolved upon you —

From misapprehension Capt. Strong of the late state troops was reported to the Adj^{t} Genl as entitled to take his rank in the militia — & hence it was erroneously supposed that there would be a supernumerary captain within the limits of the second company — But no officer who held a commission in the late state troops has any right in virtue of such commission to a command in the Infantry —

I therefore consider you Sir as the legal captain of the second company above named and shall accordingly expect you to perform the duties of that office — —

To His Excellency John C. Smith

sir

The undersigned Inhabitants of the towns of Southbury Oxford & Co would ask lieve to state to your Excellency that in the limits of the town of Southbury there has for many years been two militia C^{os} which have formed a part of the late 13th now 12th Reg^{t} Those two C^{os} under the late establishment were not full as will be seen by a recurrence to their muster rolls under the present military arrangement their numbers will not be materially increased and they will be verry far from being full The Rifle C^{o} in the Parish of Quaker Farm in the Town of Oxford has untill the late arangement belonged to the late 13th now 12th Reg^{t} The local situation of that C^{o} and the harmony that has allways subsited [sic] between them & them and their associates of the late 13th rendered it verry desireable to them to continue annexed to the same Reg^{t} instead of being

transfered to the 2d Regt — The Quaker Farm Rifle Co though not verry small in point of numbers is not & proberbly will not be full — If that Co could be transfered to the present 12th Regt those with whom they have allways been connected and the two Cos at present within the limits of Southbury be amalgamated forming one flank Co with liberty for the Quaker Farm Rifle Co to enlist out of its limits two respetable[sic] Cos out of the present limits of the 3 might be formed and these it is believed would not be more than full — — This arangement should it take place would meet the approbation of those who now compose those three Co in whose behalf and at their request we are at this time induced to trouble your Excellency with this letter Permit us also to suggest that by the proposed alteration the 12th Regt woud be compleat & the rights of the 2d Regt would not by it be sacrificed The officer who it was expected would attend to this when the Ajt Gen1 was through here, was at that time unexpectedly absent otherwise it is believed the arangement would then have then taken place & Your Excellency would not have then been troubled by your Obt S — — — ts

SHARON 21. Sept. 1816

Sir —

I avail myself of the first mail since my return from N. Haven to reply to your letter of the 5th instant, which arrived here during my absence —

You will perceive by the Genl order of the 15th August last that the Artillery as well as the other select corps are authorized to recruit from the infantry companies in their vicinity; with the proviso however that no battalion company be thereby reduced below its legal complement — It was hoped, & I still indulge the expectation, that the located companies, enlarged as they now are, will contain a surplus sufficient to fill the various enlisted corps — I am at any rate desirous that the experiment should be fairly tried — should it fail, orders will be then issued authorizing enlistments from particular companies — The changes in your neighbourhood to which you refer I should think highly favourable to the recruiting service — I trust they will enable you to fill your ranks — If the event shall be otherwise, I will endeavour with great cheerfulness to afford you further aid —

[10:117]

HADDAM September 24th 1816 — — — —

Sir,

I lament the necessity of again troubling your Excellency on

the subject of ordinance for the company under my command. Having made repeted applications to the Quarter Master Generals department, without success, is my apology for this communication.

On the 15th day of August last, I wrote to Col. Scarborough, by Col. Johnson, requesting that my company might be furnished with at least one piece of ordinance. Col. Johnson informed me that he would present my letter in person, & would endeavour to effect the object I had in view. Not hearing any thing from Col. Scarborough, I dispatched a member of my company to Hartford with another letter to him on this subject. He returned with information that the Q. M. Genl was seariously unwell. Soon after I wrote to Col. Johnson requesting to be informed why nothing had been done for my company. I recd an answer from him dated the 24th of August, informing me that he had repetedly called on Col. Scarborough & had been unable to effect any thing for me. I will take the liberty of adopting the very language of Col Johnson in his letter to me. "The Q. M. Genl says the law regulating his department requires him to supply companies with ordinance by order of the Captain General. He says he will not act under the general instructions given by the Govenor, which His Excellency alluded to in his letter to Colonel Jewett. If you request an order he demands an explicit order on him from His Excellency. As to distributing the guns more equitably he says he has nothing to do with it. He requested me to inform you that he should do nothing on the subject."

The company at Haddam is now full & have long been anxious to be provided with ordinance. Indeed it will be difficult long to preserve that military ardor & enthusiasm which now so happily prevales in the company unless some provision is speedily made for them. If Col. Jewett could be authorized by your Excellency, to exercise his discretion on this subject, I have not the least doubt but my company would be supplied with at least one piece immediately. In the 2nd Battalion in the 1st Regemt of Light Artillery there have been returned eight pieces of ordinance & my company alone is destitute. Under these circumstances I

hope your Excellency will excuse any undue solicitude which I may feel on this subject.

I am your Excellencies

Sir

I have just received the communication Subscribed by yourself & several other gentlemen and in reply would briefly observe that orders were issued several days since for organizing the Rifle company at Quaker's Farm — so that their annexation to the 12th regiment has become impracticable —

I think it probable from the representation made to me by Lieut. Lum that it may be expedient to consolidate the two companies in Southbury into one battalion company establishing their parade alternately in the two Societies — I will thank you to favour me with your opinion & that of other officers concerned relative to this proposition sometime whilst the legislature is in session — The arrangement can then be made if it shall be advisable — And in that event perhaps it might be proper to restore the flank company at Roxbury to their original standing as I am informed they are not satisfied to be connected with the flank company at Woodbury — —

Yours of the 24th inst. is received, and a letter now forwarded to Col. Scarborough who I trust will be able to explain the transaction to which you refer —

I have concluded to dismiss Lieut. Clark at his request communicated by Col. Jewett — & I now send the foregoing order (which you can seperate from this letter) for the purpose of filling the vacancy — Is Lieut. Clark aware that this discharge will *not exempt him from military duty in the infantry?*

You are sensible that by the existing law he has not held commissions a sufficient length of time to entitle him to a *final discharge* —

Let him act understandingly, and if he on reflection chooses to remain, you may omit to execute the order & return it to me at N. Haven by one of your representatives —

SHARON 28. Sept. 1816

Sir

I have received the representation subscribed by yourself and other officers of the 24th regiment — The association of a number of individuals in Weston for the purpose of being formed into a company of Riflemen had previously been presented by Col. Abel Hall — In support of the application he informed me that there were about 180 subjects of military duty within the limits of one company in that town and that the proposed company could be formed without reducing any infantry company whatever below the number allowed by law — Hearing of no disention and Believing from this statement that none could be raised to the application I thought proper to grant it; but grounded the order expressly on the idea that *no infantry company were thereby reduced below its legal complement* — — If the information I have thus received is essentially incorrect they will not be established nor the officers commissioned — The order when returned to me will at any rate be with held, until further inquiry can be had —

It is my sincere desire to preserve the infantry regiments from undue encroachments & to keep them as large & respectable possible — Accordingly you will perceive by the Genl order organizing the militia in what manner all the select corps are restricted in their enlistments from the Infantry — At the same time you are sensible that the law has made it my duty to organize Artillery, cavalry & Riflemen, as well as Infantry — To maintain these different descriptions of force in their just proportions is attended with no little difficulty & embarrassment — I commend Sir the laudable solicitude manisfested by you & the other officers for the interest of your regiment — and am Sir your obt & hm Sert

The Brigadier Generals are now authorized to dismiss commissioned & staff officers in certain cases. — I would however have cheerfully considered the request of Capt. Barlow if you had stated to me his case and the length of time he has held a commission or commissions — He may have good reasons for being discharged *from his office* —but you are sensible that by the late law unless he has served the period therein prescribed his discharge *will not exempt him from military duty* — — As I am not sufficiently informed of his claims I think he had best make his application to Brigadier General Salter —

SHARON 28. Sept. 1816 —

Dr Sir

I am sorry to learn by a letter from Capt. Parmelee of the Artillery that his company is still destitute of a piece of ordnance — and that the delay has arisen from an apprehension on your part that my instructions under date of the 10. July last were not sufficiently explicit to reach his case — There must be some mistake in this affair — for if any doubt or difficulty had arisen in your mind as to the propriety or practicability of executing those instructions I feel quite sure you would have had the goodness to apprize *me* of it at the earliest moment —

It is obvious that with our present supply of brass ordnance each company of Artillery (excepting the large companies in

Hartford & New Haven) must be limited to one piece — I am informed the company at Saybrook and the one at Killingworth have each of them two brass guns — It was my expectation, as it is now my desire that one gun be taken from the former and delivered to Capt. Parmelee in the adjoining town of Haddam for the use of his company — and that one gun be taken from the company in Killingworth and delivered to the commanding officer of the nearest company either of Lt Artillery or of Horse Artillery destitute of ordnance — whenever an application shall be made for that purpose

I have lately issued instructions for the organization of a Rifle company in Weston with directions that the Captain elect should report himself to you for orders — — Since which from a representation made to me by the principal officers of the 24th regiment I am led to suspect some deception may have been practised in obtaining the grant — It is therefore my desire that you suspend any orders in the case until further inquiry can be had —

Since my last companies of Riflemen have been formed or authorized in Pomfret, Oxford, & Griswold which with the company above mentioned if established will make our whole number *nineteen* —

Dr Sir

I have received your favour of the 21st instant enclosing the association in Griswold &c for the purpose of being formed into a company of Riflemen — It has appeared to me advisable to accept the Association, and you will therefore be pleased to issue orders to some suitable person to lead the Associates to a choice of officers — — Should any serious objections however from any quarter have reached you since your letter was despatched, I must desire you to exercise your sound discretion as to the propriety of issuing the order at present — Having lately met with unexpected & strong opposition to the formation of a Rifle company in the bounds of the 4th brigade in a case which from the representation appeared to be a very fair one, I feel the importance of much caution upon this subject — — — The present application *seems* to be unexceptionable, especially after the assent of the infantry captain in that vicinity — If finally established it will form *the 19th company* we shall have orgainzed —

Such orders for choice of officers as may in any case have been returned to your office you will be pleased to forward to me at New Haven —

JOHN COTTON SMITH TO GENERAL ASSEMBLY

[10:126]

Gentlemen of the Council
Mr Speaker and
Gentlemen of the House of Representatives . —

No important change seems to have taken place in the for-

eign relations of the United States since the last meeting of the
disturb [inserted]
General Assembly; nor has any event occurred to interrupt our internal repose. — It becomes us gratefully to acknowledge the Divine Hand in the continued enjoyment of peace abroad, and of tranquility at home.

That the advantages which were confidently expected from the restoration of peace have not been realized in their full extent
surprise [inserted]
is indeed a subject of regret but not of despondency. The irregularities which had unfortunately entered into the pursuits as well as into the monied operations of the country the depressed condition of manufacturing employments, the limitations still imposed upon commerce and the successful competition of foreign vessls [sic] in the transportation even of our own productions are evils of a nature too stubborn to yield at once to any remedies
faithfully [inserted]
however skilfully applied. I trust nevertheless a brighter day approaches. The discouragements to navigation which may have grown out of the late commercial treaty will expire at no very distant period, and I think we may entertain a well grounded confidence that the National government will not suffer them to be renewed. Other embarrassments will probably disappear as the country shall return to the regular pursuits of industry, and
may [inserted]
as Divine Providence shall favour the characteristic assiduity and enterprize of our citizens. — — In the meantime the representatives of a People extensively concerned in the cultivation of the soil and of the arts and manufactures which are intimately connected with it, will not lose sight of objects so important. I am persuaded gentlemen you will afford them such encouragement
the best views [inserted]
as shall comport with an enlarged view of the interests of the commonwealth.

I have the satisfaction to inform you that the reorganization of the militia contemplated by the Act of October last has been perfected as far as respects the infantry cavalry and Artillery.

The General order embracing these arrangements will be submitted to your examination. The formation of the regiments of Riflemen will doubtless be completed in time for the appointment of their field-officers at the present session. — — In discharging the duties injoined by the act unwearied pains have been taken to fulful the intentions of the legislature in a manner the least burdensome to individuals — to consult in short as much as possible the personal accommodation of our fellow citizens consistently with a due regard to the efficiency of the system. How far the attempt has succeeded time must determine. It would not be strange that in arrangements affecting in a greater or less degree almost every company in the state some errours should intervene, either from want of the requisite information or from other causes. These it is hoped are few and may be still Susceptible of amendment. Whenever discovered they will be readily and cheerfully corrected. You will permit me Gentlemen to congratulate you on the accomplishment of a reform which recent experience had shown to be highly desirable, and which if carried into effect by our militia with their usual spirit, as it undoubtedly will be, must eminently conduce to the military strength and consequently to the future safety of the state. We may indeed justly lament that there should exist the least occasion for preparations of this nature, and we look forward with
wholly [inserted]
elevated hopes to a day in which they will become altogether unnecessary; But that we should defend ourselves against the unprovoked assaults of an enemy and that a state of preparedness is the secret mode of avoiding aggression are principles which the present condition of the world has but too well established, and which I trust are not less conformable to the ditates of a pure and peaceful religion than to the maxims of an enlightened policy. — —

By particularly adverting to the Act already mentioned it will be seen that further provisions are required to insure its complete operation. You will also observe that by a late act of Congress an alteration is prescribed in the rank and commission of

field officers in the militia. A regulation which it is desirable to adopt at the present time.

It was recommended to the legislature at a former session to revise certain parts of our criminal code; and several modifications were accordingly made which are believed to be salutary. The inquiry however was not finally closed and of course it will again invite your attention. As connected with this subject allow me gentlemen to observe that the law which defines and punishes forgery was passed at a period when the notes of incorporated banks constituted a small proportion of the circulating medium of the country. Hence to forge alter or counterfeit "bills or securities" of this description was subjected to no higher penalties than were annexed to several offenses which are obviously of an inferiour grade, whether we regard the temptation to the crime, the frequency with which it is committed, or its injurious effects upon the great interests of the community — If in the one case the punishment is now adequate, in the other it is manifestly too severe — From the free circulation of bank notes authorized by the different states, it would appear that in a question of this nature the respective states have a common concern, and are therefore deeply interested in establishing a uniform mode of treating the offence — It is at any rate to be desired that a crime which strikes at the root of credit and confidence amongst men should if possible be effectually prevented. — I am sensible it is at all times difficult to fix with exact propriety the apportionment of punishments to crimes — to balance with an even hand the claims of humanity and the demands of punitive justice — How far the material change which has taken place in mercantile intercourse requires a corresponding alteration in our laws is a point respectfully submitted to your consideration —

An election of President and Vice President of the United States will be held on the first wednesday in December next. It will accordingly be the duty of the General Assembly to appoint within the time limited by the Act of Congress, the number of electors to which the state is entitled — —

In every measure Gentlemen which may be calculated to strengthen & adorn our free & happy form of government, or

which may in any degree contribute to support our national institutions and advance the honour & prosperity of our country, you may rely on my sincere and zealous cooperation — —

REMONSTRANCE FROM WILTON

[10:129]

To the Honorable Legislator of the State of Connecticut to be holden at Newhaven on the 2nd Thursday of Inst Oct — We the undersigned feeling a just pride at the recollections of having been thought worthy of the confidence of a Legislator always distinguished for its wisdom and integrity and now having the honor of holding Military Commissions under the Legislative authority of this State in the 24th Regt of Connecticut Militia under the new organization passed Oct session 1815 and justly appreciating the great importance of a free State and a Militia sistem combining all the advantages of a wise organization and a practical improvement of its Militia in efficiency and power; and think it a subject among the first claiming the attention of a wise legislator and from a solicitude for the same the undersigned humbly beg leave to represent unto your Honorable body — — That whereas sd 24th Regt now is much below an avarage Regt in this State with respect to numbers and that all the Cos composing sd Regt excepting the 2nd & 7th are much short of their complement of privates as by the returns of the Commandants of sd Cos to the Adjutant General in Sept last will fully appear and that the Commandants of three of the Companies in the third Regt of Horse Artillery now have orders of enlistment to recruit from sd 24th Regt, also the Commandant of a Rifle Company recently formed and Commanded by Levi Edwards; and that a disappointed and disaffected few within the

limits of s^{d} 24th Reg^{t} under the late new organization of the Militia of this State with a full knowledge of the above facts, did in Sept last secretly with deceit and misrepresentation petition his Excellency the Govenor of this State praying for an act of organising them into a Rifle C^{o} And that by reason of s^{d} deceit and misrepresentation his Excellency the Governor reposing special confidence in s^{d} petitioners was induced afterwards (viz) in s^{d} Sept to grant the prayer contained in s^{d} petition together with an order directed to one Abel Hall (the bearer of s^{d} petition) to lead s^{d} petitioners to the election of Commissioned Officers, and that afterwards to wit in s^{d} Sept s^{d} Hall led s^{d} petitioners to the election of s^{d} Officers in pursuance of s^{d} order when James Prince was chosen Capt, Eli Adams Lieu^{t}, and Nathaniel Sillaman Ensign the result of which election has already been returned to s^{d} Legislator for the purpose of obtaining commissions. agreeable to s^{d} several appointments (s^{d} last name Rifle C^{o} has chosen its parade ground within about four miles of that chosen by the other Rifle company commanded by s^{d} Edwards) And the under signed humbly conceive that the granting of s^{d} commissions and the establishment of s^{d} C^{o} together with enlistments from s^{d} 24th Reg^{t} for the filling up of the other before named enlisted C^{os} will reduce s^{d} 24th Reg^{t} almost to annihilation and instead of serving or renewing the Military arm of this State with more power and efficienty; it on the contrary will paralize and enfeeble it. And in the event of the granting of s^{d} Commissions and the establishment of s^{d} C^{o} the undersigned humbly beg leave to resign their Military Commissions to the authority which granted them and to be exemt from further Military services under the same as they can feel no pride, honor, nor ambition in the command of men; remnents of C^{os} or of a Reg^{t} All which is most humbly submited for your wise consideration — —

NORWICH 4 Octo^{r} 1816

Dear sir

In obedience to your Excellencys wish, I have written General Deming on the subject mentioned in your's of the 30th (which was handed me on Saturday Morn^{g} by Mr Huntington,) his reply when rec^{d} I will communicate

I am sorry to hear that errors have been found in assigning officers to commands — — — that some should have occurred in fixing limits, was expectable — — — —

The applications by John Fuller & Lavinus Farnham for a Rifle Company in Lisbon, I supposed had been abandoned, — — — — The company in Lisbon is not full, nor neither of the adjoining companies — When those Gentlemen applied to me on the subject, I told them it was not practicable to have a Rifle Company without destroying the battalion company in that town — — I am still of the opinion that a Rifle company can not be raised in that vicinity — — — — I *suppose* them both Sergeants who want promotion & then be clear of duty — — — — I am with much respect & esteem

very sincerely yours — —

JAMES PRINCE TO JOHN COTTON SMITH

[10:131]

To His Excellency John Cotton Smith Capt Genl of the Militia of Connecticut —

Sir Having heard that there has been a Remonstrance, signed by several officers of the [ ]th Brigade against the grant for a a [sic.] Rifle Company in the Town of Weston, agreeable to the petition presented to your Excellency by Lieut Colo Hall of Horse Artillery, & according to your General Order to him directed, accepting, & establishing the same — — — & that your Excellency answer to those who remonstrated was [ren]dered favorable to them. — — — — —

I have therefore thought proper to address you on the Subject & give you that recital of Facts which I might think proper, & request that information from your Excellency that may be expedient in the case — — — Your Excellency is doubtless in possession of the Returns of Lieut Colo Hall of the Election of the officers of said Company, as Certified upon the back of your Excellencys General Order — — — —

So far as it regards the Assertion of Colo Hall, as Noticed in your General Order "in not reducing any Infantry Compy. below their legal complement" from my knowledge of the case I dont hesitate to declare him Substantially correct, as the Roll of Capt Sanford's Company & his returns must certainly identify — — — — — —

Perhaps there may be three or four Names inadvertently Subscribed to the Petition which belong to other Companies, of whose Situation as it respects their Complement of Men I am Unable to determine — — but if it is the case that they have not their full comp[leme]nt we have no disposition to retain them as the Company can be easily filled without any unfair means — — — — Not having kept a copy of the Names of those included in the Petition presented to your Excellency, I am Unable to say whether those three or 4 Men Stated to belong to other than Capt Sanfords Company were Subscribed to that, or a Similar form, after that was forwarded — — — — —

Perfectly willing to have the ground of of [sic] our claim

fully investigated, & relying with the Utmost confidence upon your Excellencys impartiality, & equal justice, firmly persuaded in the belief, that your Excellency will be aware of the interest that the officers who signed the remonstrance may have in the case, as transfering Men from them into a Corps, over which they can have no controul — — I would therefore earnestly request your Excellency, if compatible with your feelings, to State to us the ground of their Remonstrance, & if it is probable that the Commissions will be opposed, to inform us what facts will be required of the Company to rebut them I think Colo Hall will evince to your Excellency, that he has done Nothing in this case incompatible with the honour of an Officer, or of Strict Justice — — — & I presume your Excellency will not be at a loss to determine, from their relative Situations which would be most likely to be prejudiced, the Officers signing the Remonstrance or Colo Hall — — — — With sentiments of the highest Esteem

Respectfully yours —
JAMES PRINCE

[10:132]

NORWICH 7th October 1816

My dear sir

Inclosed your Excellency will receive a return of several elections of officers which have been transmitted to me & would by me have been forwarded to the military committee (to be appointed) had not your Excellency directed them to be forwarded to you as p^r letter of the 28th Ult^o

I find that some few errors which occurred in the formation of companies require correction

In the second company of the fifth regiment, it should read *the Town of Plainfield* excepting &c — — as a part of the 1st Society of Canterbury includes a small part of the town of Plainfield & it was my intention to include the town of Plainfield

In the sixth company of the eleventh regiment, it ought to have been added *excepting that part included in Muddy* Brook Society

I am informed that a custom prevails among the inlisted companies (particularly the Cavalry) to strike out mens names from their rolls — — — & enlist others in their stead, if so, it is certainly an evil which requires a remedy

I begin to apprehend a want of punctuality in receiving returns from the inspectors, as none have yet been forwarded to me — — — — If a General Officer resigns his commission, are his *aides* liable to be enrolled, without they have served *two* [?] years?

I am with much esteem & respect
very sincerely yours

[10:133]

SOUTHINGTON October 8th 1816

General Huntington Sir

Since I last had a conversation with you on the subject of converting the late 10th Compy 1st Regt of State Troops into a Rifle Company, I have conversed with many of the soldiers of that Company and find that they now are anxious to be estab-

lished as a Rifle Company. We have men enough in this town & in the parishes of Britian & Kensington in the town of Berlin to constitute a good Rifle Company — The Battallion Companies in each of those places enroll more than ninety privates at present so that out of those companies men to fill a Rifle Company might be inlisted without detriment Personally I feel but little interest in the business — — But many ambitious and public spirited individuals have solicited me to make communication to you on the subject. It is therefore my request & theirs that arrangements may be speedily made to authorise the formation of a Rifle company here to consist of the old 10th Compy 1st Regt State Corps & such others in the vicinity as may enlist without detriment to the battallion Companies — — An answer as soon as convenient will oblige me & them Any thing which I can do by way of forwarding the object will be cheerfully performed

Respectfully yours &c

PETITION FROM EAST HADDAM MILLINGTON SOCIETY

[10:135]

To His Excellency John Cotton Smith Esqr Captain General & Commander in Chief of the Militia of the State of Connecticut — the Petition of the Subscribers Inhabitants of the Town of East Haddam in the County of Middlesex — respectfully Sheweth —

That by the recent Organization of the Militia of this State the Society of Millington in sd East Haddam & that part of New Salem Society, which lies in the Town of Colchester in the County of New London were formed into & now compose the Seventh Company in the Third Regiment of the Militia of this State — — That from one extremity of the limits of sd Company to the other is a distance of nearly Twenty miles — that

a large proportion of those who are by law liable to perform military duty in sd Millington Society, in order to do the same, will be ordinarily obliged on each day of Company exercise or other Company duty to travel at least Ten miles from their respective places of abode & on days of Regimental Exercise or other Regimental duty between Twenty & Thirty Miles, by which they are unavoidably subjected to considerable expence & much trouble & that though they have no wish to avoid the performance of a duty they owe to their Country they cannot under those circumstances & considering the frequency of such occasions, but view it as a very great burthen Your Petitioners would likewise represent that in sd Millington Society there are about one Thousand Inhabitants & it is believed a Sufficient number of persons liable to do Military duty therein to form a Complete Company & to which number there is a prospect of large additions being made within a short period of time — that if sd Millington Society were formed into a distinct Company, the residue of sd Seventh Company would be sufficient to constitute another distinct Company in sd New Salem Society, or if it should be thought expedient to increase the Same that that part of sd Society of New Salem, which lies in the Town of Lyme in sd New London County, not having been included in the late organization of the Militia, may be annexed to it & perform Military duty therein with little trouble or inconvenience, & that should sd Millington Society be so formed into a distinct Company as aforesaid one half or more of the travel & a large proportion of the expence, to which those in sd Millington Society liable to perform Military duty are subjected would then be saved & if being so formed it should be united to the 20th Regiment (which Your Petitioners apprehend might very advantageously be done) the travel & expence would be still much more diminished & those who are so liable in sd Millington Society as aforesaid much relieved of a burthen, they now so sensible feel — & Your Petitioners would further represent that there are now within the limits of sd Seventh Company Eight Commissioned & Twenty Non Commissioned Officers & that they believe scarcely any Society of the same extent & so great a

population as that of Millington is to be found in this State, in which a distinct Company has not been formed Wherefore Your Petitioners request Your Excellency to take the case into Your Consideration & form sd Millington Society into a distinct Company & cause the Same to be annexed to the 20th Regiment of the Militia of this State or in some other way grant relief in the premises as to Your Excellency may seem proper & Your Petitioners will pray &c — — Dated at EAST HADDAM the 8th day of October Anno Domini 1816 —

CERTIFICATE BY JOHN BESTOR

[10:136]

Simsbury Octr 10th 1816.—

This certifies that Judah P. Barnard a Serj^{t} in the first Troop first Reg^{t} of Connecticut Cavalry has been for several years past, in an infirm state of bodily health; particularly, he has an affection of the head, attended with pain & dizziness; Also, a lame shoulder by reason of a fracture of the collarbone. Considering all his indisposition; I think it very unlikely that he will ever be an able effective soldier: He is therefore recommended to his Officers for a discharge from Military duty.

My dear sir

By Mr Huntington one of the representatives of this town I wrote you and inclosed the elections of officers of such companies as had made return to me — —

I suggested my fears respecting the returns from the Brigadiers — — — I find them realized in part — — —

I wish your Excellency to direct me what to do with the applications of the Staff who are supernumary & ask discharges — The resolve of the Legislature doth not reach the Staff — — — — — — Your Excellency was pleased to refer the Griswold Application to me, I have issued the necessary order & shall probably receive a return of the choice of Officers tomorrow and forward next week, at which time I hope to be able to forward the returns of the Militia

Inclosed your Excellency will receive a letter from Captain Woodruff to me and a copy of my answer

[10:138]

NEW HAVEN October 14th 1816

Sir

The undersigned has the honor to hold from your Excellency the Commission of Commandant of the Second Company of Governors Foot Guards and requests your acceptance of his resignation — — —

For fifteen years I have performed military duty, and, about Six years, have held a commission in said Company — — Should this length of service not be, in the opinion of your Excellency, reason sufficiently weighty for you to grant me a dismission, permit me to add, that my situation in Life in various respects, makes it not only unpleasant, but, very inconvenient to discharge the duties of this office for any longer period — — — — —

I received your Excellencys order under date of the 24th of

August last, to lead the 2d Comy of Govrs Ft Guards, "at such time as I should designate", to the choice of a suitable person to fill the office of first Lieutenant — — I have not to this time fulfilled this order, because I wished to ascertain whether the office of second Lieutenant should become vacant also — — — The 2d Lieutenant (Hezh Hotchkiss Junr) removed from this Town, into the State of New York nearly a year since — and from all the information I can collect from his friends here, it is a matter of some uncertainty whether he will return to reside in this place again — — — — Before I informed your Excellency that the office of first Lieutenant had been vacated by the death of Lieut Doolittle, I wrote to Lieut Hotchkiss, to ascertain from him whether it was his intention to return and whether he wished to be considered as a condidate for the first Lieutenancy — — — I have recd no answer — — — — Previous to Lt Hotchkiss' leaving New Haven I understood (from report merely) that he had given, or intended to give, in his resignation — — but I had no communication with him upon the subject — — — — —

Will your Excellency please to inform me whether the office of second Lieutenant shall be considered as vacated, and give me orders upon this subject also — — — — —I wait your Excellencys commands

and have the honor to be
very respectfully

General Orders

October 14th 1816

A General courtmartial whereof Lieut. Colonel Benjamin Baldwin is President, was held at Guilford on the 8th day of August last, by order of the Brigadier General of the Second brigade for the trial of Ansel Southworth Ensign of the late 8th now 7th Company in the 7th regiment of Infantry under arrest upon seven distinct charges of misbehaviour and unofficerlike conduct.

The court on a full hearing of the case found the accused not guilty of the first, second, fourth, fifth and seventh charges, but pronounced him *guilty* of the third and Sixth charges in arrest and thereupon Sentenced him to be CASHIERED *with disability of holding any military office in this state* —

The Captain General having examined and maturely considered the whole record approves the sentence of the court and orders that the same be carried into effect —

The Brigadier General of the Second brigade will issue the necessary instructions to fill the vacancy which has been thus occasioned in the company aforesaid —

The General court martial of which Lieut. Colonel Baldwin is President is hereby dissolved —

Inclosed your Excellency will receive a return of the choice of Officers for the Rifle Company in Griswold — — also an inspection return from Genl Deming of the Field Artillery and of two regiments of Horse Artillery, the third Regt having made

no return to him — — — — Having rec^{d} returns only from the 2^{d} 3^{d} and 5th brigades, I shall defer making a return to your Excellency till after the arrival of the Hartford Mail tomorrow evening in hopes of presenting to your view the statement of the whole militia — — — — — I shall address a circular to the Brigadiers whose returns shall not be received by tomorrow evening — — — General Williams of the 3^{d} brigade having gone to New York I presumed on issuing an order to the Captain of the second flank company in the 8th regiment (on his application) to lead his company to the choice of an Ensign — — trusting your Excellency will approve the same —

Should any opportunity present, to introduce Col^{o} George L. Perkins (Inspector of Division) into command without a violation of feelings to others — — or without infringing the principles adopted at your board, it would certainly be an acquisition to the Militia — — —

12 ^{o}Clock Having written thus far, the mail furnishes me with your Excellencys favor of the 12th with a General Order — — —

Why Capt Grosvenor has not made a return to General Whittlesey I can't say — — I wrote him the last month & requested him to make return of his company to General Whittelsey — — The Genl order respecting Captain Lacey will be forwarded by mail tomorrow morning — — —

I am with esteem and respect

To His Excellency John Cotton Smith Esqr — Capt General

Having learnt by His Honor Judge Holmes, that Your Excellency had not received my election in writing I feel surprised & deem it my duty to inform Your Excellency that soon after I was at Sharon I wrote my election & sent it to the Adjutant General By Mail As my case is a singular one perhaps not a nother in the State whare the Capt is seperated from his Brigade by Connecticut River & whare it is attended with so much trouble to do duty. it is frequenty very Bad crossing & in the time of ice it frequently happens that I could not git to My Company for two days without great hazard. If I have a fair & just right to go out under the new organizeation I feel anxious to improve this oppertunity & wish to take the right ground to git clear from further Military duty under the new organizeation which I think I have a perfect right & which is admitted by every Military man that I have conversed with upon the subject since the reorganization (that know my case) But I find it is the growing opinion that I ought to go out by making my election as belonging to the Town of East Haddam and under the new organizeation am included in the 1st Company in the 20th Regt. Although in the reorganizeation there was not any of my company annext to the 1st Company in the 20th Regt but myself it is argued that as I was a resident in East Haddam I could not under the new organizeation be counted as belonging to the company in Haddam Having mad[e] the foregoing remarks I submit it with cheerfulness to Your Excellency to decide

Your Excellency Most Obeidant & Humble Servt
Gideon Higgins Capt of 2nd
Company of 7th Regt

PS for further particulars I refer your Excellency to Silvester Chapman Esqr Representative from East Haddam who I exspect will be the Barrer of this

EBENEZER HUNTINGTON TO JOHN COTTON SMITH

[10:155]

NORWICH 26th October 1816

My dear sir

Inclosed your Excellency will receive a copy of General Palmers returns, which I have transcribed for your perusal — — — I hope before long to transmit a return of the whole militia. The following deficiencies prevent me from doing so at this time — — —

The 1st brigade hath made no return
The 2^{d} and 3^{d} brigades are completed
The 4th brigade hath omitted the 24th regt — —& made no return of officers names — —
The 5th brigade hath made no returns of officers names
The 6th brigade hath made no returns of officers names
The Artillery Brigade hath made *no return* of the 3^{d} regt of Horse Artillery
The Cavalry hath made no return of Officers names of 3^{d} & 5th regiment
The Rifle Corps (not being organized) hath not made return — — —

I have written circulars to the Officers commanding brigades urging a completion of their returns — — — — —

I hope your Excellency will excuse my calling your attention to the Artillery Company in Griswold commanded by Capt

Lester, the company is full & hath been about six months, they are without a piece of artillery; the Norwich & New London companies have each of them two pieces, & I think might either of them spare a piece without inconveniency — — — — —

May I remind your excellency of the accommodation to me to have the returns sent back to me when you leave New Haven — — —

Mrs Huntington presents her respects to Mrs Smith & yourself, and joins me most sincerely in the wish, that *pleasure or business* may induce you to make us a visit at Norwich — — — —with much regard and esteem,

I am yours very sincerely — —

To His Excelleny John Cotton Smith Esquire Capt *General in and over the State of Connecticut:* The memorial of Barock Smith, Joseph Bedlow, Marvin Orcut, Walter James, Zuingliers Bullard J^{r}, Reuben Preston, Josiah Richards, Abijah Richards, Deca Spalding, Samuel Sumner J^{r}, Palmer Willson, Palmer Howard, Chester Lumis and Duty Fitts all of Ashford in the County of Windham respectfully sheweth that they are subjects of Military duty and before the reorganization law they were, and by the General order of Augt 15 still are members of the Grenadier Company formerly attached or annexced to that Reg^{t} denominated by the old law the 5th Reg^{t} and by the Reorganization annexced to the present 5th Regiment. Your memorialists would further represent that before the promulgation of the General order of Augt 15. they each and every of them enlisted into a Company of Grenadiers in the town of Ashford now annexed to the 23^{d} Reg^{t} and have performed their duty in said last Company as faithfull soldiers not knowing but they had a right so to do. That it is much more convenient for them to belong to said last mentioned Company Wherefore they pray Your Excellency to take their case into consideration and transfer each and every of them from said fifth Reg^{t} and annex them to the said 23^{d} Reg^{t} thereby confirming their said enlistment into said Ashford Grenadiers Company and your Excellency's Petitioners as in duty bound will ever pray.

[10:164]

May it Please Your Excellency,

As the enclosed Certificate states, I enlisted into the first Company of Your Excellencys foot Guards, and with much pleasure have done my tour of Military duty in that Corps — —

Yet notwithstanding this, haveing been transient in this Town the past Season, have been calld upon to appear on Parade for Military Duty, and for non appearance have been summoned before the board of Officers of this Regiment and fined — —

I have shown the enclosed certificate, and laid my excuse before them — — It all avails me nothing, The answer was

"You may appeal to the Captain General" If, therefore, after a perusal of the above statement Your Excellency should see fit to grant, Please to favour me with a certificate which will be sufficient to liberate me from this fine — —

Sir

I am sorry to trouble you any farther with the concerns of my Regiment. But the 3d Company commanded by Archibald Mosher to whom you gave an order to lead his company to choice of a Capt which choice was set aside on account of illegallity in said Moshers proceedings during the session of the Legislature — feel very ansious to get rid of their Capt and have sent to me requesting me to write to your Excellency on the Subject. If it would be consistent for you to give a new order I think it would be an advantage for the Company to be led to a choice of officers this fall — Capt Mosher is expecting shortly to leave Plymouth for the southward and as there has been difficulty in the company regarding the choice which was set aside I think the sooner it is done the better — — —The bearer hereof — a Son of Genl Potter of Plymouth can give you all the information you may wish — In haste I am

General orders

Novr 14. 1816

On the representation of Baruck Smith, Joseph Bedlow, Marvin Orcut, Walter Janes, Zuingliers Bullard Jr., Reuben Preston, Josiah Richards, Abijah Richards, Deca Spalding, Samuel Sumner J^{r}, Palmer Willson, Palmer Howard, Chester Lumis and Duty Fitts of Ashford, shewing that they are members of the first flank company in the 5th regiment of infantry that it would be more convenient for them to be annexed to the second flank company in the 23^{d} regiment within the limits of which as ascertained by the general order of the 15th & as represented they now reside & praying they may be transferred to said flank company in sd 23rd regiment into which company from misapprehension they had already enlisted — And the captain of said first flank company with two of the field officers in said 5th regiment having expressed their assent to the proposed arrangement,

It is ordered by the Commander in chief, that the individuals first above named be & they are hereby transferred from the first flank company in the 5th regiment to the second flank company in the 23rd regiment and that their enlistment therein be & the same is hereby confirmed —

JOHN COTTON SMITH TO EBENEZER HUNTINGTON

[10:168]

SHARON 16. Nov. 1816

Dr Sir —

The enclosed order will sufficiently explain itself — It will probably be best to *send it* to the Brigadier Genl of the 5th brigade with instructions to transmit copies to the colonels of the two regiments concerned — The petitioners particularly requested that the order might be sent to Major (now Lt Col.) Andw Judson who has interested himself in their behalf — I will therefore thank you to either send him a copy or drop him a line acquainting him with its purport —

As the law now requires the secretary to furnish you with a list of promotions &c I think it advisable that you take the earliest opportunity of transmitting to the new general officers copies of the general order relative to the discharge of commissioned & staff officers —

A resolution passed the legislature authorizing the Capt. Genl to create (if he deemed it necessary to the welfare of the militia) more than two flank companies to a regiment & to *locate* them. This power should indeed be cautiously exercised, but I apprehend it will enable us in one or two cases to remove serious difficulties — The society of Millington are much aggrieved — I have encouraged them with the prospect of their being allowed a flank company in that parish, provided the Society of New Salem can with propriety form the limits of a battalion company including such in Millington as do not join, or may not be wanted for, a flank company — It appears, by the way, that New Salem extends into Lyme, a fact overlooked by us & consequently that particular section has not been covered by the new organization — Be pleased to inquire & report to me whether a reputable battalion company can be made out of the whole of New Salem without materially affecting other companies now extending their limits into that society —

Your favour of the 4th instant (dated by mistake 4th Oct.) is

received — The *two sergeants* will not of themselves be quite sufficient for a rifle company — by your representation I perceive no chance of forming one from any other materials in that quarter —

The enclosed original returns ought to have been sent to you with the others from N. Haven, but were mislaid amist a mass of papers which were accumulated upon my table during the session — I am sorry to add that the return of a choice of officers in the Rifle company at Griswold &c. came in the same package & consequently shared the same fate — The latter return however is now in my hands — altho' commissions cannot issue until the next session yet the date of their rank will not be thereby affected — In the mean time pursuant to power vested in me for such purposes I enclose an order authorizing the officers elect to act until the rising of the Assembly in May next —

I am &c — &c — —

JOHN COTTON SMITH TO ISAAC D. BULL

[10:169]

SHARON 16. Nov. 1816

Sir —

At the last General assembly the committee appointed to receive military returns made a special report relative to the choice of officers in the first company of Governour's foot guards — They recommended that commissions be issued to the Major commandant & the subaltern elected under the order but stated that they knew no law nor usage which would justify them in recommending that the intermediate subalterns should be advanced & commissioned conformably to the intimation contained in your returns — This report was accepted in the House of representatives and came to the Upper House on the last day of the Session — There was not time to search for precedents — nor had the secretary such documents with him as would enable us to settle the question satisfactorily — I however communi-

cated to the Council my impression that you had stated the usage correctly and advised them to continue the report rather than to concern in what I deemed a departure from a long established course — The report was accordingly continued to the next session —

Its acceptance in my opinion must have produced the effect of advancing the Lieut last chosen to the place of Capt. Goodwin promoted — than which I presume however worthy the candidate nothing could be more distant from the views of the company —

Under these circumstances Sir you are to be considered as the legal commandant until the final decision of the legislature in the [measure?] At the same time in consideration of the very honourable & satisfactory manner in which you have uniformly executed the duties of that office I shall be disposed to allow you, if you desire it, to devolve occasionally the actual command upon the Major elect.

I am &c —

I was appointed under the late organization of the Militia of this State to command the Second Flank Company in the 3d Regiment — There are at present three Battalion Companies in the Town of Lyme — but only one however which has more than the number of Soldiers designated by law, as composing a full Company & I find it wholly impracticable to enlist a Flank Company, without permission to enlist from such Companies in sd Town of Lyme as do not contain more than the number of Soldiers designated by law, to make full Companies —— If your Excellency should not deem it improper I would therefore request your Excellency to grant permission, together with proper

HARTFORD Novem^{r} 22^{d}. . . 1816 — — —

Sir

I receivd this day your Excellency' letter of 16th Inst — conveying to me very unpleasant information respecting the Officers of the first Company of Governours foot Guards — — — —

The view taken by your Excellency in relation to the report

of the committee, and the course pursued, were in my opinion were both correct — but so far as the decision respects myself I have been inform'd by one of our Representatives at the late General Assembly, that all the Officers were not to be commission'd in conformity with my report, yet he further stated to me, that the Major elect, and the Ensign as designated by the Company were to receive their Commissions — — In conformity with this representation I have already given up the command to the Major elect and made such arrangements in my affairs in relation to it, that holding either an entire or conditional command of the Company, would occasion to me *great* and *serious* inconvenience and *much detriment* to the Company — — — —

Fully believing that the interests of the Company, & state, would be benefited by my *unconditional* and *immediate* discharge from the Command, I have earnestly to request that the same may be granted me — — — —

I have also to request, you will be pleased to accept my thanks for the honourable mention you are pleased to make of my past services, in discharging the duties devolving on me as Commandant of the Company — — which to my feelings, is the best recompense I could receive for the many sacrifices accruing to me, during the time of their performance — —

HARTFORD Novr. 27. 1816

D^{r}. Sir

I take the liberty to inform your Excellency that our respected friend Col^{o}. Jared Scarborough died on Monday morn-

ing and is this day to be interred. Having been with him and conversant with his concerns in his last sickness I was led to take some notice of the papers pertaining to his office as Q^r^. M. Genl.

It struck me as important that some person be directed to collect those papers and hold them for his successor. They may be lost or mislaid by his executors. If it would not be improper I would suggest whether Co^l^. Ward would not be the most suitable person as he has some knowledge of the business of that department

There are some accounts that ought to be settled and which have been delayed by the indisposition of Co^l^. Scarborough, but whether they can now be closed or not I cannot determine.

Ever ready to render any service to your Excellency, I am

with high respect & esteem

I lament the necessity of informing Your Excellency that Colonel Jared Scarborough died the day before yesterday of a rapid consumption —

I am informed by Col^o^, Johnson that in consequence of this event there are some things in the Quarter Master Generals department requiring immediate attention — —

M^r^. Henry Hudson of this city, has intimated to me, that he should be pleased to become M^r^. Scarboroughs successor — I believe that Gentleman would perform the duties of a Quartermaster General with fidelity & skill — —

I have this day received a letter from the Rev^{d}. Henry Channing stating that arrears of rent are due him for the small building in N. London which was occupied during the late war as a magazine — and also that possession of the premisies is still retained in behalf of the state by the Q. M. General or by yourself as his Assistant, —

As I am just informed of the death of Col. Scarborough the late Q. M. General, I must request you will communicate to me whatever facts may rest in your knowledge relative to this subject — And particularly whether possession of the building is still designedly held for the use of the State? whether any public property is now remaining in it? in short why the Q. In the course of the year 1813 (I think) a resolution passed the Assembly authorizing the Q. M. General to hire a small stone building in N. EBENEZER HUNTINGTON TO JOHN COTTON SMITH

[11:9]

NORWICH 2[d] December 1816

My dear sir

By the receipt of Colonel Halls returns of the third regiment of Horse Artillery on saturday — I am now in possession of all the returns, excepting from the Rifle Corps — which from being incomplete, I have not, nor can I reasonably expect a return — — — I designedly omit to complete & forward to your excellency the state of the militia exclusive of the Rifle Corps, until I hear from you — — — — Your Excellency may possibly have seen in the speech of Governour Brooks, that he had received a communication from Secretary Munroe, that a distribution of Arms was about to be made to the States, without any information as to the principle by which that distribution would be made — — — — — Unwilling to exhibit a smaller total than the truth would justify, & being obliged to transmit copies of the military returns to the department of War, permit me to ask directions from your Excellency for my conduct, presuming the military returns will be the criterion by which the apportionment will be made — — —

I presume your Excellency hath before this time, been informed of the death of Colonel Scarborough who died last week on tuesday — — — — his indisposition was the cause of his not complying with your Excellencys order respecting field pieces (I presume 10) & not furnishing the company in Griswold — — — — If your Excellency should not make an appointment soon, may I not hope that you may deem it expedient to direct that one of the pieces at New London be taken for the use of the Griswold Company — — — The letter rec^d from your Excellency at the close of October session, has been duly attended to; that part of it relative to a flank C^o at Millington has not been neglected — — I have written to Col^o Deming to obtain a knowledge of facts, when his answer arrives I will communicate the same, until which time I can not probably determine on any thing satisfactory to myself — — — Judge Holmes called on me last week on the subject, and appears to feel an interest in the issue — — — — — — — —

Accept the respects and good wishes of M^rs H & myself for Mrs Smith & believe me with much respect & esteem

yours very sincerely — — —

tain & fix the proportions contemplated by the law — — If you have made no progress in forming the flank company, it may deserve consideration whether the interest of the regiment will be promoted by commencing it especially if two of the battalion companies in Lyme as you represent are already below their legal complement — Be pleased therefore to give me a full statement of every circumstance calculated to throw any light upon the subject —

master Department untill an appointment shoud be made — — They all concurred in the Opinion that it was unnecessary & inexpedient to convene the Council to make an appointment at present — that Col. Ward was the most suitable person to take Charge of the Arsenal & all the Concerns of that Department untill further Orders from your Excellency — I handed your Letter to Col. Ward who will attend to the Business therein mentioned & will soon communicate to your Excellency the State of the Business — As to the Election — the Hon[l] Rufus King united all the Votes of the Electors of this State for President & Hon[l] John Marshal had four Votes for Vice President & the Hon[l] Ja[s] Ross of Pitsburgh had five for the like office —

I have nothing interesting to communicate to you from Congress Hall. A Bill has been reported to the House read the first and second time for the payment of the Militia and ordered to be printed and is Committed to the Commte of the whole & the order of the day for Tuesday next. Our claim for pay for our militia has not yet been exhibited, neither are the papers in the hands of any Gentleman from Connecticut present.

Much has been said about the compensation law of last session —Committees have been appointed on that subject in both houses, it has not yet produced any result. — —

I have enclosed you a document which gives a flourish to the

termination of the President existence politically — — something must be done that he may leave his post with flying colors, whether it be consistent with the fact or not — It will be sufficient to accomplish his object — —

Dr. Sir —

Your letter of the 2nd. inst. did not reach me in season to admit of a reply by the mail of last week —

I think a return must be made of our militia to the war department as usual — And altho' I regret that an entire view of the aggregate cannot be presented, yet you can state in a memorandum subjoined to the return *that the brigade of Riflemen has been so recently organized as that a regular report of it could not be prepared in season to be forwarded* — — The Genl. Government may at least infer from the intimation that our military force is not so inferiour in point of number as it would otherwise appear —

I lament that the Artillery company at Griswold was not furnished with a field piece from N. London agreeably to my instructions to the Q. M. General — As that officer had deceased and as it is not thought best to convene the Council for the sole purpose of appointing a successor — I must request your kind offices in making the arrangement — I will thank you to inform the Captain of the Lt. Artillery at N. London, that with our

scanty supply of ordnance it has become necessary to limit each company to one piece for the present — & you will please issue the requisite orders for transfering one of the guns & apparatus now in his care to the Commandmant of the Company at Griswold — giving the former a voucher for his indemnity & taking from the latter a receipt to be delivered over to the Q. M. General who may be hereafter appointed —

I hope soon to hear from you respecting the proposed flank company in Millington —

Sharon Decr. 19. 1816

D^{r}. Sir —

I herewith forward a letter from the Rev^{d}. H. Channing of New London claiming from the State arrears of rent for a small building in that town used as an arsenal during the late war — and a copy of my reply — also copy of a letter to Major H. Goddard, and his answer —

Since writing M^{r}. Channing on the 30th. Ult^{o} I have obtained from the Secretary a copy of the resolution passed by the legislature in regarding this subject, which is also forwarded and by which you will perceive that the order of the Assembly was made on the private application of W^{m}. Williams Esqr. No particular officer of the government was charged with the transaction of the business — and hence it has undoubtedly happened that a precise & technical expression *of the election of the state* has not been given — The lease it seems was to have been lodged with the treasurer, but whether it was done or not I am uninformed —

At the close of the war the Q. M. General was directed to collect the military stores from their several places of deposit on the coast & lodge them in the Arsenal at Hartford — This it appears was done — & had he been apprized of the terms of M^{r}. Channings lease no doubt he would have taken pains to search for M^{r}. Channing or his agent & return him the key of the building, inasmuch as the state could have no further use for it — Altho' strictly speaking it might require a formal resolve of the Assembly to put an end to the lease, I shall nevertheless advise Major Goddard to offer the possession to the rightful proprietor in full confidence that such a measure will be approved by the legislature —

It was my belief as I informed M^{r}. Channing that his claim should regularly be presented to the Q. M. General — but as it now appears that officer is not particularly named in the resolve of Assembly and moreover as the office has become vacant by the death of Col. Scarborough I consider the case as properly cognizable by the Comptroller — Accordingly I have this day by letter notified M^{r}. Channing that the papers are transmitted for your examination & decision —

I am D^{r}, Sir sincerely

In a letter I have just received from Mr. Davenport he informs me that a bill is reported in the House of representatives of the U. S. for the payment of the militia — *"that the claim of this state has not been presented, and that no gentleman from Connecticut at Washington" is in possession of any papers respecting it* — Nothing could surprize me more than intelligence of this nature — The Secretary must surely have furnished our Senators with a copy of the resolution of the legislature appointing them the agents — & I feel as confident that you must have delivered them the Account of this state against the United States with such documents in support of it as were in your possession. — I delivered to Mr. Daggett at N. Haven the most material part of my correspondence with the officers of the Genl. Government during the late war — and have since transmitted every paper of importance remaining in my department — If any thing has been omitted either by Mr. Day or yourself I trust no time will be lost in supplying the deficiency by a direct communication with our Senators at Washington.

I will thank you to relieve my solicitude on this subject by writing me as early as the mail will admit —

NORWICH 22d Decr 1816

My dear sir

Your Excellency's favor of the 14th came duly to hand and in conformity thereto I have issued an order for the Griswold Company to be furnished with a Field Piece from the

New London Company — — — As yet I have not been able to obtain any information from General Deming respecting the situation of the Millington & New Salem companies, nor any other information, than from E Holmes Esqr on which I did not offer any opinion — — I have written to the Colonel of the 3^{d} reg^{t} for copies of the last returns of the Millington & New Salem companies but have rec^{d} no reply — — — General Howe has returned to me a discharge made out by me on the election of Capt Andrews of the late 2^{d} reg^{t}, he being the senior Captain of the two companies consolidated at North Haven, none of the officers of those companies having made an election at the time of formation — — — Possibly your excellency may recollect that an application was made to you when I was at Sharon by Captain Brockett & his Ensign for discharges (on which applications I recollect no decision) but having made out the Genl Order retaining their names I do not conceive myself authorized to grant discharges to them or any other officer when the general order had retained them by name — — — It is one of those cases I apprehend, where the officers had not been notified by the Col^{o} at the time of formation as directed & *all* wished discharges —

Genl Howe has forwarded to me the election of Capt Brockett & his Ensign (the Lieu^{t} having moved out of the state) & wishes discharges but the General Order having retained them, I had considered the others (tho juniors) intitled to discharges on application — I beg your directions for my government — — — — During the sitting of the Legislature I wrote your Excellency respecting supernumerary staff — — — Having supposed the resolve of last May respecting discharges did not reach the Staff — I have granted no discharges unless they have been supernumerary & hold commissions in the line — I pray your directions whether Division Inspectors, Brigade Q Masters, Adj^{t} Pay Masters &C. &C are to be discharged by me on their application under the resolve of last May and the General Order of August —such applications are before me —

The Militia returns have been completed as far as is practic-

able and transmitted to the War Department — those for your Excellentcy I have retained for a few days in hope of some private conveyance to save postage —

I am with much esteem,

Controllers Office HARTFORD Decem^{r} 24. 1816

His Excellency Governor Smith
Sir

your Excellencys favor of the 21^{t}. Inst. is this morning received — and in answer I beg leave to state, that I obtained from the Secretary a copy *under the Seal of the State* of the Resolve of May last authorizing our Senators to present and settle the claim of this State, the Resolve of October authorizing them to Receive Stock in payment — several other Resolves having refference to particular items in the account, evidence of my appointment to office — and the right to state & sign the accounts — all of which with a duplicate of the several General Statements, I delivered *personally* to M^{r}. Dana at Middletown on the 20th. of November together with a trunk containing the vouchers — — —

Before I left New Haven in October I enquired of M^{r}. Daggett whether I should deliver the vouchers & accounts to him or not, his reply was, it was not necessary, but to deliver them to Mr Dana

Neither at the time of delivery, nor since, hath it occurred to my mind, that any Resolve, voucher or form has been omitted that was necessary to substanciate the claim of the State, whether depending particularly on my office or not *except* a Statement under the Signature of the Quarter Master General of the ex-

penditures of Munitions of War which from the state of his health could not be obtained — this Statement I made from the accounts in my office, I *think correctly,* at least as correctly as it ever can be done, and mentioned to Mr Dana the impossibility of obtaining other evidence & which under the circumstances he believed would be sufficient.

I presume Mr Dana had not arrived at Washington at the date of Mr Davenports communication but trust 'ere this the claim of Connecticut against the United States must have been presented

I am with much Respect

LYME Decbr, 24th 1816

Sir

I have to acknowledge the Receipt of Your Excellencys Letter of the 6th, instt, in reply to the one I some time since addressed to Your Excellency upon the subject of enlisting men from the several Battalion Companies in the Town of Lyme into the 2d Flank Company of the 3d Regiment Agreeable to Your Excellency's request I would state to Your Excellency that there are but three Battalion Companies in the Town of Lyme & that the number of men in these several companies is nearly as follows (viz) in one 100 in another 60 & in the third 45 that in the largest of these three Companies & out of which orders have been received to enlist sd Flank Company the men are scattered over such an extent of territory that I find it wholly impracticable to enlist the Complement designated by law, they preferring to do duty in the Battalion Company, & notwith-

standing my exertions I have been able to enlist but 17 men — I would likewise inform your Excellency that there is an Artillery Company in the Town of Lyme which has authority to enlist men from all the aforesaid Battalion Companies — I likewise learn that application has been made to Your Excellency to establish a Flank Company in that part of the Town of East Haddam lying in Millington Society, which part of the Town of East Haddam lying in Millington Society belongs to the aforesaid Regiment & of course to the same Regiment as the second Flank Company — Should Your Excellency think proper to grant the application for a Flank Company in Millington there will then be three Flank Companies in the same Regiment — Under these circumstances I am induced to believe that it would be for the interest of the Regiment, that the 2d Flank Company should be entirely disbanded, if the same be proper — I would likewise suggest that at the last Session of the Legislature I had the honor to be appointed to a Majority in the 3d Regiment & that the office of Captain in the 2d Flank Company remains vacant — that orders have been received from Brigadier Gen. Williams to supply the vacancy — should Your Excellency therefore think proper to adopt any measure relative to the Company I have thought best to advise you of that circumstance

SHARON 28. Decr. 1816

D^{r}. Sir

Your favour of the 22nd. mailed 24th. instant is received —

In regard to Staff officers, altho' they are not included in the resolve of May last, so far as to give a senior staff officer his election to retire, yet when the Commanding officer has made his selection of staff according to the ordinary military rules, the Supernumeraries may be discharged if they desire it — that is to say they ought to have an election to remain as Supernumeraries or to retire — This I take to be the sound construction of the first section of the act of October 1815 — which seems to comtenplate discharge "in consequence of the reorganization of the militia" And it was my expectation that you would grant discharges in cases of this description as well as in such as are specified in the Genl. order of the 15th. August last —

As to the case of Capt. Brockett & his Ensign, it is my desire that you ascertain if possible, whether they had a fair opportunity to express their election — If they had not I really think we cannot refuse it altho' offered after the publication of the Genl. order — The negligence of their colonel if such is the fact, ought not to prejudice their rights —

The petition from Millington subscribed by a sufficient number to constitute a flank company has been on hand for a considerable time past — I am waiting for the requisite information whether a battalion company can be formed within the limits specified in my former letter, and which I am sorry to perceive you have not yet been able to obtain — Let me hope it will arrive at no distant day —

New Haven 28th Decr,, 1816

To his Excellency J. C. Smith Esquire Capt Genl.. Connt Militia

In pursuance of the plan for fixing A Uniform for the N. H. Light Infantry Company suggested to your Excellency while the Legislature were in session a meting was called on the 1st Int. at which I communicated to the Men the Ideas expressed by your Excellency on the subject of a Cheap Neat & plain Dress. one which should be in some degree in Uniform with the Regiment — — I told them that your Excellency had concluded to indulge them with the dress which was described in general terms in their petition. And thereupon a Committee was appointed to get a dress in conformity with that description and exhibit to the Company for examination. It was accordingly procured exhibited & excep'd, and at a meeting of the 25 Ultimo the following description of it is directed by the Company to be sent to your Excellency, (viz)

An Iron grey Coattee with a black velvet Collar and a yellow Gilt Star on each side three rows of yellow gilt bell Buttons (a little flat and figured at the top) down the breast, made single breasted to button tight with two pieces of black gimp across the breast parallel from one row of buttons to the other turning in different directions behind the button and a little back of it about half way between the button below & the one above meeting the one piece the gimp below & the other the gimp above crossing it forming a plain bow, a little back about half way between the two buttons between these two pieces of gimp the button is set, the two pieces run verry near together untill they begin back of the button to deverge, It has no facing but is fronted and turned up at the skirts with black velvet running upon each skirt to a point having upon each point a yellow lace diamond. The velvet fronting is inside. There are four buttons under each pocket flap & on the flaps four button holes worked with black gimp. The folds behind have gimp running all round forming a half circle in passing from one fold to the

other in the small of the back there is also a piece running from one button to the other across the back making a diameter of the half circle. The inward folds are edged with gimp forming black lines about in the middle between the two outward folds. The Coattee has fifty five buttons all of the same kind thirty three in front, upon the breast four under each pocket flap six behind upon the folds four upon each cuff. On the ciffs[sic] there are two strips of gimp running.— close together from the upper to the lower edge parallel, and between the two strips there is a button set on the upper part of the cuff. The Pantaloons are made exhibiting in front two figures nearly Prussian knots varying only in the lower extremity which terminates with two small bows on each side instead of a plain point — — — — Across the side and fold seams gimp runs diagonally forming a bow upon each side the seam There are eight buttons upon each leg seven on the out & one on the inside. There is Chenevall Chain to go under each boot to be fastened to the button on the inside and extending nearly or quite to the top button on the outside of the leg. They have three buttons upon each hip. The buttons on the Pantaloons & Coattee are all of the same kind. The vest is to be red. The Neck must be encircled with a Stock or black Handkerchief. An unfinished Cap was exhibited the general Construction of which was approved. The Company on the subject of a Cap unanimously voted that the Committee have such a Cap as they think will suit the Company finished the Captain (if the Officers think it a suitable one to be adopted) shall write to his Excellency the Governor, to have it approved and Established. A Cap in conformity with the views of the Company as expressed by their vote has not yet been finished but will be finished soon & a description of it sent your Excelly The dress is described above exactly tho from that description but a verry indistinct idea can be formed of it. It has been exhibited to many persons whose taste of dresses of this kind may be relied upon. besides being kept in a Tailors Shop for three or four Weeks to be viewed by every one indiscriminately and from the best information I can obtain as to the opinion of people it has been universally admired as an ecoomical[sic] plain neat Military

Dress & verry well calculated for a Company like *ours*. — Should your Excellency see fit to establish it the Company I believe would be much gratified

— — As the Cap is a distinct part of the Uniform & there are so many different opinions as to the shape & trimmings of it I thought best to know your Excellencys determination as to the Dress immediately. & make a description of that the subject of a future Letter. On the Dress there seems from the beginning to have been but one opinion. about the Cap there has been many

When I wrote you I had not received from Colonel Wilson of the third regiment a return of the 6th 7th & 8th companies which I considered useful to ascertain the strength of those companies as they were inspected last fall — having received them I state the strength at foot — — — I am as yet without any information from General Deming, from the returns, your Excellency will be able to form an opinion respecting the Millington application —

In compliance with your permission I have furnished the Griswold Company with a field piece to their *great* gratification

Mr Wolcott is expected in town this week or next, by whose return I expect to forward the military returns for 1816 — — From the time which has elapsed since I forwarded returns of the militia to the War department, I had a right to expect an

acknowledgment of their having been received, but I have received none — — —

In the meantime you may suspend the execution of the order you have received for leading the company to the choice of a captain —

D^{r}. sir

Your favour of the 30th. ultimo is just received —

The strength of the companies as stated will afford me very little aid in deciding on the Millington petition — The question is whether the Society of N. Salem by including that part of it which lies in Montville as well as that which lies in Lyme (*& which as I observed in a form letter was wholly overlooked in the late organization*) will not form a good battalion company. To decide this point we only want to know how the arrangement will affect the Montville or *third* company — and also what will be the aggregate strength of the N. Salem or 7th company when thus formed — and when the tract overlooked is added to it. This information is very much wanted — & in obtaining it I would observe that *inspection returns* merely are not desired but the amount of *the muster rolls* — You will perceive that we must provide for that part of Lyme which is embraced in New Salem society at any rate — It must be annexed somewhere —

I am the more anxious to establish a flank company in Millington from information recently given me by Major Selden of the 3rd. regiment that it is impossible to fill the 2nd. flank company in that regiment to which he was lately attached — and that in his opinion it is best to disband it — Only 17[?] men have been obtained by his most strenuous exertion & in his view there is no prospect of enlisting another man — Should his advice be adopted (the grounds of which are detailed at large

in his letter) there will be but one flank company in the regiment —

I have only time to add that a further communication from you upon this subject at as early a day as you can conveniently prepare it will be very acceptable to your friend &

[11:38]

NORWICH 16 Jany 1817

My dear sir

Your favour of the 4th of this month came duly to hand — — — I wrote Lt Col^o Wilson for information to lay before your Excellency respecting a company in N Salem Society, and another in Montville — to my letter I have rec^d no reply, but I have been informed he is attending to the subject — — and I presume in a short time I shall be able to forward to your Excellency the wished information —

The military returns forwarded under cover to Major General Sterling last week, must have been rec^d before this reaches you — — I have had no acknowledgement from the war department that my returns have been rec^d, but I have no doubt of the fact — — — —

On reading the 5th section of the law for the government of the militia passed in October last, I had adopted the idea that the public would probably furnish the blank books for the company records — the mode of expression I thought warranted that construction, & I have been led to a confirmation, by the application from some of the Captains for their books, but the death of the Quarter Master Genl through whose hands I expected to have rec^d the books and the silence of your excellency

on that subject, has suggested to me whether it was not intended that each *Captain* should provide the book & the form of keeping the records be prescribed by the A G

May I be permitted to ask your excellency for information respecting the closing part of the said fifth section — — — the entries to be made in that book are definitively printed out, & then a clause annexed making it the duty of the Adj^{t} Genl to prescribe the forms of keeping such records — — —

Permit me to say, I feel a difficulty, in executing the part of the law thrown upon me — — — — — If your excellency will be pleased to explain more explicitly how I shall execute the law & authorize me to *issue an order* to effect the distribution *of the form which may be adopted* I will attempt to meet the wishes of the legislature — — — but I freely acknowledge I feel diffident of effecting, what probably was intended by the legislature — — — I perceive no duty enjoined on the Captains to deliver over the records to their successor, whether this omission was in consequence of the record book being the property of the Captain, or because (being furnished by the public) the delivery over, would follow of course I am unable to determine — — — — —

I am my dear sir
with respect and exteem
yours very sincerely

I have the honor to acknowlege the receipt of your Excellency,s Letter of the 4th,, Ins^{t}, I have since conversed with

Messrs Warner & Spencer, Lieutenant & Ensign of the Second Flank Company in the Third Regiment — who are the only officers of the Company — They are fully satisfied that the Company cannot be enlisted — I have likewise consulted a number of the Soldiers whom I have enlisted, — I find them of the same opinion — & from a conviction that the Company cannot be inlisted are, as far as I have been able to ascertain their feelings, as well as the officers, willing, & would prefer to have the Company disbanded entirely — I have not seen Col. Moore the Commander of the Regiment, or had any communication with him upon the subject, as he lives at the distance of between Twenty & Thirty Miles from me — & as he has recently been appointed to the Command of the Regiment, I did not know as Your Excellency, under those circumstances would deem it very important — I have however conferred with with a considerable number of the Inhabitants, where the Company is established & particularly with Col. Comstock late Commander of the Regiment — their view upon the subject of disbanding the Company are similar to those entertained by the officers & men of the Company, whom I have consulted — I believe that all will cheerfully acquiesce in any measure, which Your Excellency shall think proper to adopt relative to the Company — I would further state to Your Excellency, that I am informed that if a Flank Company should be established in Millington, it is in contemplation to annex that part of New Salem Society, which lies in the Town of Lyme to the Seventh Company — Although that part of New Salem was not in the late organization annexed to any Company, those liable to perform military duty therein have been enrolled & performed duty in the Company, out of which orders have been received to enlist the Second Flank Company, which may perhaps reduce the number, out of which the company is to be enlisted to about Ninety — of which circumstance I should have informed Your Excellency in my last Letter, had I been advised of it —

[11:42]

SHARON 25. Jany 1817

D^{r}. Sir

Your letter of the 16th. instant, owing to some miscarriage in the mail has but just arrived — A few moments only are allowed me in reply —

I was not aware of any ambiguity in the terms of the act to which you refer — I take it to have been always the duty of the captain of a company to keep an orderly book — The *manner* of keeping it and the *use* to which it may be applied appear to me to be simply the objects which the legislature had in view in the law of last October — It will undoubtedly pass to the succeeding captains as regularly as the colours of the company or any other property which it holds in its coporate capacity — It is to be in truth the record of the company — To procure a uniformity in the mode of keeping the book as well as to bring the duty home to the captains the Adjutant General is directed to prescribe the form — and this I think from his well known sagacity and his thorough experience as a military officer he will find no difficulty in accomplishing without the aid of a general order — especially too as the act points out the particulars to be observed — If you will however send me a sketch of what you consider should be the form contemplated by the legislature I will cheerfully express my opinion respecting it —

The military returns have not come to hand — nor have I heard of their being forwarded under cover to Genl. Sterling — I hope soon to have further particular from you relative to the N. Salem company —

I am D^{r}. Sir sincerely your

Dear Sir,

I received, a short time since, four boxes of Books directed to Your Excellency at this place. On opening the boxes

they were found to contain the books of which a Memorandum is enclosed. They are deposited in my Office.

Sheriff Chester, after considerable search, has found a copy of an old writ of election blank, which I send herewith. I have but just rec^{d}. it from him, or I should have forwarded it earlier.

COLCHESTER January 29th, 1817

Dear Sir

A multiplicity of concerns & not possessing correct information upon the subject suggested in your favour long since rec^{d} must apologize for not replying to it ere this, I have made many enquiries respecting the number of subjects of military duty in New Salem & Millington Societies. If a Company should be form^{d}, in each society embracing the limits of both the former companies in said societies I am of opinion that each Company would consist of fifty privates, at least, perhaps more, Those interested in Millington are very desirous that a company should be form^{d}, there & no exertions on the part of the applicants will be wanting to fill the company, under all circumstances I have no hesitation in saying that it would be expedient to form a Company in each Society.

Extract from the Act intituled an Act for forming and conducting the Military Force of this State passed October 1816

Sec 5

To carry the above recited section into effect — the Adjutant General prescribes that each Captain shall procure for the use of the company under his command a blank book to contain not less than one quire of paper in which all General, Division, Brigade, Regimental, Battalion and company orders are to be recorded at full length — also the votes and proceedings of the Company; the names of the persons detached from such company for duty — — the date of the days on which the company may assemble for military purposes — — and also to record on each day of company meeting the names of the persons liable by law to do duty in their respective companies or liable by law to be enrolled including all free white male citizens above sixteen and under forty five years of age noting the delinquencies against each name, & where partially equipped or not equipped according to law either in equipments or clothing — in such manner that the record may shew the exact State of the Company — — — —

Whenever a Captain may die, resign or be promoted, the record book must be delivered over to his successor in office to be preserved that recourse may be had to it when necessary — — — —

SHARON 30. Jany 1817 —

D^{r}. Sir —

Your letter covering the association for a flank company in Pomfret has been received —

The association is approved and enclosed are the necessary orders to the Colonel of the Regiment, which I must request you will have the goodness to forward —

One of the associates Mr. George Sharpe I perceive is an ensign in the first battalion company — It would be improper to transfer him as such by an order to the flank company — At the same time if the associates should elect him one of their officers I perceive no objection to his acceptance — in which case there will be a vacancy in the first company which may be filled under an order from the Brigadier —

Let the Colonel certify to me the names of the gentlemen who may be chosen officers in the flank company that I may give them an authorization to act until they receive commissions — Also let the officers elect consult their men & inform me what would be their wishes respecting their uniform —

I exceedingly lament the declining state of Mr. Backus's health — Be pleased to present him my most sincere regards with the assurance of my fervent prayers for his recovery —

— — — — — — Greeting —

I have thought proper in pursuance of your recommendation and in conformity with the request of the individuals who have associated for the purpose to allow a flank company to be formed in the Society of Abington in the town of Pomfret to be denominated *the third flank company* in the eleventh regiment — I do accordingly approve of the association subscribed for that end bearing date the 23rd. day of October AD 1816 and I now transmit the necessary orders for leading the associates to a choice of officers —

Until further directions shall be given the said flank company will be confined in its future enlistments to such subjects of military duty as shall reside within that portion of the beat of the first battalion company in said regiment which comprehends the said society of Abington —

My dear sir

Your Excellency's favour of the 25th Ult^{o} came duly to hand by the Hartford Mail on the 29th — — I avail myself of the permission to lay before your Excellency the form of a circular, which I calculate to have printed & distributed through the Brigadiers to each Captain of Infantry, Cavalry, Artillery, Rifle Corps & Flank Company, provided the form and mode meet your approbation — — — — In my letter to your Excellency I did not remark that the 5 section of the militia law required the Captains to enroll *all persons* except &C, but presuming the Honble Legislature meant *Military Persons* I have so expressed myself in the proposed form — — — — If your Excellency should doubt the propriety of departing from the letter of the law, I will follow your directions — — — The information respecting the New Salem Company will have reached you before this time — — if there should have been no neglect at the Post Office I now inclose Genl Deming's letter on the same subject — — —

Sharon 8. Feby 1817

D^{r}. Sir —

Your letters of the 27th ult^{o} and 1st. instant have been both detained at Litchfield or elsewhere as they have but just arrived — The return of the mail obliges me to be very concise in my reply —

I think on reexamining the 5th. section of the Act you mention you will perceive that the legislature *intended* that the names of *all persons* between the ages of 16 & 45 should be enrolled by the captains of the battalion infantry excepting those only who belong to select corps. They are at the same time to *designate* on this roll those who are *liable* to military duty — And one object of the law is to enable others besides

these captains to determine whether they designate properly —

I would also observe that the sketch you have sent me seems calculated only for captains of infantry — whereas an orderly book is also to be kept in each flank company & in each company of Artillery Cavalry & Riflemen — and the captains of these companies are confined in the manner of keeping their *roll* to an entry of those only who are *enlisted* — Excepting these variations your form is undoubtedly a good one —

I have concluded to adopt the advice of General Deming — The application from Millington is accordingly enclosed with my acceptance & instructions endorsed thereon — you will direct the order to the Colonel or to Major Selden as shall be most convenient to either of those gentlemen — It will be necessary to change the limits of the 7th. company, and it is also necessary to vary the Genl. order of the 15th. August in several particulars where mistakes have evidently intervened — On my return from N. Haven for which place I shall set out on Monday I will endeavour to state these particulars. In the meantime I will thank you to inform me whether in your opinion these corrections should be made in one general order — or by an order directed to the colonel of each regiment wherein the alterations are required — I have only time to add that I am Dr. sir very sincerely your ot. sert.

SHARON 8. Feby 1817

Dear Sir —

A communication was received from the Adjutant General last evening containing the information required of him relative to the proposed alterations in the 7th company 3rd. regiment of Infantry —

I have this day forwarded to him the association from Millington for a flank company with my approbation thereon en-

dorsed and with instructions to issue the necessary orders for leading the associates to a choice of officers — The future limits of the 7th. battalion company will be ascertained & established in a general order which will soon be made for that purpose —

From the representation of Major Selden I am strongly inclined to believe the flank company in Lyme can never be filled & ought therefore to be disbanded — in which event the Millington flank company will of course be the second — A letter is now addressed to the Major on that subject —

When the officers of your flank company are chosen let their names be certified to me by the officer who executes the order and I will thereupon authorize them to act until they shall receive their commissions — Let the officers elect likewise consult their men & acquaint me with their wishes respecting their uniform —

Your favour of the 21. ulto. was duly received — on mature reflection I concur with you in opinion that the flank company in Lyme ought to be disbanded — I have however made it a rule not to reduce a flank company without the consent or desire of at least a majority of its officers & men — If the two remaining officers therefore will consult their men & certify to me the wishes of a majority of them to that effect I will thereupon issue the necessary order —

I have this day sent instructions to the Adjutant General for the establishment of a flank company in Millington —

MIDDLETOWN Feby 12. 1817

Your Excellencys letter of the 8th of Feby was recd p^{r} Mail this day —

A Combination of unexpected circumstances, prevented my answering the letter of the 2^{d} of Dec^{r} — I had intended to have called together the Field officers of the Brigade early in Jan^{y} — & to have advised with them respecting change of uniform &c, but soon after the superior Court closed its session, I was obliged to go to Philadelphia expecting to be absent about only 8 or 9 Days, & did not return untill last Week.

I have made up my mind with respect to the Rifle — & nearly so with respect to the Grey Dress — at the same time I should be glad as a mark of civility to the Field Officers to consult them before giving a decided opinion to y^{r} Excell^{y}. I think they will have some reason to think me wanting in respect to them if I do not. I propose calling them together about the 26th,, of this Month or perhaps the 22^{d}, if it can be done. I am sensible the season is advanced, & much regret that my absence has prevented me from attending to the subject before, but it has been wholly out of my power

With respect to the Uniform for myself & Staff, I hope y^{r} Excel^{y} will postpone a decission for the present, as it is of little moment. They feel a little uneasy in the Western part of the State, that they have no Field Officer — if I can find a Gent^{n} properly qualified residing there I shall appoint him Brigade Major

I have but one staff Officer yet appointed & should wish to consult the Staff before making up a definitive decission with respect to their Uniform.

After all if Y^{r} Excell^{y} thinks it will be too late for a General Order after the 26th I will immediately attend to the subject & draw up a description of Uniform Rifles &c

I am with much respect

My dear sir

I have to acknowledge your letter of the 8th with the Millington Association inclosed — — — — — — As Major Selden lived near the applicants, I made an order to him to lead them to the choice of officers — — — — In correcting the errors which occurred in the formation of companies in August I should prefer a General Order to be formed by your Excellency, with permission to the Adj^t Genl to forward to each Brigadier the alterations within his Brigade only — Last fall I informed your Excellency of the fact that Muddy Brook Society in Woodstock embraces a part of Thompson; that Canterbury 1st Soc^y embraces a part of Plainfield neither of which were known to me at the time of forming companies — — I presume your Excellency is possessed of all the errors by this time, which occurred — — — — — — — —

BARNABAS BATES TO JOHN COTTON SMITH

[11:54]

SAYBROOK Feb 18 A. D. 1817.

His Excellency John Cotton Smith
Captain Gen[l]*. Conn. Militia &c*

I take the liberty of applying to your Excellency, for a discharge from Military duty and offer the following risons therefore (viz,)

I. I am now 42 years of age, and hold an Ensign Commission in the 4th. Comp[y] 7th Regiment dated May 9th A.D. 1811 — to take rank from the 6th day of Nov[r]. 1810 — — previous to which I did duty in said Company as a Sergeant about 5. years; and in various stations have constantly done duty in the Militia Twenty two years — And during the late war was frequently called at on alarms and performed garision duty sometimes at Saybrook fort — — — and can say without fear of Contradiction, that I have always done duty with alacrity — according to the best of my ability — — — —

II Notwithstanding the length of time and the Burden of Service which I have thus rendered my Country — and the expences necesarily incurred, I would not at this time trouble your Excellency with an application of this kind. were it not that the Expence and Claims of a lage Family on my daily labor for its support seem to me to present an unsurmountable Obstacle to any further advance in this expensive career — — — — — I have no means to depend on for the maintainance of my family. but daily manuel Labor — and the Compay being now destitute of the other Commissioned Officers, In the event of my Promotion — — I should be under the necessity of incuring further expence. which I deem unreasonable — — — —

III. The Company to which I belong, I concieve will suffer nothing by my discharge. It now consists of More than one hundred Men — among whom there are many very likely ambitious Men fit for any office in the Company — — — And the Sergeants in particular are well selected and from recent experience Ambition & talents are well qualified to fill the various

Officers and discharge the duties appertaining to the Company — — — —

Wherefore I pray your Excellency to grant me an Hon. discharge from further Military duty and much oblige

Your letter of the 5th. with the Thompson post mark of the 14th inst. is received — —

Whether the present Executive of N. York will deliver up a fugitive from justice upon the presentment of an individual grandjuror I know not — I only know that Governour Jay when in office once refused it — They are wholly unacquainted in that state with any such proceedings — I told the owner of the stolen horse, who called here on his return, *that the presentment of a Grandjury duly impanelled & sworn* or, *the official*

information of the States' attorney filed before the proper court, would be necessary — Probably he did not distinctly understand me — I have never made a request of the kind on any other basis — Possibly Govr. Tompkins would now comply but As the demand must necessarily be attended with considerable expence to this state I should think it advisable to proceed cautiously — At any rate *an agent* must be appointed & named in the demand, to receive the prisoner — Should you think it advisable to risque the call upon the present document or any other, you will be so good as to designate to me a suitable person for the agent — I will thereupon prepare an official demand & send it to the Secretary who will affix to it the seal of the state & at whose office the agent may call & receive it —

To His Excellency
John Cotton Smith Capt Genl Conn Milt.

Your Excellenceys letter establishing the Uniform of the New Haven Light Infantry, has been duly receive^{d}, and the part of it which related to the Dress of the officers both Commission^{d} and Noncommissioned wish for no other distinction from the men in their dress but yellow Epauletts and knots unless it may be a button of a larger size, and some little ornament about the Cap. — — — The company on the 22^{d} Inst. had a meeting duly notified and warned for the purpose of choosing an Ensign, to fill the Vacancy occasioned by the appointment of Ensign Hitch-

cock to the office of Brigade Major & Inspector & made choice of Dennis Kimberley — — — — As this is a new Company wishing to be prepared to appear in Uniform equipped on the 1st Monday in May previous to the Session of the Legislature and as the exertion of all its officers will be nesscessary to mak[e] it appear respectable — — — I would submit to your Excellencey the expediencey of granting Mr Kimberly a temporary *Commission* — — — — The company at their meeting adapted unamesously, a Cap of the following description a Sample of which was presented before them, and Voted that a description be sent to your Excellencey, Viz

The crown of the Cap, the same shape and size of a common Hat. with a front piece of the same height, cut circular at the Top, and round at the bottom, running at the bottom half round with a Coat of arms of the State, painted blue & Green, and yellow gilt in front about Six inches round over the Coat of arms. spreading gradualley narrower from the bottom to the Top, round at the Top and yellow Gilt, round the outer Edge, with a Strip of Gold Lace, round the bottom for a band

The Cap has no brim, but has a forepeice about four inches wide, in front growing narrower each way until it terminates above the Top of the lace on each side, at the Extremities of the lower part of the front peice — — — — —

The back part of the Cap is turned up with morrocco, about four & half inches wide, bound round the edges with gold Lace & cut in 6 Scollops round and 2 half Scollops meeting the forepeice & buttoned up behind with Seven yellow, gilt, round bell buttons, about the Size of a small rifle Ball, two on each side, above the 2 wings of the front peice, a little more than one inch apart, the other around in a Row with the upper side buttons and may be unbuttoned & let down over the Cape of the Coat, at pleasure. The [fore —] peice is gilt round the upper edge about a quarter of an inch in width — — The whole Cap is made of black varnished and painted Leather, except the back peice of black Morrocco turned up behind. — — — — — —

The expence of a Cap of the above description is from five to Six Dollars, much cheaper than any other in this Town, &

is thought to be more neat & better calculated for a Military company by most persons who have seen it. should your Excellencey think fit to Establish it, I believe it is such a one as would be satisfactory to the Company or should you reccommend another or alterations in this they will be equalley as well Satisfied, your obedient humble Servant — — — —

Sir

I have received your letter of the 24th ult^{o}

Your company appear to have discovered a very good taste in the selection of their dress throughout and it meets with my approbation — My only fears are that the uniform may be so expensive as to deter men in moderate circumstances from enlisting into the company in future — but not having yet seen a full estimate I do not know that there is any solid ground for such apprehensions —

I think it will be advisable for you to make out an entire statement of the dress in comprehensive terms and transmit it to me in the form of an application signed by yourself in behalf of the officers & men — I will then subjoin a confirmatory order and the whole may be thus entered in your orderly book —

Dear Sir

Your Letter of the 22d was not received untill this morning. I forwarded my report on Saturday. I forgot to mention in my Report that the Colonels of Regts will furnish a pattern Dress for the Privates. I cannot tell what number of Companies will wish to adopt the new dress — since the Company officers were together several new Companies have been organized — several of the Companies composed in part of the State Troops have obtained Blue Uniforms.

I think that the adopting of the new dress should be left to the option of the Companies, as most of them have been organized under the impression that they would be allowed the State Corps Uniforms if they chose them.

I do not think it will be practicable to obtain Rifles under at least Eighteen Months from next May, I should allow therefore from 18 to 20 Months in which to procure them. Many of the Companies will procure them immediately as soon as they can be made, other Companies who will not procure them by Contract but individually, will not be able to purchase because there will be none in market of the proper kind except such as are made for particular Companies.

Honourd Sir

I presume it is unnecessary for me to Inform you that at this time I am Commissioned by you as 4th, Lieut, in the 2d Compy of your Excellencys foot Guards. — — — From that Commission I now take the liberty to request of you A discharge and upon the following ground. — — — At the time I was Elected Ensign my prospects as I thought would enable me to support it but since that I have been unfortunate In the fall of 1815 I in company with an acquaintance laid In a Stock of Dry Goods & proceeded to the southward where we opened a Store but buisness being so dull we were obliged to return with our Goods & Compromise with our Creditors & pay them a Large pr Ct, to receive our goods back they having fallen on our hands — In short this rendered me a complete Bankrupt. I come home last March & have remained ever since without doing any business neither do I see any prospect of doing any for some time to come — add to this I have a Small family to maintain and to do which I have found it difficult as I have been confined with Sickness A Good part of the summer & fall. In consequence of my Misfortunes you see Sir I am totally unable to support my Commission with that dignity necessary in A Company like this. — I presume Sir there is no person in the State takes more pride in Military or would be more pleased to serve than myself was it consistent with my situation. — I am aware that my age is against A discharge but Sir when you take the foregoing facts into consideration I am in hopes your Honour will be pleased to discharge me Immediately. — but If to the contrary you think that I ought to be retained in Service I think I should be willing to be reduced to the Ranks of the Militia (although it would be rather Mortifying to me) Rather than wear a commission which I am unable to support —I hope your Honour will Inform me as soon as Convenient my fate And your petitioner as In duty bound will Ever pray &c. — —

And Humble Servt

SELDEN HUNTINGTON TO JOHN COTTON SMITH

[11:62]

Haddam March 3^{d} 1817

Hon^{d}. Sir

On making application at the Secretarys office I find there are no commissions for the second Flank Com^{y} of the 7 Reg^{t}. As the returns were made to your Excellency of the choice of Officers it was supposed that no other returns were necessary in order to have the permanent commissions granted. Information is requested whether any farther returns are necessary, & whether the officers can continue to act in the capacities for which I have Your Excellencys commission, untill the close of the next session. If it is not inconsistent with any established principle of the organization permission is requested from Y^{r} Excellency to enlarge the 2^{d} Flank Company by enlistment from any battalion company within the town of Haddam not thereby reducing any company below the company into which they are enlisted. This I am induced to request from the circumstance that both the battalion companies on this W side the river are now about as small as the legal number although larger than the 2^{d} Flank Com^{y}, which is generally the case in the reg^{t} & that part of the town on the East side the river find themselves less conveniently situated than if attached to the 7th Reg^{t} as originally reported. Some of them therefore would be relieved by enlisting into this company & not injure the Comp^{y} they leave which is understood to be considerably above the legal number. If the above should be thought inexpedient, a special permission to enlist all within the limits of the former 6th Compan^{y} will embrace a desirable & to us satisfactory object

It is understood that some dissatisfyed persons are circulating a petition to Y^r^ Excellency for a new organization of the 2^d^ Flank company. If it should ever be presented I will only remark, that at our last fall review the company appeared as well satisfyed with themselves & their Officers as any company could be & acquitted themselves in a manner much beyond expectation considering the short time they had been organised, that several who have signed the petition have since expressed their regret, & that it is not strange that there should be fewer offices than candidates, should the reasons urged in the petition alluded be thought worthy of farther attention, shall hope to receive notice if the petition is presented.

Your Excellency's answer to the former parts of this letter is Respectfully requested by

Your Most Obedient Servant

TORRINGTON March 5th. AD. 1817.

Sir,

I have the honor to receive your Excellencys favor of the 22nd, Ultimo on receipt of which I called on Col^o^, Woodruff and with him visited Northfield & Plymouth at Northfield we conversed with Col^o^. March and several other persons they are clearly of opinion that the interest of that society would be promoted by uniting with the east part of the first society in Litchfield; At Plymouth we conversed with several gentlemen they state that there has been considerable dissatisfaction respecting the union with Northfield and they are of opinion that

there will be difficulty when a choice of officers shall take place should the present arrangement be continued; and they have no doubt but the people will be better pleased and accommodated to have a located flank company including the whole town. Col^{o}, Woodruff and my self agree perfectly with the opinion of the gentlemen and also are of opinion that the part of the first company which lies in the first society in Litchfield can much more conveniently unite with Northfield than with South Farms I therefore would suggest for the consideration of your Excellency the following alterations in the 16th, Reg^{t}, viz, The 1st, Company to include that part of the first society in Litchfield which lies east of the line described as the eastern boundary of the 5th company & that part of the society of Northfield which lies in Litchfield.
The 6th, company to include the society of South Farms
The 3rd flank company to be *located* and include the town of Plymouth. With respect to confining the inlistments of the flank company to the town of Plymouth and have the town in the limits of the 1st Company I think there may be some difficulty in that case, there are in Plymouth about one hundred men liable to perform military duty and as no enlisted company is allowed more than sixty four privates the officer commanding the battalion company would call on all above that number and of course the town of Plymouth would get no relief by the proposed alteration, but on this subject your Excellency will judge more correctly than my self.

I have not been informed respecting the situation of the flank company in Roxbury,

I am sir with sentiments of respect your
Excellencys obedient and verry

Dear Sr in compliance with Your order I causd legal notice to be given the associatiates of those persons in the town of Pomfret (Abington Society) to meet on the 4th day of March in order to make choice of their proper Officers they accordingly met & made choice of George Sharp for their Captain Scarborough Osgood for their Lieut & Payson P. EBENEZER HUNTINGTON TO JOHN COTTON SMITH

[11:65]

NORWICH 6th March 1817

My dear sir

By the mail of the 4th instant, I have received your Excellency's favour of the 22^{d} Ultimo

I know of no error which occurred in the formation of the Militia, but those which have been corrected and those mentioned in your favour of the 22 — — — But having heard it *remarked*, that *many* errors had intervened in the formation of the militia — — I was apprehensive that some errors had occurred, which were unknown to me — — In the 3^{d} regiment will not the formation of the New Salem Company, require an alteration in the description of the 3^{d} & 7th companies, & ought not the new formed Company at Millington to be described as forming the 2^{d} flank Company of the 3^{d} regiment? — — — — In the 11th reg^{t} it was my intention that the 5th company should include the whole of Muddy Brook Society — — — if that should be approved it will require an alteration in the limits of the 6th Company

The first Society in Canterbury extends into and includes a small part of the *Town* of Plainfield, which fact was unknown to me at the time the formation of the 5 reg^{t} took place — — and I apprehend the word *society* was adopted as having been used by the officers, who presented me in writing a plan for forming companies, and from which but little variation took

place — — That part of Plainfield lying within the first ecclesiastical society of Canterbury, is within about one mile from Canterbury Meeting House, (and is about three miles from the Meeting House in the 1st Society of Plainfield) and *I believe* until the new arrangement; was included within the limits of the *Canterbury Light Infantry Company as established by the Legislature* — — — — But what are the wishes of the Inhabitants in that part of Plainfield, described as that belonging to the 1st society I am unable to say, nor what were the wishes of the Officers; excepting from the description given by them to me for the limits of the 2d company — — — —

I can not explain how the error should have occured in assigning Officers to Companies in the 24th regiment — — —

I am with much respect and esteem
very sincerely yours — — — — —
EBEN: HUNTINGTON

P S I can not give any information respecting the officers for New Salem Company should one be formed by that Society — —

I can enquire if information is desired

Dear Sir

Your favour of the 15th instant is received — Accept my thanks for your prompt attention to my request — The arrangement you propose meets my entire approbation and it may be well, if opportunity offers, to let all concerned know that the projected alterations will be sanctioned in General orders very shortly —

You omitted to mention in what manner the commissioned

officers of the present companies will be affected by the change — I am wholly unacquainted with their local situation — Will it do for instance to let the captain of the present 6th company, if he resides in Plymouth, command the proposed first company? and so of the others as well subalterns as captains — You doubtless understand me, & I shall be obliged by your opinion as to the course proper to be pursued —

Dr. Sir

Your favour of the 25th ulto — is received with its enclosures —

Altho' I am very anxious to decide on [and] arrange the equipments & uniform of your corps and am sorry the arrangement has been so long delayed, still in my view it is of far less importance that the order should issue immediately than that it should go forth correctly —

On examining the militia act I do not perceive that the commander in chief is empowered to prescribe *bayonets* to the Riflemen — Will this omission in the law, which I deeply regret, vary your opinion with respect to the length of the Rifle? — In recommending a barrel of 2 feet 9 inches you expressly calculate on a bayonet of 16 inches — If the latter can not be *injoined* upon the men, & it is but too evident that it cannot, would you extend the former to *three* feet — the length now proposed by the war department? — Or would you prefer that no order fixing the standard should issue, until the legislature shall have an opportunity to determine whether or not bayonets are to be used by the Rifle corps — It is of much consequence that we com-

mence this business properly — and I shall therefore be gratified to receive your reply to these queries —

I am much pleased with the uniform for the commissioned officers & privates — as soon as you furnish me with the wishes of the general & field officers & staff respecting their dress the whole shall be embraced as it ought to appear, in one order — Meanwhile that your commissioned officers & men may be allowed as much time as possible to equip themselves would it not be well for you to address a circular to them describing the dress *as* approved — informing them it will be sanctioned by a General order as soon as other requisite details are prepared — giving the companies formed from the late state troops their choice, or any others who may have adopted it, to retain the uniform of that corps, and allowing the companies assuming the new dress a reasonable time to procure it — say 'till the first of September next or a longer term if desired —

Whilst I am writing, your letter of the 3d. instant is received — The time proposed for procuring the rifles does not appear to me too long — But you will perceive the necessity of favouring me with a speedy answer to the foregoing inqueries before I shall feel quite easy to issue the order — and you will also see that I have anticipated your wishes in leaving it optional with the companies to adopt the new dress —

I have received your letter requesting a discharge from the office of 4th Lieutenant in the 2nd comp. of Foot guard —

Applications of this nature should always be accompanied by the recommendation of the Major Commandant — I doubt

not that officer will give me his candid opinion of the case — and until it is received I must defer a decision —

You appear to be already apprized that a dismission from the guards considering the recent date of your commission will subject you to duty in the Militia infantry — I am truly sorry for your misfortunes — but I indulge the hope that on a fair view of all circumstances you will deem it most advisable to retain your place in the excellent company with which you are connected —

I have received your letter of the 3^{d}. instant — The original order for the choice of officers in the militia should always be returned to the General Assembly — If this has been omitted by mistake & no commissions have consequently issued to your self & your subalterns I feel no hesitation in authorizing you to act in your several capacities until the rising of the next General Assembly — In the meantime care must be taken that the order is duly returned to that body —

It does not seem advisable to vary the instructions relative to enlistments into the flank companies as contained in the General order of the 15th August last unless under special circumstances — and those circumstances should be stated *by the Colonel of the regiment* accompanied with his recommendation as to the particular company or companies from which enlistments ought to be allowed —

Sir I have recd your Excellencys Letter of the 6th inst. and notised the Contents — I am not possest of the necessary information you require — but will get the earlyist and best information posable and without delay give your Excellency every information in my power — but Sir as you are pleased to inform me that their is to be a Supplementary order issued I take the liberty to give your Excellency some further information in regard to limits of Companys in the 4th Brigade which — in my opinion — ought to be notised — it is in the 4th Regt — the Town of Trumbull under the old Law formed one Company — and altho this Company was formed from local Limits without Enlistment yet for a number of years had been intitled to the priviledgs of a Granidier Company in the Late 28th Regt and the officers Commisions ware granted accordingly — when the Adjt Genl was here he asked my advice what ought to be done the Case being singular — perhaps not another in the state — I hardly new how to form my opinion — as it was undestood that all flank Companys ware to retain there priviledgs — yet a flank Company Could not be Compeled to dress in uniform without Enlistment — and that no one could be compeled to Enlist under those Surcumstances however — the Adjt Genl thought proper to cover the Town of Trumbull within the Limits of the nearest Company and that would drive all in that Town to Enlist rather than go a distance to perform Military duty — to have formed two Companys in the Town of Trumbull would destroyed both as their is but men enough for one good company — the experiment has been tryed — the Limits of a Company formed in the North part of the Town of Stratford — the No. I do not recolect — was extended over the whole Town of Trumbull — this in part had the affect expected for at lest 9 tenths of them Enlisted imediatly which formed an handsome Company — — but now coms the dificulty — — in every Town their is more or less persons — that is doubtfull wheather they ought to do duty or not — another set of Crabed

ones — Likewize new sujicts arrive at a proper age to do duty dayly — of corse the officers of the Stratford Company have every muster day to traverse over the whole town of Trumbull to sarch out *amongst strangers* and warn those who will sildom if ever appear in thir company for if they are such as would ornement thir company — they will imedialey Enlist after warning — the officers have complained bitterly to me — and the Sergts have all Come to the determination to be turned into the ranks if they are ordered on this duty again — further in the Town of Huntington two Companys are formed — and it is evident from the information I Can get that the Company in parish of New Stratford taks more than a proportion of the men in that Town — the Company in the parish of Ripton being much the smallest under the old Law their ware 2 Companys in this town and the Ripton parish Company the largist — the Adj^{t} Genl altered the Limits by takeing from Ripton and placing to New Stratford Company — but he took two much the diferance in favour of New Stratford is now about the same as it was under the old Law in favor of Ripton I barely give your Excellency this informan without any opinion of my own — and have no doubt your Excellency will parden me for So doing and will [take] such notis of it as its merrits deserves — — — — —

subject, to whom we shall endeavour to give such information as will be satisfactory & promote as far as in our power his laudable undertaking.

On the particular point to which your Excellency's letter refers, we take the liberty of stating, that the north line of this State, as far as it has been ascertained, is laid down correctly on the map published by our late firm. The west side of the river including the break opposite Granby is a line agreed upon by the two States, & is from actual survey; that east of the river is an *unsettled line* & by the advice of the late Governour Griswold to whom the question was particularly submitted it was laid down a *strait* line. We shall at all times be obliged by any information that will enable us to render our map more correct; and have no objection to the communication of any intelligence that may be useful to Mr Eddy, whose plan according to his letter to us, is to publish "an American Atlas". —

Sir,

Your Excellencys favor of the 8th. instant is rec^d, and I am happy to have it in my power to state, that the location of the officers in the companies affected by the proposed alteration could hardly have been more fortunate, there is in Plymouth no commissioned officer except those assigned to the flank company, in the proposed 1st, Company. One Captain, two Lieutenants (one of which is out of health & has applied for a

discharge) and one Ensign, in the 6th, company one Captain and one Ensign, therefore there will be no loss of officers by the proposed arrangement.

When I was at Plymouth last week I called at Genl, Potters, he was not at home and I was not able [to] learn his opinion respecting the alteration contemplated. I saw him yesterday at Litchfield, he said he regreted it verry much that he did not see me as he was anxious that Plymouth should be formed into one company, and when I informed him of the alteration I had proposed to your Excellency, he appeared verry much pleased with it,

[11:73]

MIDDLETOWN March 13th 1817

I recd Your Excellys Letter of the 8th last night. I was aware that in the description of the Rifle many things were mentioned which could not be *ordered* — it was thought expedient however to give a complete description of a Rifle, & the order as to length & Caliber being given, the rest might be matter of recommendation.

I think 2 ft 9— a sufficient length for the barrel, whether the Bayonet is used or not — a barrel if three, with so large a Caliber as 32 pr lb is heavy as to be inconvenient. Nothwithstanding the present standard of the War department is 3 ft — yet the Rifles now making for the U. States are but 2 ft 9 I — & are considered as improvements on the standard.

I am also of opinion that the order relating to the Rifle

should issue now — the Legislature can make provision for the Bayonet before any contracts can be completed. And many of the Companies only wait a Recommendation to get there Rifles Bayonets &c

It will not probably be in my power to recommend an Uniform for the Brigade & Regimental Staff untill May. I have sent to Washington to get some further information relating to Uniform, shall probably receive it this Month — I shall then call the Field Staff Officers to consult & advise

As there is no essential connection between the Uniform of Companies & that of Field Officers, & the Men are anxiously waiting to get there Uniforms, I hop y^r^ Excel^y^ will be induced to issue an order as respects the Grey Uniform immediately. Perhaps the same object may be accomplished, by giving me an official acceptance of the Uniform proposed & an order directing the length & Caliber of the Rifle — that I may issue an order & recommendation as suggested.

Most of the Companies will be in Uniform in May if that is done.

I can then issue an order & recommend such things as may not be included in an order — —

Sir

I have received your favour of the 6th instant — The

foregoing, which may be seperated from this letter, is an order authorizing the officers elected by the 3rd. flank company in the regiment under your command to act in their several capacities until the rising of the next General Assembly —

The uniform proposed by the company meets my approbation — I think however their coats should be shorter than those of the infantry — a distinction which you are sensible is always considered as appropriate to light troops — I have no doubt the company contemplate the same thing, altho' it is not expressly mentioned in your letter —

The Adjutant General had informed me of the mistake you mention in the description of the 5th company in your regiment — and I am about issuing an order to correct that and a few similar errours which took place in the organization in consequence of not knowing at that time the true state of facts — The order is delayed only until returns can be received from some other parts of the state — Should it not reach you in season for the May trainings you are hereby authorized & I issue instructions accordingly to consider that the whole of Muddy brook Society (as well that which lies in Thompson as that which is included in Woodstock) is to be comprized within the limits of the 5th company — such being the original intention —

His Excellency
John C Smith Esqr
Sir

By the particular request of the Captains in the first regiment of Horse Artillery I am induced to address your Excellency on the subject of a further order relative to the enlisting of men from the Infantry companies

The 5th section of our Militia law provides that the enlisted companies shall be filled from exempts or from such companies of infantry as the commander in chief may direct &c

In your Excellencys favor of the 9th March 1816 was contained a permission to recruit from such portions of the late State troops as had not entered any select corps. If a further latitude should be required to give the companies their complement your Excellency expressed a wish to receive the information.

It has been found impossible to obtain many recruits from the State Troops, most of them having entered some other select corps There is no difficulty in enlisting suitable men from the infantry if the authority were given. There is a general wish among all possessed of horses to join the Horse Artillery

Ninth company — Oxford —

The uniform dress for the Riflemen reported by the Brigadier General under date of the 28th ultimo and 7th instant is hereby established and that officer will communicate the details to the corps accordingly; reserving nevertheless to such companies as have adopted the uniform of the late State troops under the permission heretofore given, the right to retain the same or to assume the dress now proposed, at their election — —

The barrel of the Rifle will be two feet and nine inches in length with a caliber to carry a ball of half an ounce avoirdupois; the rifles to be procured within twenty months from the date of the present order —

Sharon 22. March 1817

Dear Sir —

I have received your favour of the 9th instant, and have transmitted a copy of it to the Adjutant General for his report thereon — It shall be my endeavour to remove the ground of complaint if possible — Be so good as to favour me with your opinion whether the flank company in Trumbull may

not with propriety be made *a located* flank company under the late resolve of Assembly giving that power to the Commander in chief? —

I have Sent the Supplementary order to the Adjutant General for distribution, and must therefore request you to forward to him by letter at an early day the information respecting the 6th company 9th regt. referred to in my last — and I will thank you to transmit the same information to me also — It is not necessary to delay that order for the purpose of making the alterations you suggest — They may be provided for by a special regulation adopted to the particular cases —

Sir

In reply to your letter I would observe that it is a standing regulation not to discharge a sergeant on the ground merely of his having been superceded, nor indeed on any ground without a particular recommendation from the Colonel or an officer superiour to a Colonel. There may be circumstances in your case entitling it to an exemption from the general rule. As you have referred to Major General Isham, I should be glad to receive from him a statement of the facts & his opinion — It will give me pleasure to afford you relief if it can be done with propriety —

I am Sir your obedient sert.

GENERAL ORDERS —

[11:82]

State of Connecticut March 22nd 1817

To correct certain errours which from the want of precise

information, arose in arranging the Infantry under the General orders of the 15th August AD 1816 as well as to introduce such modifications into that arrangement as experience has shown to be advisable, the Commander in Chief has thought proper to establish the following alterations (in the organization of the Infantry) — to wit —

In the Third Regiment

The Seventh company instead of its present limits will hereafter include the Society of Millington and the whole of the Society of New Salem.

The limits of such companies as may be affected by this regulation are to correspond therewith —

In the fifth Regiment —

The description of *the Second company* as contained in the General orders of the 15th. August last is hereby so varied as to substitute the words "the town of Plainfield" in lieu of the words "the first society in Plainfield" — and that part of the town of Plainfield which lies within the bounds of the first society in Canterbury is hereby annexed to *the fifth company* — The limits of the said Second and fifth companies are to conform to this regulation —

In the ninth Regiment —

The Sixth company (which is erroneously bounded in the general order above mentioned) will hereafter comprize the following limits — to wit — that part of Norwalk which lies west of a line beginning at Wantwood's cove, thence following the brook to the bridge near Walter Hoyt's and thence to David Pine's — thence northwardly to the house of Epanetus Kellogg — thence north by the road to New Canaan line —

In the eleventh Regiment,

The *fifth company* will include the whole of the Society of Muddy Brook (so called) lying in the towns of Woodstock and Thompson — The limits of the fifth & sixth companies are comsequently to conform to this regulation —

A *third flank* company is established whose place of rendezvous is in the society of Andover — —

In the Sixteenth regiment

The first company instead of the limits heretofore assigned to it will hereafter include that part of the first society in Litchfield which lies East of the line described as the eastern boundary of the fifth company — and also the Society of Northfield in Litchfield —

The Sixth company instead of the limits heretofore assigned to it will hereafter include the Society of South Farms —

The *third flank company*, in virtue of a resolve of the General Assembly passed in October last, is hereby constituted a *located flank company* embracing all subjects of military duty within the town of Plymouth excepting such as either have already legally enlisted or may hereafter duly enlist into other corps. —

In the twentieth Regiment —

The First company in addition to its present limits will hereafter comprize that part of the society of Hadlime which lies in the town of East Haddam —

It having been represented to the Commander in Chief that in the twenty fourth regiment the officers assigned to the third company should have been allotted to the eighth and that the officers assigned to the eighth company should have been allotted to the third; the colonel of that regiment is hereby authorized on his ascertaining the existence of the alledged mistake to correct the assignment accordingly —

By order of the Commander in chief —

Remarks —

Your plan of sending extracts of the order to such brigades as are interested therein without transcribing the whole for each, meets my approbation —

As you seemed in a former letter to be in some doubt whether the annexation of a part of Plainfield to the 5th comp. 5th regiment was really called for would it not be well to *ascertain* the [ ] of it before you transmit the extract to that brigade — The order may be varied accordingly if necessary — If you feel certain however no delay need be made —

I have waited for but have not yet received official information from the Brigadier General whether the mistake in the description of the 6th company in the 9th regiment really exists

— but I have little doubht of it — I shall however this day write to Gen[l]. Foote to send the statement to you — & you may delay sending that part of the order for a short time — I herewith send you a copy of a letter from him relative to some other alterations in his brigade & am desirous of your opinion respecting them — How would it answer to *locate* the flank company in Trumbull? — The present order need not be delayed for these purposes —

Major Selden was to have sent me before this the express assent of the 2nd. flank company in the 3rd. regiment to their being disbanded — It is not yet arrived, I therefore say nothing in the order respecting that and the *number* of the Millington flank company — a seperate order for those two objects may be hereafter made —

SHARON 22. March 1817

Dear sir

I have received your favour of the 6th. instant —

Enclosed you have a General order relative to the Rifle corps — I suppose it will be only necessary to send a certified copy of it to Brig. General C. Whittelsey — At some convenient time I will furnish you with the report containing the details of the uniform to be preserved in your office —

I also enclose a General order regarding the Infantry — The remarks subjoined to the order supercede the necessity of observing further than to request you will see that the New Salem company is duly supplied with officers — It so happens that the alterations in the 16th. regiment require no new arrangements respecting the officers in the 1st & 6th. companies — nor in the located flank company —

The copy of a letter from Gen[l]. Foote herewith sent is

noticed in the explanatory remarks above mentioned and I doubt not will receive due regard —

I have received a letter from the Secretary of war requesting a printed or manuscript copy of our law organizing the militia, in pursuance of a resolution of the Senate of the U. States — a similar request it seems is made of the Executives of the other states — I must desire you to transmit to the Secretary one of the copies you have lately procured to be printed — and I shall accordingly notify him that he may expect it from your office —

[11:84]

Sharon 22. March 1817 —

D^r^. Sir

Your letter of the 19th. instant is received — By adverting to the General Orders of the 15th August last at the 24th. page of the printed copy you will perceive that the Horse Artillery as well as other select corps are authorized to recruit from the Infantry under certain limitations — If there are no supernumeraries beyond the legal complement of the infantry companies, it will be necessary, before additional orders are given, to make known to me the actual strength of the infantry in the vicinity of the Horse Artillery company proposed to be recruited and the number of recruits the latter may require, so that a due proportion may be procured —

It was hoped that the consolidation of so many regiments of infantry would furnish a sufficient number of men to fill the

select corps without reducing the companies of infantry below the legal standard —

WESTON Con^{t}, March 22^{d} 1817 — —

To His Excellency John Cotton Smith,

Sir,

Colonel Hall placed in my hands a letter from you requesting to know whether the Company that associated in Weston as riflemen, were desirous to be formed into a flank Company of Infantry agreeably to your Excellencys, proposition, Suggested at New Haven in Oct^{r}, last, & Stating that you were Authorised to accept them as Such, Should they present their Application for that purpose — — — Agreeably to your Excellencys request, as the purport of this communication, I requested the Company to convene on the 20th instant, at the place previously chosen for their parade, for the purpose of Ascertaining their Minds on this Subject, at which time & place (the day not being verry favorable) there was about 30 of the Association attended, & out of that number 26 Signified their wish to become a flank Company, & likewise some that I have promiscuously Seen Since that day — — —

It is the wish of the Company, if your Excellency thinks proper to favor it, that the Old Rifle Association may be transfered to that of a flank Company without any alteration — But not knowing but your Excellency would require a New petition for the privilege of a Flank Com^{y} have thought proper to Subjoin one that might be made Use of in case your Excellency Should deem it Necessary — — Which would tend to prevent further delays, & unnecessary communication on the Subject — — —

Very Respectfully your

PETITION FROM CHATHAM

[11:86]

To his Excellency John Cotton Smith Esq Governor of the State of Connecticut, the subscribers Inhabitants of the Town of Chatham & residing in the first Society of said Town respectfully represent —

That they are members of the third Company in the 20th Regiment of Infantry in the militia of this State, and that thier are within the local limits of the said Company about one hundred & thirty persons who are by law liable to perform military duty, — — that the subscribers and the members of the said Company generally who reside in the said first Society are extremely incommoded by the present organization of the militia, & are subjected to burthens to which they cannot feel reconciled, & which they presume your Excellency on being made acquainted with them, will deem to be unreasonable — that the present extreme limits of the said Company are at least fourteen miles distant from each other on a right line, & that according to the present arrangement the subscribers are at least six miles distant from the place of the Company parade, & that they will probably be compelled to travel from 12 to 20 miles to attend regimental reviews, — — that in such a state of things it will frequently be less expensive for the members of the said Company residing in the said first Society to omit their military duty altogether & to submit to the fines imposed by Law, than to perform their duty — — The subscribers would further suggest that within the limits of the said first society their is a sufficient number of persons liabl by law to perform military duty to compose a company which would be respectable in point of numbers, and that the present inconveniences & burthens of which the Subscribers complain would be obviated and relieved if a Company of Infantry were organized within the limits of the said first Society and anexed to the 6th Regiment — In such an event the travel of the subscribers to perform their military duty on Regimental reviews would be from 3 to 6 miles.

The subscribers therefore respectfully solicit your Excellency to take the subject into consideration and on being satisfied of the justice of the above representation to make the arrangement which the subscribers have suggested

This petition was presented by Mr David Cornwall on the 1. April 1817. To obviate the difficulty in part (at least) it is proposed that the 3rd company be confined to the limits of Middle Haddam (provided there is a sufficient number) — and that the portion of the first Society in Chatham now belonging to said third company be formed into *a located flank company*; and as doubts are entertained whether the annexation of the company to the 6th regt can be legally be made, that they be considered as the 3rd flank company in the 20th regt for the present —

Beginning at Wantwoods Cove so Called — thence following the Brook to the Bridge near David Prices Dwelling House — thence Northerly to the Dwelling House of Epenitus Kellegg — thence by the road to New Cannan Line — including the Houses on both sides the road — in answer to your Excellencys request for my opinion as to the propriety of forming the flank Company in Trumbull into a Located flank Company in conformity to the act deligating such power to the Commander in Chief — I am sorry to find the Letter of the 5th Section of the Military Law bore so hard against such a proseeding — yet the Spirit of the Law may be much in favor — and Justice and propriety (as this Case stands) altogether in favour — the Law must be

EBENEZER HUNTINGTON TO JOHN COTTON SMITH

[11:90]

NORWICH 27th March 1817

My dear sir

Your Excellencys favour of the 22d with the inclosures therein referred to have been duly recd, and shall severally receive the necessary attention to meet your wishes — — — Respecting the subject of the company in Trumbull to which General Foote refers as a solitary instance — — permit me to say has frequently occurred in the formation of the Militia — — it was a course imperiously *demanded*, the law *required* a flank company to be in uniform & composed of inlisted men at the same time confirming former privileges — — In many instances I could find flank companies (holding such situations) from usage, some from *public* acts & some from resolves — — their attachments too strong rivetted for me to hazard a breach, unless modified in some degree to meet the law & comport with your instructions given on that occasion Your Excellency can form a pretty correct opinion of my situation, carrying a law into effect (the expediency of which I doubted) the letter & spirit of the law at variance in some degree, the jealousy of encroachment on priviledge either from law or usage *claimed*,

necessarily demanded that a course should be pursued the most conciliatory possible, not losing sight of the law — — The Case at Trumbull as stated by Gen[l] Foote was one which perplexed me, but from the advice of Col[o] Burr & Col[o] Burritt backed by Gen[l] Foote & the other officers I pursued the course reported to you forming the 4th reg[t] — — My *recommendation* on such occasions was to have the officers of the company select some suitable person in those extended companies for a non comm[d] Officer, (& let him be recommended to the company for the appointment), whose duty it would be to look up those whose age subjected them to duty & have them enrolled & also to warn all for duty who were liable by law — — The limits for the companies in the fourth regiment were agreed on by the officers present whose knowledge of the Geography of the towns I much respected — — How far your Excellency may think it expedient to form a *located* flank company in the present case is not for me to determine — — but I cannot avoid remarking that *by the law* every part of the state is comtemplated as being within the *limits* of a Battalion Company — — I think it probable General Foote may be able to give *a better dividing line* between New Stratford & Ripton Societies, than the one reported by me — — I can and do sincerely regret the unpleasant trouble which your Excellency has experienced in fixing limits to such jarring elements as compose the military companies — — Having completed a form for a circular for the Captains of Companies I have enclosed one for your Excellency — — Please accept assurances of my best respects for yourself & M[rs] Smith & believe me

very sincerely yours — —

The case of this Officer has been heretofore stated to your Excellency both by Judge Smith & myself, & the reasons which were offered were deemed sufficient — He was not discharged because it was doubted whether he understood that he might afterwards be obliged to serve as a private — He is willing to take that riske upon himself & is still anxious to be released — I can only add that nothing to my knowledge has occurred since I conversed with your Excellency on the subject which renders it necessary that he should be retained in service, but that all the reasons for his discharge remain in undiminished force —

SOPHOS STAPLES TO JOHN COTTON SMITH

[11:92]

NEW HAVEN March 29th 1817

To his Excellency John Cotton Smith,

As I neglected by mistake in my last to mention the feathers,

it becomes necessary to communicate with your Excellency upon that part of the Uniform of the Light Infantry. — As the red topped feather and red plume seems not to correspond with the rest of the Uniform, the Officers and men have a wish that blue might be adopted: The Captain a blue and two black plumes, the other commiss[d] officers a large blue plume, the non commissioned officers and men a blue feather. Could your Excellency approve of this, or point out some other ornament for the Cap suitable to such an Uniform or leave it optional with the officers and men to take blue or black, this part of the dress would then be settled and the whole Uniform for the spring training established. There may be some difficulty in procuring the blue feather for the men, the black may be readily had; if however the blue can be found cheap in New York, they would look much better with our dress than any other. The non commissioned officers are to be distinguished only by their yellow shoulder knots, and the commissioned by the button which is round and of a larger size than the men's, epauletts yellow and ornaments and plumes in the cap. — —

JOHN COTTON SMITH TO ENOCH FOOTE

[11:95]

SHARON 5. April 1817 —

Dear Sir —

You will recollect an Association was formed last year in the town of Weston for the purpose of constituting a company of Riflemen — From the representation then made to me I thought favourably of the proposition — But it afterwards appeared by a remonstrance from the colonel & other officers of the 24th regiment that altho' the companies of infantry in that vicinity might not thereby be reduced below the legal complement yet that the regiment itself was not sufficiently large to justify such a diminution of its strength — The project was therefore abandoned to the great regret of the associates — I gave them encouragement however in October last that they might be formed into a flank company in the 24th regiment, provided the legislature should authorize any additional flank companies & be raised — Before the Session closed a resolve was passed by the Assembly in these words "that in all cases where in the opinion of the Captain general it will contribute to the strength or convenience of the militia he is empowered to raise or establish more than two flank companies to a regiment of Infantry and to locate the same as he shall judge expedient — provided the same be done before the rising of the General Assembly in October next" —

I have received by the last mail a letter from Mr James Prince one of the former associates in Weston enclosing an application to be formed into a flank company in the 24th regiment —

subscribed however by thirty names only — It is stated in the letter that the others would join as soon as an opportunity should be afforded them for that purpose —

It would be improper in my view to organize so small a number into a company — But to save time I have this day informed Mr Prince that when the application is filled with a sufficient number *without reducing thereby any battalion company below its legal complement,* he may deliver it into your hands and that you would accept it on those terms in my behalf & issue orders for a choice of officers — Accordingly it is my desire that you will take the trouble of receiving the application and *if the conditions above mentioned shall be complied with* that you will accept in my behalf the associates as the third flank company in the 24th regiment and issue orders to some suitable person to lead them to the choice of their officers —

I am Dr Sir with sincere regard
your ob^t^ & hm. Ser^t^

B. General E. Foote

N.B. I have received your favour of the 24th ulto — The authority to form & *locate* additional flank companies you will perceive is contained in the resolution mentioned in the foregoing letter — You are correct in supposing it not to be conveyed by the Act of October 1815 — May not the town of Trumbull be relieved under the resolution?

It is not expedient to assign meter & bounds to the proposed flank company in Weston

Your letter of the 24th ult^o^ — postmarked 31st is just received — It would be improper to organize *thirty men* only into a flank company — To save the time & trouble of multiplying communications on this subject I now forward instruc-

tions to General Foote to receive the application in my behalf when it shall be filled with a sufficient number of subscribers without reducing any battalion company below its legal complement, and to issue orders thereupon for a choice of officers — If the choice is announced to me in season, authority will be given the officers elect to act in their several capacities until the rising of the next general assembly —

SHARON 5. April 1817 —

Dr Sir

In accidentally looking at a memorandum of the General order under date of the 22nd March last, I am led to suspect that a mistake occurred in the copy sent you — that is to say — in establishing a third flank company in the eleventh Regiment I intended to have made its place of rendezvous the Society of *Abington* in Pomfret — — but I fear I have erroneously put down *Andover* instead of Abington — If so it was a mere slip of the pen & I must request you will take immediate measures to have it corrected — — An order had not long before been sent to the Colonel of the 11th to establish such a company in Abington in consequence of urgent recommendation from him & some of the best men in that part of the country — & orders had also issued for a choice of officers — It was mentioned in the General order merely to preserve the evidence of the arrangement in your office —

Sir

Your letter is received — If you are furnished with the printed General orders of the 15th of August last, you will find I apprehend they contain such instructions as will enable you to recruit the company under your command — On the 24th page are these words — towit —

The battalion companies in your neighbourhood as reported to me must be sufficiently numerous I think to furnish the recruits you require without reducing them below their legal complement — If not, let their actual strength be stated from the muster rolls, that such orders may be given as shall be adapted to the case — I cannot but hope however the orders now in force will be adequate to your purpose —

NORWICH 9th April 1817

My dear sir

Last Evening your Excellencys favour of the 5th came to hand; and on examination I find that the error to which you allude had occurred — after I had discovered the error, I had an opportunity of sending direct to General Salter to correct the error which he will receive this evening — — — The formation of the 3d flank company in the 11th regt was unknown to me until the receipt of the General order; and indeed thus, by establishing the rendezvous in Coventry I supposed it an appendage to the 21st

Accept assurance of my respect & esteem,
I am yours very sincerely —

EAST HADDAM April 9th 1817

Sir

At a meeting of the associated Flank company in Millington, it was proposed and voted that the said compy should Uniform themselves, in the following manner (viz) A black Leather Cap, with a strip of bear skin across the top, and in every respect similar to those worn by the Hebron Flank Company except a green Feather, and red top — a Coatee to be made of Blue woolen Cloth, red collars & cuffs, made single breasted and to button up close in the neck, and then two extra rows of buttons, one on each side, trimmed with white cord, from each button to the edge of the forebody, — — two buttons on each side the collar, — — three on the upper side of each cuff; — —

the pocket-lids to have four buttons on, or immediately below them; and all of them to be trimmed with white cord — — the skirts to be turned up with red — — — a white Vest — — — Blue woolen pantaloons trimmed with white cord — — black leather Stock and Boots — — — — — — — —

The above is respectfully submitted to your Excellency, with a desire that it may be established as a Uniform for said Flank Company, should any part of it not please; — the Company it is presumed will cheerfully comply with any alterations which may be thought necessary — — — — — — — —

Since the company was led to a choice of officers, there has a number of men (belonging to this society) came forward to enlist, who did not have an opportunity to sign the petition, and they are now subject to be called to New Salem by Capt Morgan — — I therefore beg your Excellency to give immediate orders for the enlistment of all those who are in our limits, that each may enjoy the same privileges in doing military duty

Your letter containing a request to be discharged from military duty is received — You do not state whether you are an officer or a private in the militia — If you are an officer the recommendation of your colonel is necessary before a discharge is given — If you are a private and actually labour under the bodily disability you mention there can be no need of a discharge — Your captain will not surely report you as delinquent — and if he should the board of field officers on full proof of your infirmity will not subject you to fines —

JOHN COTTON SMITH TO SIMEON HUNTINGTON

[11:105]

SHARON 12. April 1817

Sir

I wrote you on the 8th March in answer to your letter of the 3rd of that month. The petition you then alluded to was presented on the 10th instant. It has twenty one signatures — with its contents you are undoubtedly well acquainted. The substance of the representation is that the petitioners were deceived in the organization of the 2nd flank comp. 7th regiment — they did not suppose that by barely signing the original petition for a flank company, they were of course to be considered as members of that company, but that proper enlisting orders would have been given to which they might subscribe — and that in consequence of this impression several of them did not attend the choice of officers — they therefore pray that the proceedings may be annulled & orders issued for an enlistment & a new choice of officers —

I informed Mr Scofield who delivered me the petition & who appeared to treat the affair with much candor that I would write you on the subject by the first mail — and should wait your answer — I gave him at the same time to understand that the company was formed agreeably to what I conceived to be the established usage — that if any individual however had signed the original application either from any misrepresentation made to him or fraud practiced upon him, he might be relieved as any other soldier would be who had been deceived into an enlistment & the remedy in such case would be to return him to the battalion company within whose limits he resided — Mr

Scofield assented to all this, and seemed to think there were not more than five or six who pretended to have acted under erroneous impressions, and that if these were permitted to leave the company tranquility would probably be restored — He further stated that some complained of the expensiveness of the uniform which had been proposed — I observed to him that the company had not yet applied to me for the establishment of their uniform & that I should certainly recommend to them to avoid an *expensive dress* if they hoped or expected to obtain future enlistments — this being in my opinion the point on which flank companies have heretofore failed more than on any other —

I shall be gratified Sir to hear from you at as early a day as may be convenient — I trust you fell the importance of healing the division which appears to subsist in the company by means the most prudent & conciliatory — and I flatter myself an object so desirable will be accomplished —

Whilst Mr Scofield was here I discovered to my great surprise that the original order issued by the Adjutant General for the choice of officers is now amongst my papers — The mistake has originated from causes which I doubt not admit of a very satisfactory explanation — I apprehend therefore there will be no difficulty in obtaining the commissions at the next session — The captain general for the time being will lay the order and return before the legislature and the commissions whenever issued will confer rank from the date of the order —

I am Sir respectfully your
ob^t^ Ser^t^

Captain S. Huntington

N.B. I would remark that as it is believed the General orders heretofore issued regarding the uniform do not extend to newly raised flank companies, their dress will be established by a special order — I have thus far consulted the wishes of each company, but have also earnestly advised them to request a uniform that will not be oppressive to men in moderate circumstances.

[11:108]

Sir by a Late Law the Capt Genereal is authorised to discharge Commissioned & Staff Officers & Serjeants, Serj Daniel Murray having done Military duty for about 15 or 16 Years wishes for a discharge

Serj Murray became a subject of Military duty about the Year 1801 he continued to do duty in the 3d Comp 25 Regt as a private Soldier until Sept 1807 he was then appointed 4th Corporal in sd Company in May 1809 he was appointed 4th Serj & continued in that Office about 2 Years; He then removed within the Limits of the 7th Comp 17 Regt where he was enrolled & performed duty as a private Soldier — — after which he was appointed a Corporal in sd 7th Comp and Continued in that Comp about one Year. In the Spring of 1812 he removed back into the Limits of the 3d Comp and was enrolled [torn] [a]s a private Soldier (his place as an Officer [torn] Comp being filled) In Sept fo[llow]ing he was reappointed 4th Corp in the Comp — — and Continued to do the duty of a Corp until May 1814 when he was chosen 4th Serj and remained in that office gradually rising by degrees till about the year 1815 he became the orderly serjean in the Comp. In the reorganization of the Militia in 1816 part of the 5th Co. 14 Regt was annexed to the 3d Comp which brought 2 Serj making 6 Serjts in sd 3d Comp One of those Serjt's warrant outranked Serj Murrays warrant which reduced him to the 2d Serjt, under all these discouragements he does not feel that ambition which a Man in that Station ought to feel I conversed with General Hurlbut upon the subject who is well acquainted with Serjt Murray & he thought that under the above embarrassments he Could not do himself any honor nor Justice to the Company. My Subaltern officers concurred in the above opinion I think I can say with propriety that he ought to be discharg'd from any farther service in the military Line & honorably discharged — —

It may seem strange to you that Serj Murray does not come himself but the reason is he has a Large stock of Cattle and no hay scarcely and he his oblige to be with them constantly

Now Sir if you think that you can give him a discharge and forward it by the first mail after the receipt of this directed to me I will hand it to him

SHARON April 24th AD 1817

Honoured Sir, the multiplied reasons of my desiring a discharge from my office, are, many debilities & infirmities, many

inabilities which my experience has lately apprized me of, which render me unfit to do honor to the cause. In addition to this, my age has advanced me almost to the period of release, in which I have uniformly and almost unexceptionably attended on my duty as a soldier & officer. The pride and ambition I once indulged in the military business has mostly ceased. Add to this the number of young men who desire office, of aspiring & judicious minds better calculated to honor their officer & do good to their country than their unworthy predecessor These are my reasons Respected Sir, submitted to your consideration with all due deference by your

WETHERSFIELD 25th April 1817

Sir

Agreeable to the liberty, with which your Excellency was pleased to indulge us, I called a meeting of the company under my command, when we made choice of the following uniform. — —

The officers non-commissioned officers & privates to wear a black leather cap or helmet, the form of the crown resembling an inverted cone, of about seven inches in height; the crown of the cap to be trimmed by being surrounded with a band of red leather one inch & a half in width with a small frontispiece of white metal — — with a chain of white cord, to hang in form of a festoon on the front & back sides — — with two white tassels on the left side — — and red feather, to be worn in front, to rise six inches above the crown. — — The vests to be made of white woollen cassimere, with white metal buttons, trimed with black cord. — — The pantaloons to be made of blue

woollen cloth, trimed with silver lace on the fall & side seams. — — The stock for the neck to be black & made of leather. — — To wear bootees or half boots. — —

The coats of officers to be the same as those described in the General Orders of Feb. 17th & Dec. 31st 1812 excepting the skirts which are to be somewhat shorter & lined with red. — —

The non-commissioned officers & privates to wear coats similar to those described in the General Order of Feb. 17th 1812 excepting that *each* corner of the skirts is to be turned up with red. — — To wear a red worsted sash round the waist, the sash to be not less than six inches in width. — — The belts to be made of white webbing. — — —

The coats of musicians to be the same as is described in the General Order of Feb. 17th 1812. — — To wear a round black hat, with a black silk cockade on the left side of the crown. — — In other respects their dress is to be the same as is to be worn by the non-commissioned officers & privates. — — —

The expense of the uniform we have agreed to adopt will exceed, but little, I think, that worn by the battalion companies — — The cap will cost, with trimings $4.50. — — The lace to be worn on the pantaloons, is of a narrow kind, & can be bought for about 6 Cts. a Yd. — — The sashes to be worn by the non-commissioned officers & privates will cost probably about one dollar each. — — You wish me to state the period within which I think the uniform can conveniently be obtained — —I would therefore name the first day of September next. — — —

obedient Servant

HADDAM May 6th 1817

Hond Sir

Having been absent at the time of the arrival of Yr Excellencys letter relative to the petition of a part of the 2d Flk Comy 7th Regt & not returning untill within two days have not had an opportunity of replying untill now. I had offered to permit the disaffected Soldiers to be enrolled in the battalion comy if it was wished & I could have an equal number from the same company if they were disposed to enlist; but this appears not to be the thing they want. A new choice of Officers seems to be what is wished by the leaders of the petition & yet they signifyed to me that they did not wish to change their Commander. I have therefore no interest i[n] opposing their petition except what arises from an idea of the impropriety of the thing & a sense of the respect due to the feelings of my subordinate officers. The soldiers who omitted attending the meeting for choice officers on account of not being enlisted, have never made them selves known to me; but those who refuse duty are persons who were present & acted with the company untill it was organized. Respecting the uniform there has been no alteration from the dress before worn except procuring caps which cost $4.50 each, and the time from the companys being first embodied & voting to have caps untill the time of the review was so short as to preclude the opportunity of making application for the alteration in the head dress. As it was verry desirable to have the company appear in full uniform at the meeting of the battalion & as Your Excellencys temporary commission sanctioned an immediate equipment of the company & Officers I hope it will not be viewed as transcending what may be allowable in the case. No one of the company appears dissatisfyed with the procuring caps & the soldiers esteem it a more economical head dress than before worn. That the petition did not originate from a desire to benefit the company I believe your Excellency may be convinced if a more minute investigation of the circumstances is thought expedient.

Verry Respectfully Your Excellency Humble Servant

By adverting to my letter of the 22nd March last you will perceive I therein observed that it is a standing regulation not to discharge a Sergeant *on the ground merely of his having been superceded* — that there might however be circumstances in your case entitling it to an exemption from the general rule — that as you had referred to Major Genl Isham I should be glad to receive from him a statement of the facts and his opinion — and that it would give me pleasure to afford you relief if it could be done with propriety —

I need only remark that on receiving the statement of Col. Moore I could not discover any ground to vary your case from many others in which discharges had been withheld —

At the time I saw you at Newhaven you informed me that the organization of the Militia was not completed and that it would be necessary to issue an additional order for its completion and that it would be advisable that the rank of the two flank companies in the 14th regiment should be determined that the decision respecting them may be included in that order.

We had expected in the course of the winter past to have seen the order alluded to but having never seen it we have thought it probable that it has not been promulgated We wish for information on the subject so far as it has relation to us As the

unfavorable combinations of Episcopalianism with Democracy has deprived the Militia of your services as Capt. All the papers which came to my hands regarding the rank of the two flank companies in the 14th regiment were lodged with the Secretary of this state to be delivered over to my successor — — I intended to have referred the question to a disinterested board of officers — but a variety of other public engagements prevented me from accomplishing the object before my term of office expired — nor did it appear to me very important that the affair should be settled until some short time previous to the Autumnal reviews — — There is still ample time for that purpose and I can only add the expression of my sincere desire that the point may be adjusted satisfactorily to both parties —
